

USDA Grants and Loans that Support Farm to School Activities

Funding from the US Department of Agriculture is available to assist farms, schools, and every link in between in feeding kids healthy local meals; teaching them about food, farming and nutrition; and supporting local agricultural economies. While the programs listed below provide a good starting point for those looking to bolster farm to school efforts, other USDA grant and loan programs support local food systems work as well. Visit www.usda.gov/farmtoschool for more information.

Note: Eligibility guidelines can be quite specific, so be sure to confirm your eligibility on the webpage for the grant or loan program before applying. In addition, non-eligible entities can often partner with eligible entities to benefit from programs they might not otherwise have access to.
