**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

INTRODUCTION

This is a report of State activity in the Food Stamp Program. The data contained herein is State reported data or data calculated from State reported data.

The tables are based on data for all of Fiscal Year 2004. October 2005 was set as the cutoff date for receipt of data for the States through the established reporting channels. It should be noted that the FNS-366B data is reported by State fiscal year, which varies among the States.

As may be expected in a report of this size and taken from multiple data sources, there are some apparent discrepancies in reported data. Most discrepancies are due to compiling the data at different times and from different data sources within the State. In some cases, the data may still be revised. To assist the reader, we have included End Notes at the conclusion of the report identifying the data sources and other pertinent information for each individual section. All data, with two exceptions, was compiled from the National Data Bank, the official repository of Food Stamp Program data. The report, itself, was prepared by the Program Accountability Division.

We have again included a recipient claims table that reports on the methods used by State agencies to collect claims against recipient households. Some of the data included in the recipient claims table is derived from administrative offset weekly statistical reports prepared by the U. S. Department of the Treasury. We have also included data on disqualified recipients from our Disqualified Recipient Subsystem, a Federal database that provides information on disqualified recipients to State agencies. In addition, a "Rankings" section again has been included in the report. That section contains tables that rank participation and issuance data, from high to low, for each State for FY 2004.

We also wish to point out that selected program statistical data and updates on electronic benefit transfer State status are available on the Food Stamp Program web page at www.fns.usda.gov/fsp.

If there are any questions concerning the data in this publication, contact either John Bedwell at (703) 305-2397 or Karen Peko at (703) 305-2481 or e-mail us at our website address PADMAILBOX@fns.usda.gov, or write us at:

STATE PARTICIPATION AND ISSUANCE

**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

NOTABLE TRENDS

Participation and Issuance

In fiscal year (FY) 2004, State agencies issued approximately \$24.5 billion in food stamp benefits to a monthly average 10.3 million households or 23.9 million people participating in the Food Stamp Program (FSP). The average monthly benefit was \$85.50 per person or \$198.44 per household. The Federal Government pays 100 percent of the benefits. In FY 2004, participation increased 12.2 percent from 21.3 million people the previous year, and issuance increased 14 percent from \$21.4 billion in FY 2003 to \$24.5 billion in FY 2004. Fifty-one State agencies had an increase in participation in FY 2004.

Electronic Benefit Systems

The Personal Responsibility and Work Opportunity Act of 1996 mandates that all States must convert from paper coupon systems to an electronic benefit transfer (EBT) system before October 1, 2002. EBT systems issue and redeem benefits using cards, electronic funds transfer networks, and point-of-sale technology in authorized retail food stores. In FY 2004, the Food Stamp Program converted 100 percent to EBT in all State agencies, including U.S. Territories and the District of Columbia. Specifically, forty-eight States, the District of Columbia, Virgin Islands and Guam have online food stamp EBT systems and two States have offline food stamp EBT systems. As a result, in FY 2004 \$21.1 billion was issued in electronic benefits to a monthly average 10.1 million households. At the end of the fiscal year, 99.4 percent of households were on EBT.

Food Coupons

In FY 2004, food coupon issuance continued to decline, accounting for just 1.28 percent of benefits. By the end of the year, with all States having converted to EBT for the original issuance, coupons were only being issued as conversions of the unspent EBT balance on the card to households who were moving out of the State.

Cash-out

Cash-out projects are limited to certain pilot projects authorized in the Food Stamp Act that either have continued to operate since 1981 or that were approved prior to August 1996. While technically not considered part of the EBT system for issuance, redemption, and reporting purposes, States with FNS-approved cash-out issuance systems (for wage supplementation, welfare reform, or other approved demonstration projects) may issue cash-out benefits electronically, in place of paper checks. Cash-out benefits may be issued electronically via either direct deposit or debit cards, which can be used at automatic teller machines to draw the

***FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004***

funds. In FY 2004, \$48.1 million in cash-out benefits were issued to 60,493 households in 7 States. Cash-out represented less than 0.2 percent of issuance.

Demonstration Project

In FY 2004, FNS tested in two States a demonstration project in which elderly households could choose to receive a food package rather than the standard benefit.

ADMINISTRATIVE COSTS

**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

NOTABLE TRENDS

Administrative Costs

State agency administrative costs are affected by a number of factors including participation levels, the number and salary level of State staff, inflation, the location of State agency offices, type of issuance system, worker training costs, degree of automation, level of fraud control activity, etc. The Food and Nutrition Service (FNS) pays approximately 50 percent of State agency administrative costs to operate the program. Total State agency administrative costs prior to Federal cost sharing were \$5.1 billion, up 1.5 percent from \$5.0 billion the previous year. In FY 2004, the Federal share of administrative costs increased 2.7 percent to just over \$2.45 billion.

The Federal share of certification costs increased 3.81 percent in FY 2004 from \$1.27 billion in FY 2003 to \$1.32 billion. The Federal share of the certification cost per case (i.e., per household) per month decreased from \$11.59 per case month to \$10.72 per case month.

FAIR HEARINGS

**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

NOTABLE TRENDS

Fair Hearings

Food Stamp Program regulations provide recourse to households that have their benefits denied or their allotment reduced, suspended or cancelled as a result of an adverse decision by the State agency. This recourse is called the fair hearing process. The number of fair hearings conducted by States is reported annually on Form FNS-366B, the Program Activity Statement.

In FY 2004, the number of fair hearings increased by 30.66 percent. Nationally, approximately 4.5 hearings were conducted for every 1,000 households participating in FY 2004. In FY 2004, 71.8 percent of fair hearings upheld the caseworker's decision compared to 68.5 percent in FY 2003. A total of 38 States had case worker decisions affirmed in at least 75 percent of the hearings.

FRAUD INVESTIGATIONS, PROSECUTIONS, AND ADMINISTRATIVE DISQ. HEARINGS

**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

NOTABLE TRENDS

Fraud Control

In FY 2004, State fraud investigations decreased to 745,697 compared to 863,813 in FY 2003, a 13.7 percent decrease. Both prosecution and administrative fraud hearing activity declined from the previous year. In FY 2004, the number of recipients disqualified from the Food Stamp Program for an intentional program violation declined to 55,088, a 7 percent decline from the previous year. About 67 percent of the disqualifications came out of the administrative fraud hearing process, compared to 68 percent in the prior year.

On the Federal level, FNS operates the Disqualified Recipient Subsystem (DRS). DRS is a centralized national database, utilizing data submitted each month by all 50 States, the District of Columbia, Guam, and the Virgin Islands, that tracks individuals disqualified from participation in the FSP for intentional program violations. DRS assists States in assigning the correct penalty, which varies by the type and number of the offense, to individuals being disqualified. It also assists States in preventing these individuals from crossing State lines and participating in another State during the period of their disqualification. Because an individual may be permanently disqualified, these records are held indefinitely. As of September 2004, this Federal database had records on over 959,000 recipients and over 1,033,000 disqualifications.

RECIPIENT CLAIMS

**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

NOTABLE TRENDS

Recipient Claim Collections

Recipient claims are established against any household that has received more food stamp benefits than it is entitled to receive. Claims fall in three categories: intentional program violation (fraud claims), inadvertent household error, or agency error. State agencies are entitled to 35 percent of fraud claims and certain inadvertent household error claims collected and 20 percent of the remaining inadvertent household error claims collected.

In FY 2004, State agencies established \$243.4 million in new claims against households for overissuances and collected \$201.9 million. The average new claim established was for \$432. Collections declined 2.4 percent in FY 2004. Collections via recoupment, in which the State agency uses a part of the benefit otherwise payable to the household to pay an outstanding claim, increased in FY 2003 due to the increase in participation.

During the fiscal year almost \$63.2 million out of the total State agency collections reported above was collected by the Federal Government through the Treasury Offset Program (TOP). As a participating partner in this program, State agencies notify the household and then send the delinquent claims through FNS to Treasury for possible collection under this program. This Federal program offsets amounts from any eligible Federal payment otherwise due a household and uses those funds to pay the outstanding claim. The collections are made by Treasury on behalf of the FSP. The Federal collections make up 31 percent of total State agency collections for FY 2004. In FY 2004, 52 State agencies participated in the Federal debt collection program. Since its inception in FY 1992, the Federal debt collection program has collected \$678.9 million in food stamp recipient claims.

TABLE 22: Food Stamp Program New Claims Established - FY 2004

STATE	Fraud Claims Established	Household Error Established	Agency Error Established	Total Claims Established
Connecticut	\$57,121	\$991,147	\$488,971	\$1,537,239

TOTAL	\$213.1	\$219.6	\$207.9	\$208.6	\$206.8	\$201.9

TOTALS MAY NOT ADD DUE TO ROUNDING.

1/ SOME STATES ESTABLISH POTENTIAL FRAUD CLAIMS AS HOUSEHOLD ERROR CLAIMS INITIALLY AND THEN TRANSFER THE CLAIM FROM INADVERTENT HOUSEHOLD ERROR TO FRAUD CLAIM AFTER THE PROSECUTION OR FRAUD HEARING. THUS, THE SUM OF THE FRAUD INVOLVED FROM PROSECUTION AND FRAUD HEARINGS IS A BETTER MEASURE OF THE AMOUNT OF FRAUD CLAIMS ULTIMATELY ESTABLISHED.

**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

END NOTES

State Participation and Issuance

Participation data comes from the FNS-388 reports and issuance data comes from the FNS-46. Average monthly participation and household participation in this report may not add for the national total due to rounding. The total participation data in this report is the average monthly participation from all systems for the fiscal year (12-month average). However, on the pages providing the breakdown of the participation data by benefit type the report provides the average monthly participation for the number of months that particular issuance system operated during the year to show the actual monthly participation when that benefit type was used. Not all benefit types were in operation for all 12 months as States terminated their coupon issuance systems during the year and one State started up its EBT system during the year. Because the number of operating months varies by system and by State, the breakdown participation numbers by issuance system do not always add up to the total participation monthly average in all States.

Negative coupon issuance occurs when coupons are returned.

Administrative Costs

Administrative Cost data cited in this section is derived from the SF-269; monthly participation data comes from the FNS-388.

Fair Hearings

Fair Hearings data cited in this section is derived from the FNS-366B.

Fraud Investigations, Prosecutions, and Administrative Disqualification Hearings

Fraud Investigations, Prosecutions, and Administrative Disqualification Hearings data cited in this section is derived from the FNS-366B.

Disqualified Recipients – Federal Data Base Status

The data cited in this section is derived from the Disqualified Recipient Subsystem (DRS) - a Federal system of records that is used to identify individuals with a prior disqualification record for penalty determination purposes and individuals who are currently serving a disqualification period from another State. DRS includes both current year and historical disqualifications.

Recipient Claims

Claims data cited in this section is derived from the FNS-209; Federal debt collection data is derived from the FNS Federal Debt Collection Biweekly Collection Report. All recoupment amounts are included in collections data.

**FOOD STAMP PROGRAM
STATE ACTIVITY REPORT
FY 2004**

Data on new claims established is included in Tables 22, 23 and 24. When referring to data in these tables it should be noted that some States show no or low fraud claims newly established because they establish such claims as household error and subsequently transfer the claim to fraud after the court or hearing officer's determination. Therefore we recommend that the data in Tables 16, 18, and 20 (amount of fraud determined from prosecutions and administrative disqualification hearings and number of fraud determinations) be used as a better measure of the amount of fraud claims ultimately established. Data included in Table 27 (Recipient Claims Collected) includes total claims recouped as well as Federal Debt Collection amounts and other means of collection employed by State agencies.

Calculations for other means of collection employed by State agencies include all State methods except for recoupment and Federal collections from the Treasury Offset Program minus all refunds and negative adjustments. Calculations for Federal Debt Collection amounts include Treasury Offset Program collections but not voluntary payments and offset fees paid by the client. Totals represented are for calendar year 2004 – however 98% of Federal collections occurred during FY 2004. Some offsets are subject to refunds.

States, auditors, and FNS review State information systems to ensure proper reporting and that claims are properly categorized. As a result of such a review, in one State a negative claims collection situation arose in one claim category in FY 2004 due to adjustments to correct previous reporting and transfers between claim categories.

Rankings of Participation and Issuance

Please refer to the explanations above for the sources of various data cited in this section. Note that totals for persons and households may not add due to rounding.

Comparison to Prior Years

Please refer to the explanations above for the sources of various data cited in this section.
