

## **CALCULATING THE SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM (SNAP) PROGRAM ACCESS INDEX: A STEP-BY-STEP GUIDE FOR 2014**

### **Introduction**

The Program Access Index (PAI) is one of the measures the U.S. Department of Agriculture (USDA) Food and Nutrition Service (FNS) uses to reward States for high performance in the administration of the Supplemental Nutrition Assistance Program (SNAP). The Farm Security and Rural Investment Act of 2002 (also known as the 2002 Farm Bill) directed USDA to establish a number of indicators of effective program performance and to award bonus payments to States with the best and most improved performance. The PAI is designed to indicate the degree to which low-income people have access to SNAP benefits.

The PAI is not, strictly speaking, a measure of participation among people eligible for benefits. For most purposes, the participation rate among people eligible for benefits is a better measure of program performance.<sup>1</sup> FNS uses the poverty-based PAI because it is the best measure available in time to meet the law's requirements. The 2002 Farm Bill that authorizes the State performance awards requires payment by the end of the fiscal year following the period of performance – by September 2015 for performance during calendar year 2014, for example. The timing of the release of the official poverty statistics each year enables calculation of a PAI in time to meet the law's requirements. There is not enough time to complete the more precise estimates of the number of people eligible for SNAP benefits.

---

<sup>1</sup> See for example *Reaching Those in Need: State Supplemental Nutrition Assistance Program Participation Rates in 2012* by Karen E. Cunyngnam, available online at <http://www.fns.usda.gov/sites/default/files/ops/Reaching2012.pdf>

Waiting for the more precise estimates is inconsistent with the law and would also delay payments to States.

FNS issued a final rule on February 7, 2005, codifying the procedures for calculating and awarding performance bonuses for calendar year 2005 and beyond. For this access measure, FNS uses the American Community Survey (ACS) for poverty count estimates.<sup>2</sup> In addition, the final rule changed the name of the measure to the PAI.

The purpose of this step-by-step guide is to describe the calculation of the PAI in detail. It includes all of the data, adjustments, and calculations used in determining the PAI for every State in 2014.

### **Calculating the PAI**

In general, the PAI is a simple index of the average monthly number of SNAP participants over the course of a calendar year to the number of people with income below 125 percent of the official poverty line in each State. FNS computes average monthly participation over a calendar year – rather than the Federal fiscal year – to better align the participation count with the annual poverty measure.

---

<sup>2</sup> FNS did a comparative analysis of the merits of the American Community (ACS) and Current Population (CPS) surveys and determined that the ACS provided a better basis for the calculation of the Program Access Index beginning with the 2005 high-performance bonuses. See *Estimating the Number of People in Poverty for the Program Access Index: The American Community Survey vs. the Current Population Survey* available online at [www.fns.usda.gov/sites/default/files/080206a.pdf](http://www.fns.usda.gov/sites/default/files/080206a.pdf)

FNS makes an adjustment to the counts of participants, the numerator of this index, to better reflect State performance in the administration of SNAP. FNS subtracts out estimates of the number of people who received SNAP disaster assistance. Disaster assistance is approved in limited circumstances and operates under special rules that differ from regular SNAP rules. The adjustment is intended to account for only those disaster assistance recipients who are new to the program – not existing participants who are issued replacement benefits. The quality of this adjustment depends in part on the accuracy of data reported by States to FNS on the operations of disaster assistance programs.

FNS makes two adjustments to the poverty counts in the denominator of the index. Participants in the Food Distribution Program on Indian Reservations (FDPIR) are subtracted from the number of people with income below 125 percent of poverty in each State. Participants in FDPIR would qualify for SNAP

but have opted to take the FDPIR commodity package instead. In addition, poor Supplemental Security Income (SSI) recipients in California are subtracted from the number of people with income below 125 percent of poverty. By law, SSI recipients in California are ineligible for SNAP because they receive a State-funded cash supplement for food. The number of participants in FDPIR and California SSI recipients offers no information on the effectiveness of State SNAP agency operations.

FNS awards performance bonuses to the four States with the highest PAI and to the four States with the most improved PAI, provided that a State is eligible to receive such a bonus. A State agency is not eligible for a bonus payment in any fiscal year for which it has a liability amount as a result of an excessive payment error rate in the same year. If a State qualifies under both the best and most improved criteria, it is awarded the bonus for most improved, and the State with the next highest PAI is awarded a bonus for best performance.

### Step-by-Step Guide

The following provides a step-by-step description of the calculation of the PAI, using the calculation of the 2014 PAI for Mississippi as an example. The column references in the following example, along with the calculations for all States, can be found in the accompanying table: *SNAP Program Access Index Calculation: 2014*. The example below may contain discrepancies due to rounding.

Description	Example (Mississippi)
<p><b>Step 1: Determine annual number of SNAP participants (CY 2014)</b></p> <p>The number of annual SNAP participants is the sum of the monthly counts from January to December 2014. The monthly counts are extracted from the Food and Nutrition Service National Data Bank. The annual total is displayed in Column B of the table.</p>	<p>Column B:  7,828,801</p>
<p><b>Step 2: Determine number of FDPIR participants (CY 2014)</b></p> <p>The number of annual FDPIR participants is the sum of the monthly counts from January to December 2014. The monthly counts are extracted from the Food and Nutrition Service National Data Bank. The annual total is displayed in Column C of the table.</p>	<p>Column C:  10,959</p>

<p><b>Step 3: Determine number of disaster assistance participants (CY 2014)</b></p> <p>The number of disaster assistance participants is also extracted from the Food and Nutrition Service National Data Bank. State and disaster specific adjustments are made to reflect the disaster policy in effect. For disasters that lasted more than a month, the reduction in participation is adjusted to reflect that. The annual total for all States is displayed in Column D of the table.</p>	<p>Column D:</p> <p>1,217</p>
<p><b>Step 4: Calculate adjusted number of annual participants (CY 2014)</b></p> <p>The adjusted annual number of participants is the annual number of SNAP participants (Column B) minus the number of disaster assistance recipients (Column D).</p>	<p>Column E:</p> <p>7,828,801 - 1,217 = 7,827,584</p>
<p><b>Step 5: Calculate adjusted average monthly participants (CY 2014)</b></p> <p>The adjusted monthly average number of participants is equal to the adjusted annual number of SNAP participants (Column E) divided by 12.</p>	<p>Column F:</p> <p>7,827,584 ÷ 12 = 652,299</p>
<p><b>Step 6: Determine the number of individuals with income below 125 percent of poverty</b></p> <p>Estimates of the number of people with income below 125 percent of poverty are published annually by the Bureau of the Census and are available online via the American FactFinder Web site (<a href="http://factfinder.census.gov/faces/nav/jsf/pages/index.xhtml">http://factfinder.census.gov/faces/nav/jsf/pages/index.xhtml</a>). The 2014 ACS estimates are displayed in Column G.</p>	<p>Column G:</p> <p>812,858</p>
<p><b>Step 7: Calculate adjustment for SSI recipients in California</b></p> <p>This adjustment is based on the number of SSI recipients among the population with income below 125 percent of the official poverty threshold in California. This statistic is provided to us directly from the Census Bureau.</p>	<p>Column H:</p> <p>N/A</p>
<p><b>Step 8: Calculate monthly FDPIR participants (CY 2014)</b></p> <p>The monthly average number of FDPIR participants is equal to the annual number of FDPIR participants (Column C) divided by 12.</p>	<p>Column I:</p> <p>10,959 ÷ 12 = 913</p>

<p><b>Step 9: Calculate adjusted number of people with income below 125 percent of poverty</b></p> <p>The adjusted number of people with income below 125 percent of poverty is equal to the official counts of persons below 125 percent of poverty (Column G) minus the Monthly FDPIR Participants (Column I). For California, the adjusted number of people in poverty (Column J) is equal to the official counts of persons below 125 percent of poverty (Column G) minus the Monthly FDPIR Participants (Column I) minus the SSI adjustment (Column H). The SSI adjustment is not applied in any other State.</p>	<p>Column J:</p> <p>812,858 -913 -N/A = 811,945</p>
<p><b>Step 10: Calculate the Program Access Index for 2014</b></p> <p>The final PAI is an index of the adjusted count of participants to the adjusted estimate of persons living below 125 percent of the official poverty line. It is calculated by dividing adjusted monthly SNAP participants (Column F) by the adjusted poverty count (Column J).</p>	<p>Column K:</p> <p>652,299 ÷ 811,945 = .803</p>
<p><b>Step 11: Rank Order States by Program Access Index</b></p> <p>State rankings are determined in descending order, from highest to lowest.</p>	<p>Column L:</p> <p>20</p>
<p><b>Step 12: Determine the Program Access Index for 2013</b></p> <p>The 2013 PAI was calculated in the same fashion, using prior year data.</p>	<p>Column M:</p> <p>0.763</p>
<p><b>Step 13: Calculate the difference between 2014 and 2013 PAIs</b></p> <p>The difference is equal to the 2014 PAI (Column K) minus the 2013 PAI (Column M). This provides the percentage point difference between 2014 and 2013. A positive difference indicates improvement; a negative difference indicates a reduction.</p>	<p>Column N:</p> <p>0.803 - 0.763 = 0.0408</p>
<p><b>Step 14: Rank Order States by “Improvement” -- the difference in 2014 and 2013 PAIs</b></p> <p>State rankings are determined in descending order, from highest to lowest.</p>	<p>Column O:</p> <p>4</p>

## Calculation of SNAP Program Access Index: 2014

Worksheet Name	Column	Description
PAI Calculation	B	Annual count of SNAP participants (set equal to column N of Annual SNAP Participants Worksheet)
	C	Annual count of FDPIR participants (set equal to column N of Annual FDPIR Participants Worksheet)
	D	Annual count of disaster assistance recipients (set equal to column F of Disaster Assistance Worksheet)
	E	Adjusted annual count of SNAP participants (set equal to column B - Column D)
	F	Adjusted monthly average count of SNAP participants (set equal to column E divided by 12)
	G	Count of persons in households with income less than 125% of poverty from 2014 ACS American FactFinder: 2014 ACS
	H	CA Adjustment: Number of CA persons who receive SSI and have income less than 125% of poverty from 2014 ACS
	I	Monthly FDPIR Participants (set equal to column C divided by 12)
	J	Adjusted count of persons in households with income below 125% of poverty (set equal to column G - column H - column I)
	K	Program Access Index, 2014 (set equal to column F divided by column J)
	L	2014 PAI Rank
	M	Program Access Index, 2013 (compare to current year for improvement)
	N	Improvement in Program Access Index from prior year (set equal to column K - column M)
	O	Improvement Rank
SNAP Participants		Counts of individual SNAP participants by State and month in calendar year 2014. Extracted from National Data Bank in August 2015. Annual total shown in last column.
FDPIR Participants		Counts of individual participants in Food Distribution Program on Indian Reservations by State and month in calendar year 2014. Extracted from National Data Bank in August 2015. Annual total shown in last column.
Disaster Assistance		Counts of individual recipients of disaster assistance; includes only new participants, excludes replacement issuances. Extracted from National Data Bank in August 2015.
2013 ACS Poverty		Counts of individuals with income below 125 percent of poverty in 2014. Extracted from the American FactFinder website ( <a href="http://factfinder.census.gov">http://factfinder.census.gov</a> )
