SUBJECT: Extension Approval of Disaster Household Distribution in Response to the National Emergency Declaration Due to COVID-19

TO: Tim English
Regional Administrator
Midwest Regional Office

This memorandum is in response to the Illinois Department of Human Services' (IDHS) request to extend its use of U.S. Department of Agriculture's (USDA) Foods to operate disaster household distribution beyond its initial approved end date of May 20, 2020. This request is in response to food assistance needs resulting from the COVID-19 National Emergency declared by the President of the United States on March 13, 2020.

IDHS requested that USDA extend its initial approval to use USDA Foods from The Emergency Food Assistance Program (TEFAP) for disaster household distribution. IDHS is approved to continue the utilization of the same distribution methods to provide food assistance for a cumulative total, not to exceed 725,000 individuals, over the course of the 30-day approval period.

An extension is granted for disaster household distribution beginning May 21, 2020 through June 19, 2020. IDHS is authorized to use the previously approved disaster household distribution food package to continue providing food assistance to impacted households. IDHS must also follow the same Terms of Approval as stated in the original approval letter dated April 21, 2020, to include but not limited to weekly reporting of:

- 1) the amount of TEFAP inventory used for disaster household distributions, and
- 2) the number of persons served under the disaster household distribution.

Should IDHS need additional assistance, other resources may be available through FEMA, <https://www.fema.gov/news-release/2020/04/12/coronavirus-covid-19-pandemic-purchase-and-distribution-food-eligible-public>, and through other USDA programs such as USDA Farmers to Families, <https://www.ams.usda.gov/publications/content/farmers-families-food-box-program-faqs>.

Please have IDHS contact the FNS Midwest Regional Office for more information should they have any questions regarding this approval.
