Subject: Email message to SNAP EBT processors

Date: Tuesday, January 8, 2019

Subject: Important message from the USDA, Food and Nutrition Service.

Good evening - As you will hear shortly, FNS is advising all States to request approval to issue February SNAP benefits on or before January 20, 2019. This would ensure that SNAP participants receive a February benefit. We are requesting your assistance in working with your State customers to operationalize this alternative. Attached for your information is [the letter that was transmitted to States this evening](#). We will be in touch with each of you imminently.

As always, thank you for your partnership and assistance.

-Andrea
