

Automated Inventory System (AIS) E152 Installation Instructions
September 2020 (09.2020)

1.0 Introduction

This document contains the steps required for the installation of the latest AIS E152 system update. Included are screenshots to help with the installation process. Please see the *September 2020 Quarterly Release Notes (09.2020)* for more information on what is included within this update. Should you encounter any errors during the installation process, please contact WBSCM Help Desk at WBSCM.servicedesk@caci.com.

PLEASE NOTE: The AISWIN installation program is for those who have multiple warehouses. To run the FNS152 report, users with one warehouse can use AIS.

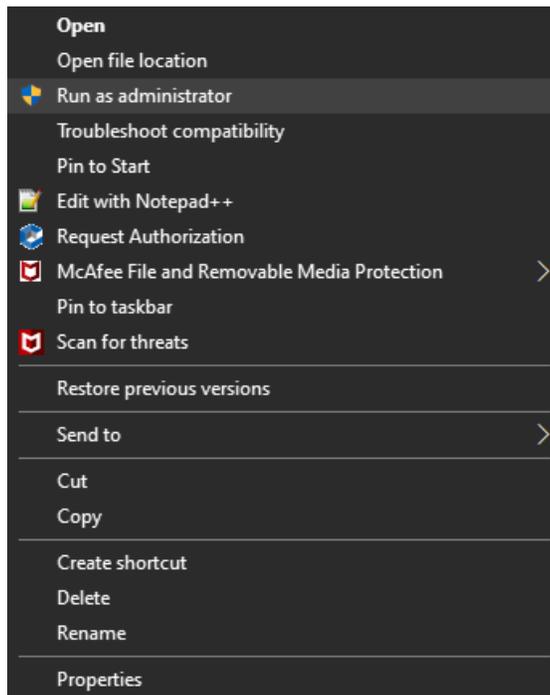

2.0 Pre-Installation Requirements

1. This version of E152 requires that Visual Studio C++ 2015 (32 BIT) be installed on all computer workstations running the AIS Application. Should your E152 be located on a server, the server must have the C++ program installed as well.
 - Instructions for installing Visual Studio C++ 2015 (32 BIT) can be found in section 4.0 of this document. Note: If you are successfully running the March 2019 E152 release or later, Visual Studio C++ 2015 (32 BIT) is installed.
2. Before installation can begin, be sure there are no instances of E152 currently running.

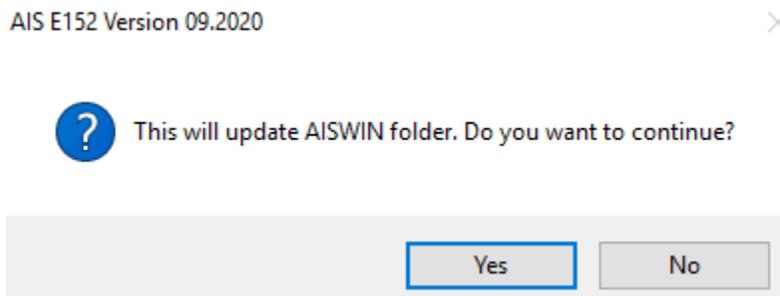

3.0 Installation Instructions

3.1 Installation Steps

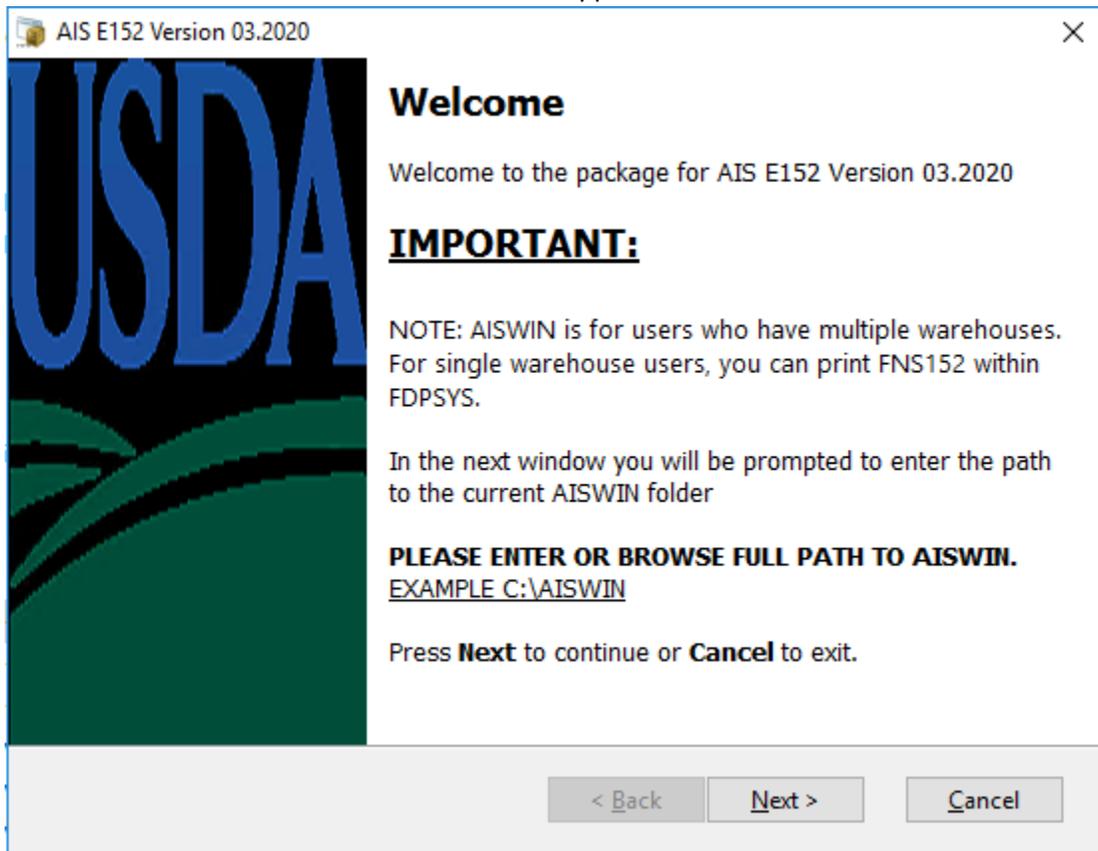

1. Download *AIS-E152-09-2020.exe* to your computer. This could be on your desktop or in your downloads folder.
2. Before installation can begin, be sure there are no instances of E152 currently running. The AISWIN folder **MUST** be on your root drive or local drive for this update to run properly.
3. Should the AISWIN folder be embedded or located on a network drive, please reach out to your network administrator and have them review section 4.0 of this document to properly install the *September 2020 Quarterly Release (09.2020)*.
4. Right click on *AIS-E152-09-2020.exe* and **run the update as administrator**. Should you not have administrator privileges, please reach out to your system administrator for assistance.

5. You will see the pop-up window below, letting you know this will update the *AISWIN* folder. Click Yes to continue.

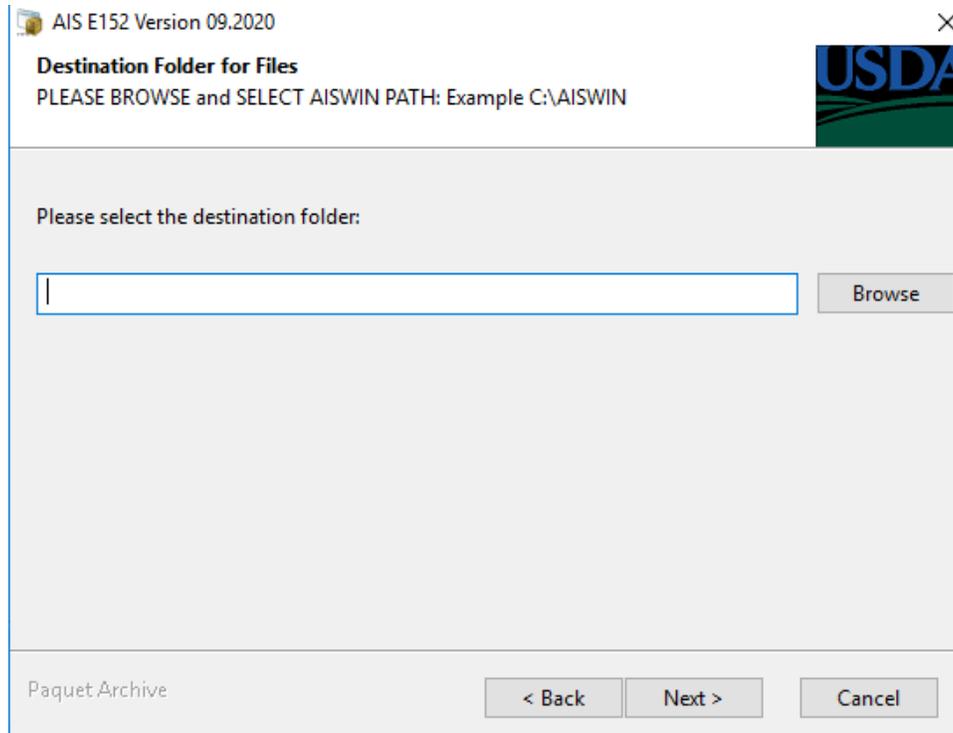

6. The *AIS-E152-09-2020.exe* Welcome Menu will appear with instructions. Click *Next>* to continue.

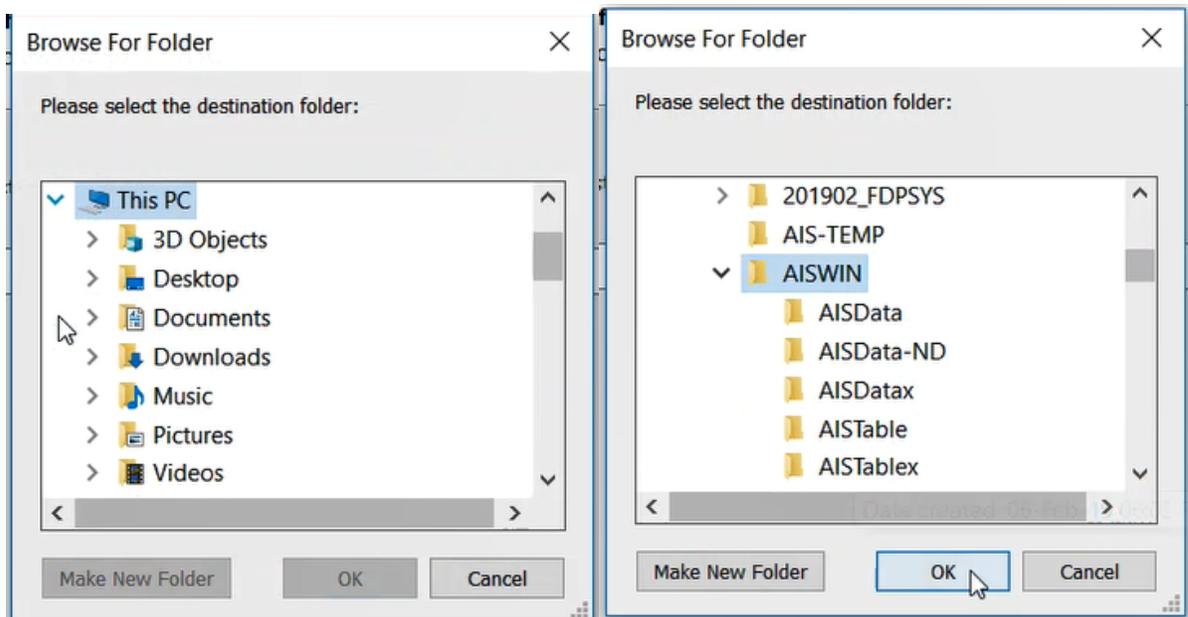

September 2020 (09.2020)

- In the next menu, you will be prompted to enter or select the destination folder, *AISWIN*, for the installation. Click the *Browse* button to select the destination folder.

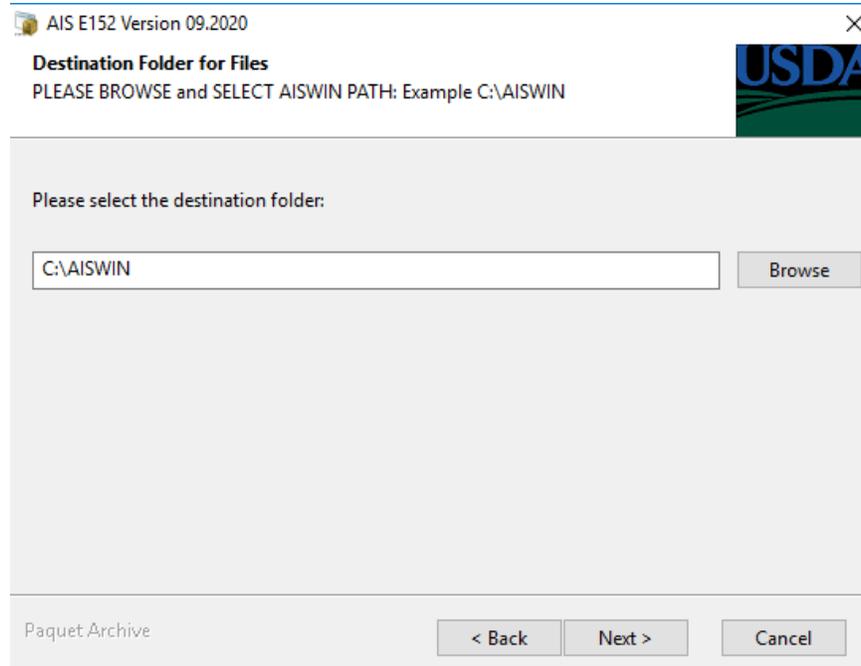

- A window will pop-up, prompting you to select the correct folder where *AISWIN* is already located for installation. Search within the *This PC* folder to find the *AISWIN* folder and once selected, click *OK*.

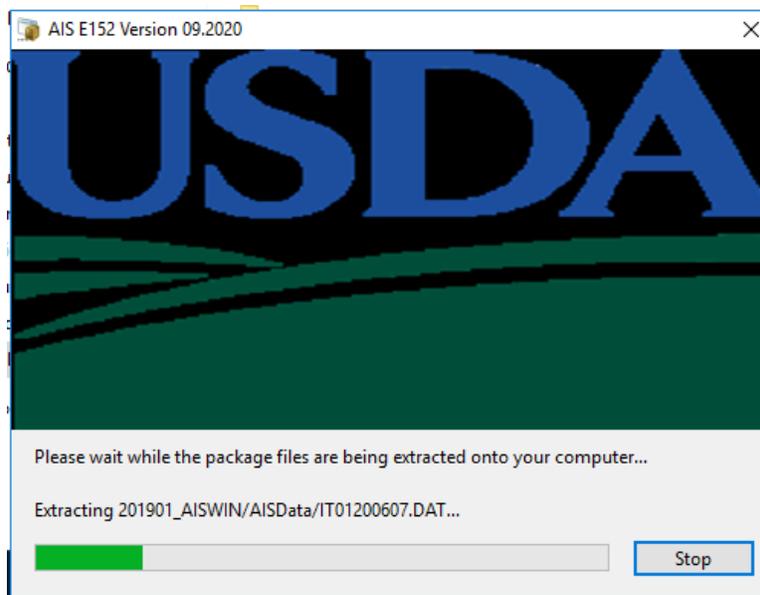

September 2020 (09.2020)

9. The destination folder should look similar to what is shown in the image below. Once you have selected the *AISWIN* folder, click *Next*>.

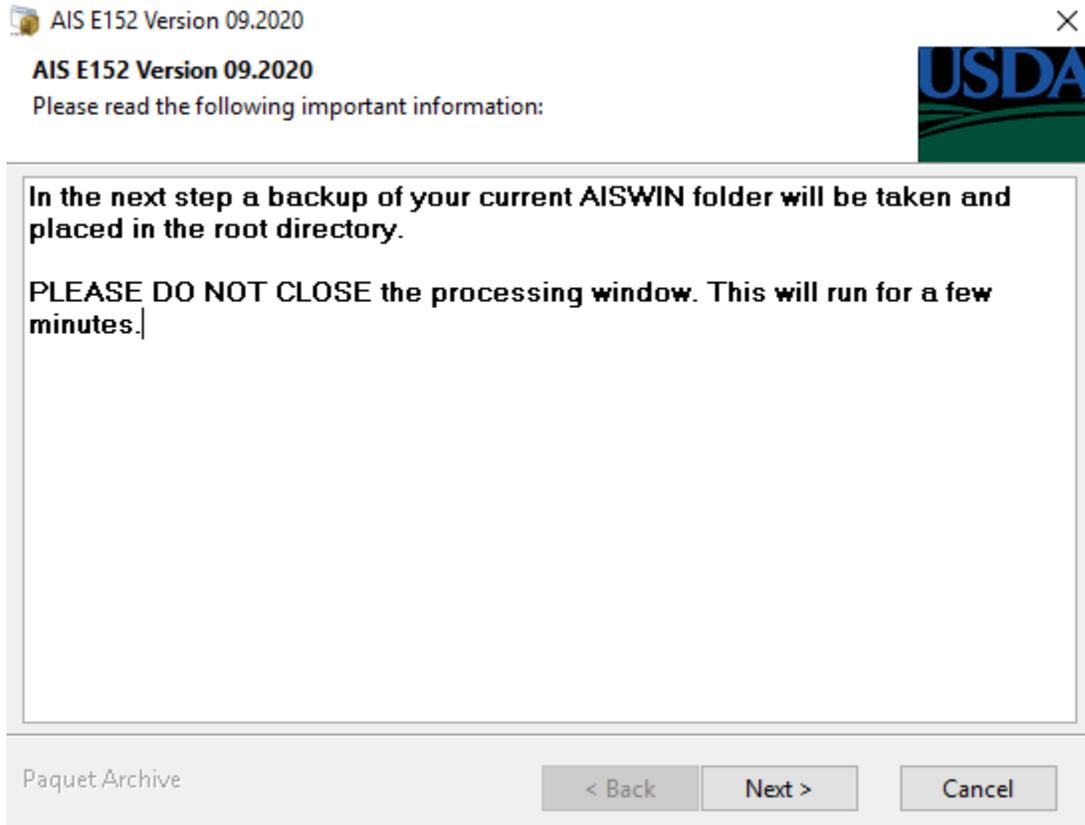

10. File extraction will begin and will take a brief moment before the next menu will appear. The file extraction will copy all of the installation files to a temporary folder used by the installation process.

11. After file extraction is complete, a pop-up window will appear. *AIS-E152-09-2020.exe* will now run a backup of the current system. This window warns you to NOT close the processing window

that will appear next. Do not close the window during the process or the installation process will not complete properly. Click *Next>* to continue.

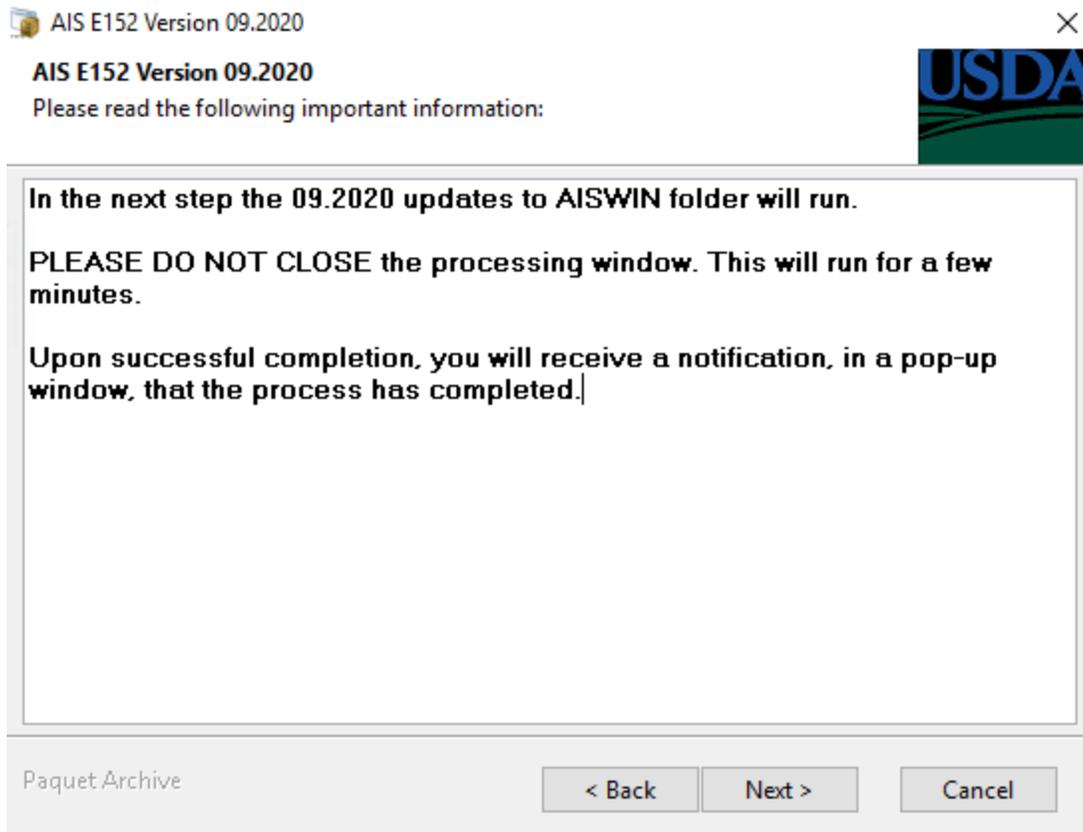

12. The Command Prompt screen will be the next item to appear. DO NOT CLOSE this window. This will automatically close once a back-up of the current *AISWIN* is complete. This may take a few minutes.

- Any warning messages that appear can be ignored.

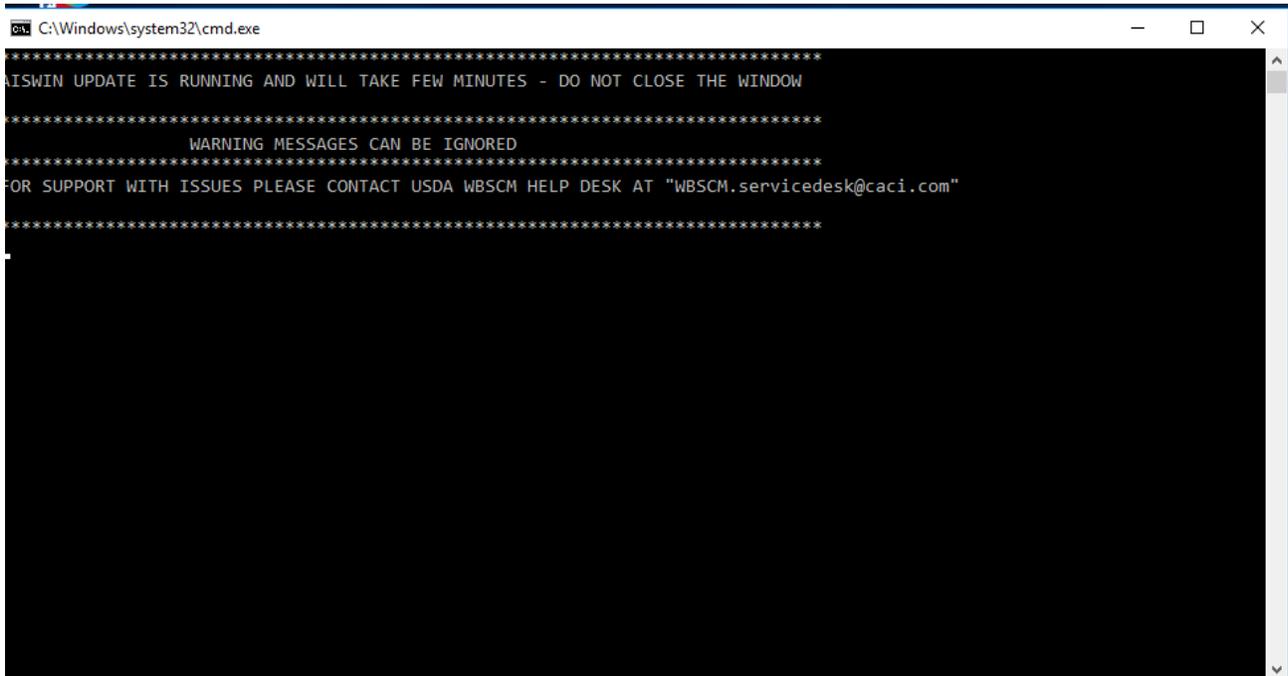

```
C:\Windows\system32\cmd.exe
*****
AISWIN BACKUP IS RUNNING AND WILL TAKE FEW MINUTES - DO NOT CLOSE THE WINDOW
*****
WARNING MESSAGES CAN BE IGNORED
*****
FOR SUPPORT WITH ISSUES PLEASE CONTACT USDA WBSCM HELP DESK AT "WBSCM.servicedesk@caci.com"
*****
C:
C:\Users\SARAH~1.LAM\AppData\Local\Temp
C:
C:
BACKUP_AISWIN_20200721@0954
C:\Users\sarah.lampkin\AppData\Local\Temp\201901_AISWIN
*****
*****
```

13. After the backup completes, the installation process will begin. Click *Next*> to proceed.

September 2020 (09.2020)

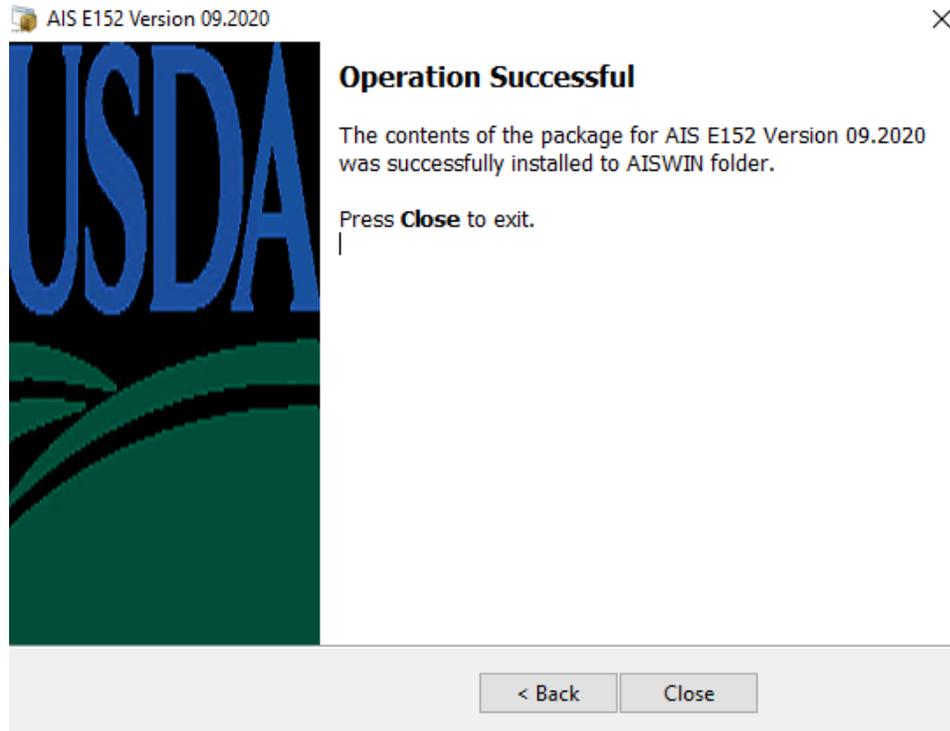

14. The Command Prompt screen will be the next item to appear. DO NOT CLOSE this window. It will close once the installation is complete. This may take a few minutes.
- Any warning messages that appear can be ignored.

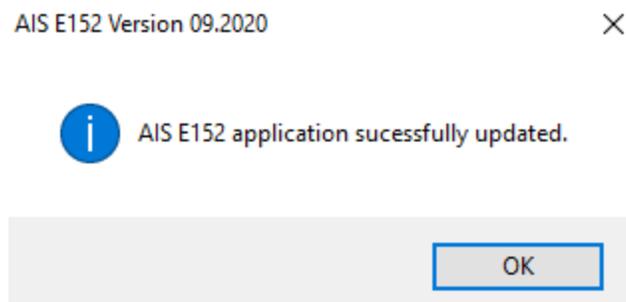

```
C:\Windows\system32\cmd.exe
*****
AISWIN UPDATE IS RUNNING AND WILL TAKE FEW MINUTES - DO NOT CLOSE THE WINDOW

*****
```

September 2020 (09.2020)

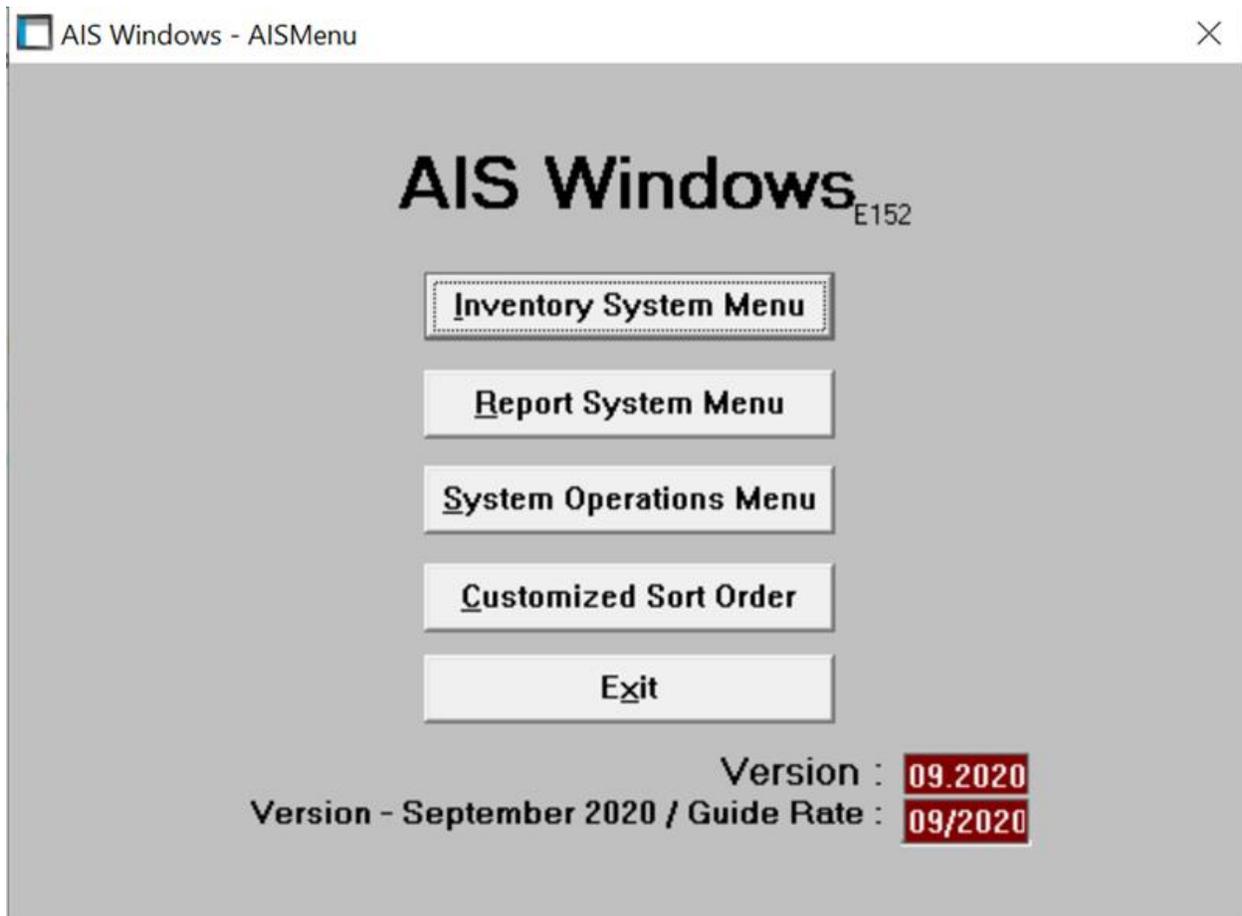

15. Once *AIS-E152-09-2020.exe* has successfully installed, you will receive an Operation Successful message. Click *Close*.

16. Installation of *AIS-E152-09-2020.exe* is successful. Click *OK* to finish. The updated version of AIS E152 should be available using your existing shortcuts.

17. The last step in the installation process is to open the E152 application using your existing shortcuts. When E152 opens, you will see a box to the bottom right corner of the screen [seen in the screenshot below]. Should the version text read “09.2020” the guide rate tables were updated properly, and the installation was successful. Should the text be blank, the guide rate tables were not updated properly, and you should contact the WBSCM help desk for assistance.

3.2 Additional Information

During the installation process of *AIS-E152-09-2020.exe*, files will be created and can be used in case you run into any problems. DO NOT delete, change, or rename these files. Examples of these files can be shown below:

- Backup Copy: \BACKUP_AISWIN_20190208@1552 (BACKUP_AISWIN_YYYYMMDD@HHMM)
- Backup Log: \AISWIN\20190211@1830_AISWIN_Backup.log
- Install Log: \AISWIN\20190211@1830_AISWIN_Update.log

If you encounter any errors during the installation process, please contact the WBSCM Help Desk at WBSCM.servicedesk@caci.com

3.3 Network Administrator Information

Should the AISWIN folder be embedded or within a network drive, simply copy and paste the AISWIN onto your local drive. Run the update with administrator privileges and follow the installation instructions.

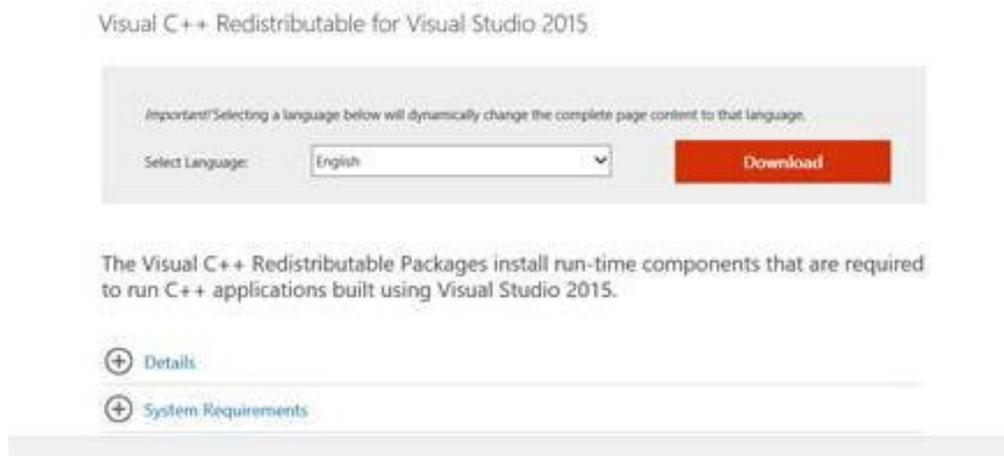

Once the update has been fully installed, paste the updated AISWIN folder onto your network. Be sure to replace the old file so users will be able to access the updated AISWIN folder.

Right-click the AISWIN shortcut icon within the network drive and click on Properties. Make sure the folder is being directed to the correct drive. If not, please repair then click OK. This should complete the update process.

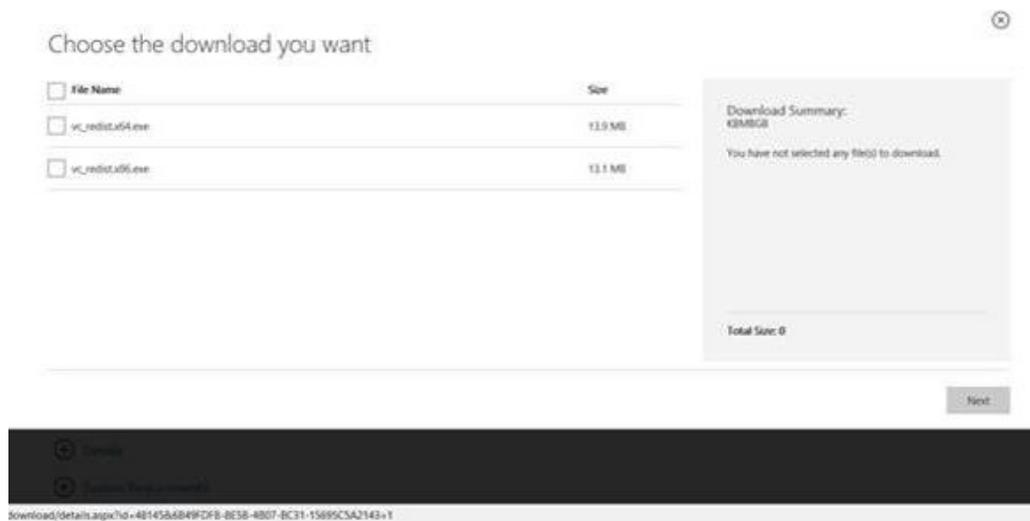

If you encounter any errors during the installation process, please contact the WBSCM Help Desk at WBSCM.servicedesk@caci.com

4.0 Installation of Visual Studio C++ 2015 (32 BIT)

1. The Visual Studio C++ 2015 (32 BIT) software can be downloaded from the Microsoft website using this link <https://www.microsoft.com/en-us/download/details.aspx?id=48145>. Clicking on this link will take you to the download site:

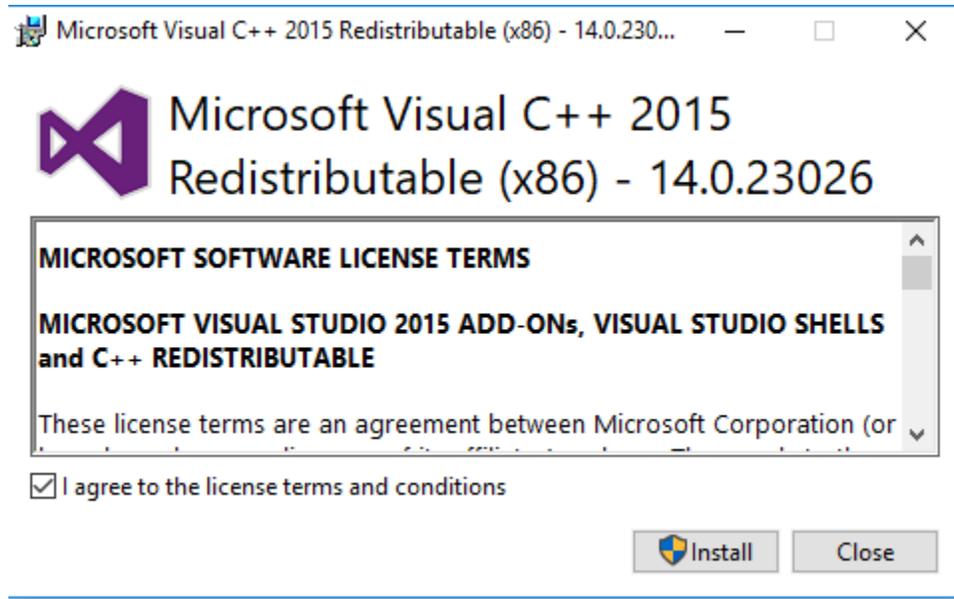

2. Choose the language and click the RED download button

3. Select vc_redist.x86.exe
4. Click Next
 - To Install now, choose the Run button
 - To install later, choose the Save button

September 2020 (09.2020)

5. Check the box next to "I agree to the license terms and conditions" and then click Install and the installation will begin.

6. Once the installation is complete, you may begin the installation process (Section 3.0)

If you click the link and are presented options to Repair or Uninstall, that means that Visual Studio C++ 2015 (32 BIT) is already installed. You should exit that screen and return to the E152 installation process (Section 3.0).
