**SUBJECT:** Approval of Disaster Household Distribution in Response to the National Emergency Declaration Due to COVID-19

**TO:** Bill Ludwig  
Regional Administrator  
Southwest Regional Office

This memorandum is in response to the Louisiana Department of Agriculture and Forestry's (LDAF) request to use U.S. Department of Agriculture's (USDA) Foods to operate disaster household distribution. This request is in response to food assistance needs resulting from the COVID-19 National Emergency declared by the President of the United States on March 13, 2020.

LDAF, which administers The Emergency Food Assistance Program (TEFAP), requested that USDA approve the use of USDA Foods from TEFAP for disaster household distribution. The disaster household distribution food package will be provided to impacted households most in need of food assistance through LDAF's network of five food banks at approximately fifty distribution sites throughout the state.

**Due to the current economic situation and the severe impact of the COVID-19 emergency on the hospitality industry in Louisiana, approval is granted for disaster household distribution beginning March 28, 2020 through April 26, 2020.** This approval allows LDAF to serve up to 600,000 individuals using USDA Foods available on-hand. The following foods are approved for the disaster household distribution food package for a household of one-to-two members: rice, pasta, canned vegetables, canned fruit, and protein items. Frozen meats are allowed to be distributed only at agencies that have proper cold and frozen storage facilities.

For larger households, LDAF has approval to provide additional disaster household distribution food packages based on household size. For example, a household of four could receive two disaster household distribution food packages.

**Terms of Approval:**

The USDA Food and Nutrition Service (FNS) is approving LDAF's request under the following terms:

1. LDAF must provide on a weekly basis beginning the week of March 30, 2020 an estimate of: 1) the amount of TEFAP inventory used for the disaster household distributions; and 2) the number of persons served under disaster household distribution.

2. Please conduct outreach and distribution efforts in a manner to ensure that households that are suffering significant economic losses or significant food access challenges due to COVID-19 are served first.
3. Approval for disaster household distribution is granted through April 26, 2020. Existing TEFAP inventories must be utilized to operate a disaster household distribution including orders placed and scheduled for delivery. Please keep in mind that replacement foods may not be available for delivery until July 2020 and beyond.

### **Authority**

The approval of disaster household distribution of USDA Foods is in accordance with FNS regulations at 7 CFR 250.69. LDAF must provide a summary report via the FNS-292A form within 45 days following termination of the disaster household distribution. The information reported on the FNS-292A is the location of distribution sites, the number of persons served, and the type and quantity of USDA Foods distributed.
