School Nutrition and Meal Cost Study

School Food Authority Director Survey

January 30, 2015

Sponsored by:

U.S. Department of Agriculture
Food and Nutrition Service

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 50 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
Welcome to the School Nutrition and Meal Cost Study SFA Director Survey!

Instructions

- Under the Healthy, Hunger-Free Kids Act of 2010, participation in this study is mandatory. We thank you for your cooperation and participation in this very important study.
- The information you provide will be used only for statistical purposes. In accordance with the Confidential Information Protection and Statistical Efficiency Act of 2002, your responses will not be disclosed in identifiable form without your consent.
- Please answer all of the questions.
- You may complete the survey all at once or save your responses and return at a later time.
- Please use the buttons and links on each page to move through the survey. Using “Enter” or your browser’s “Back” function may cause errors.
- If you are returning to finish your saved survey, you will return to the point where you left off. You will not be able to go backward to questions you answered before logging out.
- This survey is intended for the School Food Authority (SFA) Director but can be completed by any staff member who is very familiar with the food service characteristics of the schools within your School Food Authority and the SFA Director’s role within the SFA.
- If you have any questions about the study or about completing this survey, please contact the study team by email at SNMCS@mathematica-mpr.com or by phone at 844-236-3257 (toll-free).
A. This survey asks about [FILL SFA]. [IF GROUPID=2 or 3, FILL:] This includes the following schools: [FILL ALL SCHOOL NAMES].

B. Please enter your name, phone number, and email address so we can contact you if we have any questions about the survey.

SOFT CHECK: IF B=NO RESPONSE: Your response to this question is important. Please provide a response and continue.
1a. Which of the following school types does your SFA include?

Select all that apply

☐ Elementary schools ................................................................. 1
☐ Middle schools ............................................................................. 2
☐ High schools .................................................................................. 3
☐ Other schools .................................................................................. 4

PROGRAMMER
IF GROUPID=1 GO TO Q9
ELSE IF GROUPID=2 OR 3 CONTINUE TO Q1. WHEN FINISHED WITH SCHOOL 1, REPEAT Q1-Q8 FOR SCHOOLS 2 THROUGH 5.

GROUPID=2 OR 3
NOT REQUIRED

1. How many students in [NAME OF SCHOOL] are approved for free meals in the 2014-2015 school year?

STUDENTS APPROVED FOR FREE MEALS

(RANGE 0-9,999)

NO RESPONSE .................................................................................. M

SOFT CHECK: IF Q1>5,000; You entered that there are [FILL] students approved for free meals in the 2014-2015 school year. Please confirm or correct your response and continue.
2. How many students in [NAME OF SCHOOL] are approved for reduced-price meals in the 2014-2015 school year?

STUDENTS APPROVED FOR REDUCED PRICE MEALS

(RANGE 0-9,999)

NO RESPONSE ................................................................. M

SOFT CHECK: IF Q2>5,000; You entered that there are [FILL] students approved for reduced-price meals in the 2014-2015 school year. Please confirm or correct your response and continue.

GROUPID=2 OR 3

NOT REQUIRED

3. As of October 31 of the current school year, what was the total enrollment at [NAME OF SCHOOL]?

TOTAL STUDENT ENROLLMENT

(RANGE 1-9,999)

NO RESPONSE ................................................................. M

SOFT CHECK: IF Q3>5,000; You entered that the total student enrollment for the current school year is [FILL]. Please confirm or correct your response and continue.

GROUPID=2 OR 3

NOT REQUIRED

4. What grade groups were used when planning NSLP/lunch menus for [NAME OF SCHOOL] for the 2014-2015 school year?

Select one only

- Grades K-5 ................................................................. 1
- Grades K-8 ................................................................. 2
- Grades K-12 ............................................................... 3
- Grades 6-8 ................................................................. 4
- Grades 6-12 ............................................................... 5
- Grades 9-12 ............................................................... 6

NO RESPONSE ................................................................. M

GROUPID=2 OR 3

NOT REQUIRED
5. Does [NAME OF SCHOOL] participate in the School Breakfast Program (SBP)?
   - Yes ........................................................................................................................ 1
   - No ........................................................................................................................ 0  GO TO Q8
   - NO RESPONSE ................................................................................................... M GO TO Q8

   SOFT CHECK: IF Q5=NO RESPONSE; Your response to this question is important. Please provide a response and continue.

GROUPID=2 OR 3 AND Q5=1
NOT REQUIRED

6. What grade groups were used when planning SBP/breakfast menus for [NAME OF SCHOOL] for the 2014-2015 school year?
   Select one only
   - Grades K-5 ........................................................................................................... 1
   - Grades K-8 ........................................................................................................... 2
   - Grades K-12 ......................................................................................................... 3
   - Grades 6-8.......................................................................................................... 4
   - Grades 6-12........................................................................................................... 5
   - Grades 9-12........................................................................................................... 6
   - NO RESPONSE ................................................................................................... M

GROUPID=2 OR 3 AND Q5=1
NOT REQUIRED

7. Does [NAME OF SCHOOL] offer universal-free breakfast?
   - Yes ........................................................................................................................ 1
   - No ........................................................................................................................ 0
   - NO RESPONSE ................................................................................................... M
8. Does [NAME OF SCHOOL] operate under Provision 2 or Provision 3 for either the NSLP or SBP, or does it participate in the Community Eligibility Provision?

NOTE: Provision 2 schools serve meals at no charge to all children as determined by application once every four years.

Provision 3 schools serve meals at no charge to all children regardless of eligibility status.

Community Eligibility Provision schools serve meals at no charge to all children based on large proportions of children certified for free school meals through means other than a household application.

Select all that apply

- Provision 2 for NSLP ................................................................. 1
- Provision 2 for SBP ................................................................. 2
- Provision 3 for NSLP ................................................................. 3
- Provision 3 for SBP ................................................................. 4
- Community Eligibility Provision ........................................... 5
- None of these ................................................................... 0

NO RESPONSE ........................................................................ M

SOFT CHECK: IF Q8=(1 OR 2 OR 3 OR 4 OR 5) AND 0; “None of these” cannot be selected along with another response option. Please correct your response and continue.

PROGRAMMER BOX:
Repeat questions 1-8 for every school in the sample at that SFA.

9. Which of the following methods does your SFA use to certify students to receive free or reduced-price meals?

Select all that apply

- Household applications .............................................................. 1
- Direct certification ................................................................. 2
- All students receive meals at no charge without a certification process ........... 3
- Other (SPECIFY) .................................................................. 99

Specify (STRING 255)

NO RESPONSE ........................................................................ M

SOFT CHECK: IF Q27 = 3 AND ANOTHER RESPONSE OPTION IS MARKED: “All students receive meals at no charge without a certification process” cannot be selected along with another response option. Please correct your response and continue.
10. How many school districts are in your SFA?

| DISTRICTS | (RANGE 1-20) | NO RESPONSE |

PROGRAMMER: PLEASE CREATE DROP DOWN MENU FOR RESPONSE BOX. DROPDOWN RANGE= 1-20.

11. How many public and charter schools in your SFA do any of the following? If your SFA does not have public or charter schools, or none do an activity, please write “0.”

Note: Provision 2 schools serve meals at no charge to all children as determined by application once every four years and make eligibility determinations in the first year. Provision 3 schools serve meals at no charge to all children regardless of eligibility status for four-year periods. Schools participating in the Community Eligibility Provision serve meals at no charge to all children based on large proportions of children certified for free school meals through means other than a household application. School gardens include those that are used for nutrition education and/or food service purposes.

PROGRAMMER: USE RANGE FOR ALL CELLS IN TABLE: (RANGE 0-100)

21. Competitive foods are all foods and beverages other than reimbursable meals available for sale to students on the school campus during the school day. USDA issued new rules that define nutrition standards for all foods and beverages sold on school campuses during the school day. These rules went into effect in SY 2014-2015.

Do elementary, middle, or high schools in your SFA have nutrition standards for competitive foods that exceed the new federal requirements?

Thank you for completing the School Nutrition and Meal Cost Study SFA Director Survey!

Please review and print a copy of your responses by clicking here. If you are satisfied with your responses, please click on the submit button below. Once you submit your survey, you will not be able to make any additional changes. If you need to correct anything, please contact the help desk at SNMCS@mathematica-mpr.com or 844-236-3257 (toll-free) for assistance.

Thank you for your interest in completing the School Nutrition and Meal Cost Study SFA Director Survey. Someone submitted the survey on [date]. If you believe you are getting this message in error, please contact the help desk at SNMCS@mathematica-mpr.com or 844-236-3257 (toll-free) for assistance.
School Nutrition and Meal Cost Study

School Nutrition Manager Survey

Sponsored by:

U.S. Department of Agriculture
Food and Nutrition Service

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 20 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
INSTRUCTIONS

- Please answer all of the questions, except for those that you are instructed to skip based on your answer to a specific question.

- If you have any questions about the study or about completing this survey, please do not hesitate to contact your Technical Assistant by phone at 1-844-604-2775 (toll-free) or e-mail help@menusurvey.org.

The information you provide will be used only for statistical purposes. In accordance with the Confidential Information Protection and Statistical Efficiency Act of 2002, your responses will not be disclosed in identifiable form without your consent.

Under the Healthy, Hunger-Free Kids Act of 2010, participation in this study is mandatory. We thank you for your cooperation and participation in this very important study.

FOR ASSISTANCE CALL TOLL FREE: 1-844-604-2775
1. Does your school participate in the School Breakfast Program (SBP)?
   - □ Yes
   - □ No

2. Does your school do any of the following?
   
   Note: School gardens include those that are used for nutrition education and/or foodservice purposes. The Fresh Fruit and Vegetable Program provides funds to purchase fresh fruits and vegetables and distribute them free to students outside of reimbursable meals.

   **MARK ONE RESPONSE PER ROW**

   - Operate a school garden ....................................................................
     - □ Yes
     - □ No
     - □ Don’t know
   
   - Participate in the Fresh Fruit and Vegetable Program ......................
     - □ Yes
     - □ No
     - □ Don’t know
   
   - Participate in a Farm to School Program............................................
     - □ Yes
     - □ No
     - □ Don’t know

3. Which of the following best describes your kitchen?

   **MARK ONE ONLY**

   - □ An on-site kitchen where meals are prepared for serving only at this school
   - □ An on-site production kitchen where meals are prepared for serving at this school and shipped to other schools
   - □ A receiving or satellite kitchen that obtains partially prepared meals from a central or production kitchen
   - □ A receiving or satellite kitchen that obtains fully prepared meals from a central or production kitchen

4. Do students have the option to pre-order their lunch?

   **MARK ONE ONLY**

   - □ Yes, students are required to pre-order lunch
   - □ Yes, students have the option to pre-order lunch but it is not required
   - □ No, students do not have the option to pre-order lunch
5. Since school year (SY) 2012-2013, which of the following types of food service operations training or technical assistance (TA) to implement the new meals requirements have you or other school nutrition staff received? For each type of training or TA received, please indicate who provided it.

<td>School does not participate in School Breakfast Program</td>
</tr>
</tbody>
</table>

GO TO Q.13
11. Which of the following strategies do you use to ensure that all students can select the required minimum amounts of all meal pattern components at breakfast? Meal pattern components required at breakfast include fruit, grains, and milk.

MARK ONE RESPONSE PER ROW

<table>
<thead>
<tr>
<th></th>
<th>YES</th>
<th>NO</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. All meal components are provided on every serving line or food station in the required minimum amounts</td>
<td>1</td>
<td>0</td>
</tr>
<tr>
<td>b. Students must visit multiple serving lines or food stations that together offer all required meal components (for example, hot food line, fruit bar, and milk cooler)</td>
<td>1</td>
<td>0</td>
</tr>
<tr>
<td>c. Other (specify)</td>
<td>1</td>
<td>0</td>
</tr>
</tbody>
</table>

If you marked “yes” to more than one strategy in Q.11, go to Q.12. Otherwise, go to Q.13.

12. Does the number or type of serving lines or food stations at breakfast vary...

MARK ONE RESPONSE PER ROW

<table>

SCHOOL NUTRITION AND MEAL COST STUDY

A La Carte Foods Checklist

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to range from 480 to 600 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
Please refer to the *Instructions for the Menu Survey* booklet for instructions on completing this form. Remember to include this form when you return the Menu Survey Folder with all completed survey materials.

**SCHOOL NAME:**

**DATE COMPLETED:**  
| Month | Day | Year |

1. Does your school sell food or beverages on an a la carte basis (including milk)?

### A La Carte Foods Checklist

#### Food Item Breakdown

**A. Milk**

1. Whole white milk  
   | Breakfast | Lunch |
   | 1 □       | 1 □   |
2. Reduced fat (2%) white milk  
   | 2 □       | 2 □   |
3. Low-fat (1% or 0.5%) white milk  
   | 3 □       | 3 □   |
4. Fat-free/skim white milk  
   | 4 □       | 4 □   |
5. Reduced fat (2%) flavored milk  
   | 5 □       | 5 □   |
6. Low-fat (1% or 0.5%) flavored milk  
   | 6 □       | 6 □   |
7. Fat-free/skim flavored milk  
   | 7 □       | 7 □   |
8. Other milk beverages, including non-dairy milks *(Specify)*  
   | 8 □       | 8 □   |
   - a.  
   | 9 □       | 9 □   |
   - b.  
   | 10 □      | 10 □  |

If milk is the only item your school sells on an a la carte basis, you are done. If your school sells other items on an a la carte basis, please continue completing the checklist.

**B. 100% Juice and Water**

1. Juice (100% fruit or vegetable juice)  
   | 11 □      | 11 □  |
2. Bottled water (plain, flavored, or sparkling)  
   | 12 □      | 12 □  |

**C. Beverages Other than Milk, 100% Juice, or Water**

1. Diet carbonated soft drink (diet soda/pop)  
   | 13 □      | 13 □  |
2. Regular carbonated soft drink (regular soda/pop)  
   | 14 □      | 14 □  |
3. Juice drinks and other sweetened drinks (such as cranberry drink, fruit blends, Hi-C, lemonade, punch, iced tea)  
   | 15 □      | 15 □  |
4. Sports drinks (such as Gatorade or PowerAde)  
   | 16 □      | 16 □  |
5. Energy drinks (such as Red Bull or Monster Energy)  
   | 17 □      | 17 □  |
6. Hot or cold chocolate drinks (such as Yoo-hoo; NOT chocolate milk)  
   | 18 □      | 18 □  |
7. Hot or cold coffee or tea  
   | 19 □      | 19 □  |
8. Other beverages *(Specify)*  
   | 20 □      | 20 □  |
   - a.  
   | 21 □      | 21 □  |
   - b.

VENDING MACHINES
SCHOOL YEAR 2014-15
SCHOOL NUTRITION AND MEAL COST STUDY

Your Name: ____________________________________________________________

Title: ________________________________________________________________

Phone #: _____________________________________________________________

School Name: __________________________________________________________

MPRID: __________________________________________________________________

Date form was completed: _______________________________________________

INSTRUCTIONS:

• PLEASE PROVIDE INFORMATION FOR EVERY VENDING MACHINE (ANYWHERE ON SCHOOL
  GROUNDS) THAT IS AVAILABLE TO STUDENTS DURING THE DAY, INCLUDING BEFORE AND AFTER
  SCHOOL.

• WHEN YOU ARE DONE REPORTING ON YOUR BEVERAGE MACHINES, PLEASE TURN TO SECTION B,
  PAGE 4 TO ENTER INFORMATION ABOUT ANY SNACK MACHINES.

• IF YOUR SCHOOL CONTAINS MORE THAN 25 BEVERAGE MACHINES OR MORE THAN 10 SNACK
  MACHINES, PLEASE CALL (844) 236-3257.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 50 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
Does your school have any vending machines available to students during the day, including before or after school?

☐ Yes → Continue  ☐ No → Thank you. You are done. Please fax form to 609-228-5478.

---

Prepared by Mathematica Policy Research and Abt Associates 5  Return completed form by fax to (609) 228-5478 (Attn: SNMCS)
FREQUENTLY ASKED QUESTIONS

What if my school does not have any vending machines or other food sources?

It is important that we have a record of all the schools included in the study. Even if you have no vending machines or other food sources to report on, please complete each form by filling in the top part of the form with information about yourself and the school name, and checking off “No” in the box on the front page. Fax the entire form back to us.

What if I can’t complete these forms in the week you have specified?

Please call (844) 236-3257 or email SNMCS@mathematica-mpr.com to let us know when we should expect the returned forms.

What if a food item could be counted or checked in more than one category?

It is important not to count or check the same item in more than one place on the forms. Try to determine which category most closely describes the item and use that one. If you are unsure how to classify an item, put it in one of the ‘other’ spaces and specify what the item is.

What if I can’t tell which category to put a food or beverage in?

Some items might not clearly fit into one of the listed categories, especially if you can’t see the label. In these cases, use one of the ‘other’ spaces and specify what the item is.

What exactly should be counted in vending machines?

We are interested in knowing how many different selections can be made from a vending machine, even if some of those selections are for the same item. So, for a vending machine where you can see the items offered, you should count the “slots” holding the items. If the same cookies are in three different slots, each would be counted separately, since there are three different selections that will each get you cookies. Your counts should be based on the item that is in the front position of a slot. Do not count items behind the front position of a slot, regardless of whether these items are the same or different from what is in the front position. If a slot has no items at all or no item in the front position, it should be counted as empty.

For vending machines where you cannot see the items or their slots, you should count the buttons used to select the items instead. Each button should be counted separately, even if more than one button purchases the same item. If a button is marked as sold-out, it should be counted the same as an empty slot, and not counted on the form as an available item.

What if there is more than one of the same vending machine?

It is important that every vending machine available to students during the school day be reported separately. Some machines may be identical. But others may have subtle differences. For instance, one may be inside the cafeteria, while the other is just outside the cafeteria. Or one “Coke machine” might have two juice selections while another has only one and an empty slot.
What if a vending machine is out of order, is awaiting restocking, or has some other unusual circumstance?

Please call (844) 236-3257 or email SNMCS@mathematica-mpr.com to explain the situation and we will instruct you on how to proceed.

How can I tell the difference between a school store, snack bar, food cart/kiosk and fundraiser?

**School Store:** Sells pre-prepared or packaged food and beverages, as well as non-food items (like school supplies), but does not prepare or heat food; could be anywhere in the school, including within the cafeteria (or eating and seating area), but would still be run separately from the regular school food service.

**Snack Bar:** Prepares and/or heats foods to order (for example, sandwiches, hot dogs, French fries, etc.) separate from the regular cafeteria or food service area; located outside of the cafeteria (or eating and seating area); may include cafes, canteens, or concession stands.

**Food Cart/Kiosk:** Sells only pre-prepared or packaged food and beverages; does not prepare or heat foods to order or sell non-food items; located outside of the school cafeteria (or eating and seating area).

**Fundraiser:** Includes special sales such as bake sales, candy drives, or special pizza day to raise money for charity, field trips, band uniforms, or sending school teams to competitions.

If you are unsure of how to categorize a food or beverage source, please call (844) 236-3257.

What if there is more than one food cart, snack bar, school store, or fundraiser?

In these situations, the form should be completed to include all items available from a given type of source, for example, all the items available from any of the food carts.

What if there was a recent fundraiser or bake sale, or one is coming up soon?

Only food sources that are available on the day you complete the forms should be included. Recent or future sources should not be included on the form.

Who can I contact if I have other questions about these forms?

If you have any questions about completing or returning the forms, please call (844) 236-3257 or email SNMCS@mathematica-mpr.com.
SCHOOL NUTRITION AND MEAL COST STUDY

OTHER SOURCES OF FOODS/BEVERAGES

Please return completed form by fax to (609) 228-5478 (Attn: SNMCS)

| MPRID: ___________________________________________ |
| Your Name: _______________________________________ | Title: _______________________________________ |
| Phone #: ________________________________________ | Date Form Completed: _________________________ |
| School Name: ____________________________________________________________________________________ |

Besides vending machines and food sold in the cafeteria, does your school have any other sources of food or beverages available to students during the day, including before or after school?

☐ Yes  ➔ Continue  ☐ No ➔ Thank you. You are done. Please fax form to number shown above.

Instructions: Please provide the following information for every source of foods/beverages your school has other than vending machines and the cafeteria. If there is more than one of a given food source (for example, if there are multiple food carts) you can check more than one location per column and check off all the foods and beverages that are available in any of those locations.

### 1. Location ➔ Check the location(s) of each source

| In cafeteria (including indoor and outdoor seating/eating area) |
| Outside but near (within 20 feet) cafeteria or seating/eating area |
| Elsewhere in school building(s) |
| Outside school building(s), but on school grounds (not in seating/eating area) |

### 2. Beverages ➔ Check items available from each source

| Diet carbonated soft drink (diet soda/pop) |
| Regular carbonated soft drink (regular soda/pop) |
| Juice (100% fruit or vegetable juice) |
| Juice drinks and other sweetened drinks (such as cranberry drink, fruit blends, Hi-C, lemonade, punch, iced tea) |
| Energy and sports drinks (such as Gatorade, PowerAde, Red Bull, Vitamin Water) |
| Bottled water (plain, flavored, or sparkling) |
| Hot or cold chocolate drinks (such as Yoo-hoo; NOT chocolate milk) |
| Whole or reduced fat (2%) flavored milk (such as chocolate) |
| Low-fat (1%) flavored milk (such as chocolate) |
| Fat-free/skim flavored milk (such as chocolate) |
| Whole or reduced fat (2%) white milk |
| Low-fat (1%) white milk |
| Fat-free/skim white milk |
| Other (Specify) ________________________________ |

School Nutrition and Meal Cost Study

Principal Survey

January 30, 2015

Sponsored by:

U.S. Department of Agriculture
Food and Nutrition Service

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 30 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
PROGRAMMER:
ENTRY CONDITIONS ARE BASED ON WHETHER SCHOOL LEVEL IS ELEMENTARY, MIDDLE, OR HIGH SCHOOL. THE SAMPLE LOAD FILE WILL INCLUDE THE VARIABLE LEVELCCD WITH VALUES OF E, M, AND H.

LOGIN SCREEN

Welcome to the School Nutrition and Meal Cost Study Principal Survey!

Username:       Password: 

- To access the survey, please enter your user name and password in the boxes above.
- If you have any questions about the study or about completing this survey, please contact the study team by email at SNMCS@mathematica-mpr.com or by phone at 844-236-3257 (toll-free).

INSTRUCTIONS SCREEN

Instructions

- Under the Healthy, Hunger-Free Kids Act of 2010, participation in this study is mandatory. We thank you for your cooperation and participation in this very important study.
- The information you provide will be used only for statistical purposes. In accordance with the Confidential Information Protection and Statistical Efficiency Act of 2002, your responses will not be disclosed in identifiable form without your consent.
- Please answer all of the questions.
- You may complete the survey all at once or save your responses and return at a later time.
- Please use the buttons and links on each page to move through the survey. Using “Enter” or your browser’s “Back” function may cause errors.
- If you are returning to finish your saved survey, you will return to the point where you left off. You will not be able to go backward to questions you answered before logging out.
- This survey is intended for the school principal but can be completed by any staff member who is very familiar with the school’s policies related to food service and nutrition education.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 50 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.

</table>

## 1. What grades are included in your school?

PROGRAMMER: DROP-DOWN 1 RANGE: PRE-K TO 12; DROP-DOWN 2 RANGE: K TO 12

| ___ | ___ | to | ___ | ___ | (RANGE: Pre-K [PK] to 12)

SOFT CHECK: IF Q1=NO RESPONSE: Your response to this question is important. Please provide a response and continue.

SOFT CHECK: IF DROP-DOWN 2 < DROP-DOWN 1: The second grade selection should be greater than or equal to the first grade selection. Please correct your response and continue.

<table>
<thead>
<tr>
<th>ALL</th>
<th>NOT REQUIRED</th>
</tr>
</thead>
</table>

## 2. What is the average daily attendance at your school?

| ___ | ___ | ___ | STUDENTS (RANGE: 0 - 9,999) |

OR

| ___ | ___ | ___ | PERCENT (RANGE: 0 – 100) |

SOFT CHECK: IF Q2>5,000: You entered that the average daily attendance at your school is [FILL]. Please confirm or correct your response to continue.

SOFT CHECK: IF entered both students and percent for Q2: You have entered the average daily attendance at your school in both number of students and percent. Please answer in either number of students or percent and continue.

<table>
<thead>
<tr>
<th>ALL</th>
<th>REQUIRED</th>
</tr>
</thead>
</table>

## 3. Does your school participate in the School Breakfast Program (SBP)?

1. Yes
2. No

HARD CHECK: IF Q3=NO RESPONSE: Your response to this question is important. Please provide a response to continue.
4. Are the school meal programs unavailable to any students at your school, for example part-day kindergarteners or students who actually attend school in a different location?
   \[1\] Yes
   \[0\] No

SOFT CHECK: IF Q4=NO RESPONSE: Your response to this question is important. Please provide a response and continue.

4a. For how many students is lunch unavailable?
   | | | | | STUDENTS FOR WHOM LUNCH IS UNAVAILABLE (RANGE: 0-5,000)

SOFT CHECK: IF Q4a > 2,000: You entered that school lunch is unavailable for [FILL] students. Please confirm or correct your response and continue.

4b. For how many students is breakfast unavailable?
   | | | | | STUDENTS FOR WHOM BREAKFAST IS UNAVAILABLE (RANGE: 0-5,000)

SOFT CHECK: IF Q4b > 2,000: You entered that school breakfast is unavailable for [FILL] students. Please confirm or correct your response and continue.
5a. Where may students go during their lunch period?

SELECT ALL THAT APPLY

1. Food service area/cafeteria or other area where meals are served
2. Classroom but only with teacher permission
3. Classrooms open to students during lunch period
4. Library
5. Gym
6. Computer lab or media center
7. Outside, on campus
8. Other designated area on campus, such as hallways, student commons
9. Anywhere on campus
10. Off-campus/home
11. Other (specify)

5b. Which of the following off-campus food sources are close enough for students to walk or drive to during lunch?

SELECT ALL THAT APPLY

1. Fast food restaurants
2. Other restaurants, cafeterias, or diners
3. Supermarkets, convenience stores, or other stores
4. Off-campus lunch wagons, food trucks, or push carts not operated by the school meals program
5. Home or home of relative or friend
6. Other food sources (specify)
6. Does your school have rules or written policies about when students may buy a la carte foods, that is, foods other than a reimbursable meal or milk?

1. Yes
2. Rules for some students
0. No, students may buy a la carte foods under any circumstances

6a. What are those rules? A la carte foods may be purchased . . .

SELECT ALL THAT APPLY

1. When a student takes a reimbursable meal
2. When a student brings lunch from home
3. After a student has eaten their meal (whether reimbursable or brought from home)
4. When all students have had the opportunity to take a reimbursable meal
5. Other restriction (specify)

7. Are students allowed to visit other tables during meal times?

1. Yes
2. No
0. Some are, some aren’t

8. Are students who go to the area where students eat lunch allowed to leave after a certain point during their lunch period, for example, after the first 15 minutes, or do they have to stay for the full lunch period?

1. Yes, all students may leave
2. Yes, some students may leave
0. No, all students must stay in the area for the full period
8a. Are any students who go to the area where students eat lunch allowed to leave at any time during their lunch period?

- Yes, all students may leave at any time
- Yes, some students may leave at any time (either with or without special permission)
- No, all students must stay in the area for the full period

9. Are other school activities, such as pep rallies, club meetings, bake sales or other fundraisers, or tutoring sessions ever scheduled during meal times (breakfast or lunch)?

- Yes
- No

SOFT CHECK: IF Q9=NO RESPONSE: Your response to this question is important. Please provide a response and continue.

Thank you for completing the School Nutrition and Meal Cost Study Principal Survey!

Please review and print a copy of your responses by clicking here. If you are satisfied with your responses, please click on the submit button below. Once you submit your survey, you will not be able to make any additional changes. If you need to correct anything, please contact the help desk at SNMCS@mathematica-mpr.com or 844-236-3257 (toll-free) for assistance.

Thank you for your interest in completing the School Nutrition and Meal Cost Study Principal Survey. Someone from your school submitted the survey on [date]. If you believe you are getting this message in error, please contact the help desk at SNMCS@mathematica-mpr.com or 844-236-3257 (toll-free) for assistance.
School Nutrition and Meal Cost Study
Cafeteria Observation Guide

If the school being observed serves breakfast and/or lunch to multiple schools in our sample then please record each school’s name and Mathematica issued ID.

SFA ID: ____________________________ School ID: ____________________________
School Name: ____________________________
Observer Name: ____________________________
Date: ________________

I Breakfast Observations
If more than one cafeteria serves reimbursable breakfasts at the selected time, observe the one that serves the most students.

0 □ PLEASE CHECK BOX IF THERE IS NO BREAKFAST SERVED/OFFERED AT THE SCHOOL

1a. CHECK ONE OF THE BOXES BELOW IF REIMBURSABLE BREAKFASTS ARE ONLY SERVED IN OTHER LOCATIONS (I.E., CLASSROOMS) BESIDES THE CAFETERIA:

0 □→ IF YOU ARE UNABLE TO VIEW THE FOOD PREPARATION OR ASSEMBLY THEN GO TO Q3A AND CHECK THE BOX IN THE ‘BREAKFAST IN CLASSROOM’ COLUMN (FAR RIGHT). THEN SKIP TO LUNCH OBSERVATION.

1 □→ IF YOU ARE ABLE TO VIEW THE FOOD PREPARATION OR ASSEMBLY THEN GO TO Q3A AND CHECK THE BOX IN THE ‘BREAKFAST IN CLASSROOM’ COLUMN (FAR RIGHT). THEN FILL OUT THE ‘BREAKFAST IN CLASSROOM’ COLUMN IN Q3B. THEN SKIP TO LUNCH OBSERVATION.

1b. Time of Observation: ________to__________ 1c. Breakfast Service: ________to__________

2. Is today’s reimbursable breakfast menu prominently displayed so students can see it prior to going through the serving line, either outside (within 20 feet) the cafeteria or at the beginning of the serving line(s)?

0 □ Yes
0 □ No

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 20 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
3a. Name each line or station serving reimbursable breakfasts or components of reimbursable breakfasts and indicate whether that line/station is universally available to all students. Do not include any lines or food stations identified as serving a la carte items only.

☐ Other (Specify)

☐ None
This section of the observation does not need to be completed during meal service, but any tables, chairs, or furniture need to be set up as they are for meals in order to observe their condition.

III. Cafeteria Characteristics (Cafeteria includes both the eating and serving areas and both should be observed unless otherwise specified.)

IF MORE THAN ONE CAFETERIA SERVES REIMBURSABLE LUNCHES, ANSWER THIS SECTION ABOUT THE ONE THAT SERVES THE MOST STUDENTS.

1. What is the condition of the cafeteria itself?

<table>

School Nutrition and Meal Cost Study

Instructions for the Menu Survey (Basic)

Sponsored by:
U.S. Department of Agriculture
Food and Nutrition Service

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 480 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
INTRODUCTION TO THE MENU SURVEY

Thank you for participating in the School Nutrition and Meal Cost Study. Without your help, and the help of school nutrition professionals like you across the country, this important study could not be done.

As part of this study, you are being asked to complete a Menu Survey. The objective of the Menu Survey is to obtain a complete and accurate description of the foods offered and served by your school nutrition program, including foods offered in reimbursable meals, sold a la carte, and in afterschool snacks (if reimbursed through the National School Lunch Program). You will complete the survey forms during a specified time period, referred to as the “target week.” The target week for your school is shown on the front of the Menu Survey Folder.

The information you provide will be combined with information from many other schools across the country and will be used to examine the food and nutrient content of school meals and snacks.

This Instruction Manual describes the Menu Survey and provides easy-to-follow instructions for completing the survey forms. Along with the manual is a set of sample completed forms that may be useful when you are completing your own survey forms. Be sure to look over the sample completed forms.

Below, we describe the forms included in the Menu Survey Folder. The rest of this manual explains how to complete each form.

Daily Meal Counts Form

This one-page form (blue paper) is located behind the first tab inside the Menu Survey Folder. This is a very simple form. All you have to do is write in the number of reimbursable lunches and breakfasts you served each day of the target week. At the bottom of the form, you will write in your non-reimbursable food sales each day of the week, by venue (if applicable). Additional instructions are provided at the top of the form.

Reimbursable Foods Forms

You will fill out these forms each day of the target week. They are located in colored folders in the Menu Survey Folder labeled by day of the week (Monday forms, Tuesday forms, etc.). There are separate forms for breakfast (yellow paper) and lunch (white paper). You will use these forms to provide information about all foods and beverages offered in reimbursable meals, including portion sizes, the number of portions prepared and served, their contributions to the meal pattern food groups, and the food descriptions needed for an accurate nutrient analysis. You will also check if any item was a USDA Food or prepared from a recipe.
Recipe Forms

A booklet of Recipe Forms (grey paper) is located behind the “Recipes” tab in the Menu Survey Folder. The Recipe Forms are used to provide information for foods prepared from two or more ingredients and certain other reimbursable menu items served during the target week.

Self-Serve/Made-to-Order Bar Form

Behind the next tab in the Menu Survey Folder is another booklet of forms (lavender paper) to be used for recording information about “Self-Serve Bars,” such as salad bars and condiment bars, as well as made-to-order bars such as deli bars. If your school offers self-serve or made-to-order bars, you will use a Self-Serve/Made-to-Order Bar form to describe the foods offered on each bar.

A La Carte Foods Checklist

The A La Carte Foods Checklist is a multiple-page form (pink paper) that you will use to identify all foods and beverages sold on an a la carte basis in your school. You only need to fill out this form for ONE DAY during your target week. The day that has been randomly selected to be your “a la carte checklist day” is shown on the front cover of the Menu Survey Folder.

Afterschool Snack Form

If your school provides reimbursable snacks through the National School Lunch Program for one or more afterschool programs, you will fill out the Afterschool Snack Forms (green paper). One form will be completed for each day that afterschool snacks are offered. These forms are similar to but much simpler than the Reimbursable Foods Form.

Daily Reminder List

In each of the Monday through Friday folders we have also included the Daily Reminder List (gold paper). This double-sided card provides tips for getting organized before the target week and a summary of day-to-day activities for the target week. We suggest that you also store or post this list in a convenient location so you can refer to it during the target week.

School Nutrition Manager Survey

We have included a survey that asks about school’s foodservice operations and your experiences implementing the new meals requirements. Please complete the survey during your target week. You can choose to complete it on any day you would like.

The Rest of This Manual

The rest of this manual includes step-by-step instructions for completing each of the Menu Survey forms. For each form, a completed “SAMPLE” is provided. Please take the time to review the instructions and all of the sample completed forms before beginning the Menu Survey.
If You Need Assistance

We will be calling you before the start of the target week and again during the target week to answer any questions you may have. If you have questions or need assistance at any other time before, during, or after the target week, feel free to call our technical assistance line at 1-844-604-2775. **Thank you for your assistance with this important study!**
General Guidelines for Completing the Menu Survey

Getting Started

Please read this manual carefully. Be sure to review the sample completed forms that are provided. Also, pay special attention to the Daily Reminder List. Keep this guide handy during the target week and refer to it as you complete the survey forms.

Off-Site Kitchens

If your school receives prepared meals or any components of reimbursable meals from another school, a central kitchen or commissary, or an outside vendor during the target week, we ask that you obtain food descriptions, product information, and recipes for these foods, as needed. You may wish to discuss strategies for this task with your school food authority (SFA) director.

Filling Out Forms

✓ Use pencil on all forms.
✓ Write clearly and legibly (especially when recording numbers).
✓ Write the name of your school and the date (if applicable) at the top of each form.
✓ Double-check your work and review the Daily Reminder List at the end of each day to be sure you have provided all the necessary information.

At the End of the Week

When you have completed all forms included in the Menu Survey, please double-check your work to make sure you have provided all the necessary information. Please place the completed forms in the empty plastic envelope at the back of the Menu Survey Folder. Remember to also include your completed School Nutrition Manager Survey. Return all completed survey materials to Mathematica in the pre-addressed envelope provided.
Instructions for Completing the Reimbursable Foods Forms

Purpose: To describe foods and beverages that are offered as part of USDA reimbursable lunches and breakfasts during the target week, and to provide information on the number of portions of each item prepared and served in reimbursable meals.

Location: The Reimbursable Foods Forms are located in the five colored folders labeled Monday-Friday, in the Menu Survey Folder. Separate forms are provided for breakfast (yellow) and lunch (white).

Notes:

- If your school offers reimbursable fruits and vegetables through the *Fresh Fruit and Vegetable Program* during the target week, do **NOT** include these fruits and vegetables on the Reimbursable Foods Form.

- If your school offers meals to pre-kindergarten students, do **NOT** include these foods on the Reimbursable Foods Form.

- **Be sure to look at the sample completed Reimbursable Foods Forms that are provided.** Looking at the sample forms as you read the instructions will make it easier to understand what you need to do when filling out the forms.

How to Complete the *Reimbursable Foods Form*

**Reimbursable Meal Counts**

On the top right-hand corner of the form, you will see the *Reimbursable Meal Counts* box. The questions in this box ask about the number of reimbursable meals (breakfast or lunch) you *planned* to serve for the day and the number of reimbursable meals that you *actually* served that day. Record the answers to both questions in the spaces provided. Your production records may include this information. If not, you may need to talk to your SFA director to obtain it.

**Column A: Food Item**

You will use this column to identify foods and beverages offered in reimbursable meals each day. Most foods are already listed for you. Others you will need to write in. In thinking about all the foods offered in your cafeteria each day and deciding which ones to include on this form, keep the following in mind:
DO INCLUDE:

- All foods and beverages offered in reimbursable meals (even if they may not count toward USDA meal pattern requirements).
- All condiments, salad dressings, optional toppings, desserts, and snack items.

DO NOT INCLUDE:

- Foods and beverages that are offered only a la carte or only to adults.
- Foods and beverages that are offered and served to pre-kindergarten students.
- Foods and beverages that were planned for a given day, but not actually prepared or served at your school because a substitution was made.

When foods are paired or offered together:

When a condiment/topping, bread/grain item or meat/meat alternate is paired with, or offered only with another menu item, add a note in Column A to make this clear.

Examples:

- For barbeque sauce that is offered only with chicken nuggets, add a note…
  Barbeque sauce w/ chicken nuggets
- For crackers that are offered only with a Chef’s salad, add a note…
  Crackers w/ Chef’s salad
- For toast that is offered only with cereal, add a note…
  Toast w/ cereal
- For a cheese stick that is offered only with a peanut butter sandwich, add a note…
  Cheese stick w/ peanut butter sandwich

When writing in foods that are not already listed on the form:

- Record foods in their appropriate food group sections whenever possible. Blank lines are provided at the end of each section for your entries. A generous amount of additional space is provided at the end of the form for recording items that do not fit in the individual food group sections (for example, not enough blank lines for additional fruits), as well as items that belong in a food group that is not listed on the form.

- Salad bars, condiment bars, and other food bars, whether self-serve or made-to-order, should be listed as single menu items. Salad bars (both side salad bars and entée salad bars) and other common theme bars are prelisted. Use separate lines for any self-serve bars that are not prelisted.

- If your school offers bag or box meals or fully preplated meals, write each type of meal on a separate line. Complete a Recipe Form for each type of meal to identify all of the foods and beverages included in the meal.
If foods are offered with optional components or ingredients, use separate lines to list each component and make it clear that the main food and optional components/ingredients go together, as shown below.

**Example:**
- For a baked potato offered with optional toppings of cheese sauce and/or broccoli, use separate lines for…
  - Baked potato
  - Cheese sauce, canned, low-fat
  - Broccoli, frozen, chopped

**Column B: Portion Size**

For each item offered in reimbursable meals, write the size of one individual serving, as offered to students.

- Include both the **amount**, if not already printed on the form, and the **unit of measure**. For example:

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Amount</th>
<th>Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Broccoli</td>
<td>¾</td>
<td>cup</td>
</tr>
<tr>
<td>Chicken patty</td>
<td>2.5</td>
<td>oz.</td>
</tr>
<tr>
<td>Tossed salad</td>
<td>½</td>
<td>cup</td>
</tr>
</tbody>
</table>

You may change the printed unit for any food if your school serves the item in a different unit of measure.

- Include the **weight** (oz.) of one portion whenever available, especially for commercially prepared foods, such as burritos, chicken or fish nuggets, pizza, doughnuts, or cookies.

- For foods that are offered self-serve, write “self-serve” as the portion size.

- If your school offers different portion sizes of the same food, for example to students in different age-grade groups, you will need to list the food twice (on two separate lines) and write in the different portion sizes.

**Example:**
If your school serves two age-grade groups (grades 6-8 and 9-12), there may be different portion sizes for canned peaches. You would indicate this by listing the food twice as shown below.
<table>
<thead>
<tr>
<th>Food Item</th>
<th>Portion Size (Include Units)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Canned peaches</td>
<td>½ cup</td>
</tr>
<tr>
<td>Canned peaches</td>
<td>1 cup</td>
</tr>
</tbody>
</table>

**Column C: Number of Portions**

**Total Portions Prepared**

For each menu item, enter the *total number* of portions prepared. Include portions that are prepared for reimbursable meals at your school as well as portions that are prepared to be sent off-site, served a la carte and to adults or others. For pre-packaged foods and beverages, the total number of portions prepared refers to the number of individual packages that are put out in the serving area. For example for cartons of juice, write the number of cartons that are placed on the serving line before and throughout the meal period.

**Portions Sent Off-Site**

*If your school prepares food to be served at other schools or facilities, enter the total number of portions for each item that is sent off-site. Include portions sent off-site on the day they are sent – it doesn’t matter if they will be served on the same day or another day. If your school does not prepare food to be served at other schools or facilities, you do not need to complete this column.*

**Reimbursable Portions Served**

For each menu item, enter the *number* of reimbursable portions served to students at your school (excluding portions sold a la carte or to adults/others). Your production records may include this information; if not, you may need to talk to your SFA director about putting a procedure in place to record it for the target week. If a menu item is prepared and available to students but none are served in reimbursable meals, be sure to enter a zero in Column C.

**Portions Served A La Carte or to Adults/Others**

Also for each menu item, enter the number of portions that are served a la carte, to adults, or to others who are not receiving meals through the NSLP or SBP. If no portions are served a la carte or to adults, enter zero in this column.

**Portions Left Over for Later Use**

At the end of each meal, enter the *number* of portions that were not served on this day, but were leftover and may be served on a different day. For instance, this may include
cartons of milk or juice to be used on the following day. Do not include leftover portions that are thrown away. If no portions are left over and saved for later use, enter zero in this column.

**Portions Wasted**

Also enter the *number* of portions that were not served and must be thrown out because they cannot be used on a different day. For instance, this may include food prepared in a large dish, such as macaroni and cheese. If no portions are wasted, enter zero in this column.

**Example:**

Note that for each of the following menu items, the *number* of portions entered in the last five sub-columns (Sent Off-Site, Reimbursable Served, Served a La Carte or to Adults/Others, Left Over, and Wasted) add up to the total *number* of portions prepared (Total Prepared).

<table>
<thead>
<tr>
<th>A. Food Item</th>
<th>B. Portion Size (Include Units)</th>
<th>C. Number of Portions</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Total Prepared</td>
<td>Sent Offsite</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Orange juice</td>
<td>8 fl oz</td>
<td>140</td>
</tr>
<tr>
<td>Macaroni and cheese</td>
<td>1 cup</td>
<td>160</td>
</tr>
</tbody>
</table>

**Column D: Meal Pattern Contributions**

Fill in these columns with the contribution each menu item makes to the USDA meal pattern food groups (“creditable amounts”). This information may be included in your production records; if not, you may need to talk to your SFA director to obtain it. You may be able to find meal pattern contributions in the *Food Buying Guide for Child Nutrition Programs*, *USDA Foods Fact Sheets* or, for commercially prepared foods, on CN labels.

- For each menu item, enter the *creditable amount* of each meal pattern food group contributed by one portion in cups or oz equivalents. In some cases the meal pattern contribution will be the same as the portion size (recorded in Column B), but this will not be true for all menu items or menu items that contribute to more than one meal pattern food group.
- You do not need to list the meal pattern contribution for milks or other food items where the column is shaded in gray.
- Note that many menu items will contribute to only one meal pattern food group and few, if any, menu items will contribute to all meal pattern food groups.
• If a menu item contributes to more than one meal pattern food group or vegetable subgroup, be sure to enter the amount contributed to all applicable meal pattern food groups in Column D.

• When a menu item contains grains, enter the oz equivalent that it contributes in the “Grains” column. Check the box in the “Whole Grain-Rich” column if the menu item meets the whole grain-rich criteria (listed on page 13 of this document).

Example:
If your school offers a 2 cup portion of a chicken, broccoli and brown rice bowl, you would list the contribution that one portion makes to the applicable meal pattern food groups in Column D: 1/2 cup equivalent of dark green vegetables, 2 oz equivalents of meat/meat alternates, 1.5 oz equivalents of grains; and check the box for whole grain-rich.

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Portion Size (Include Units)</th>
<th>Number of Portions</th>
<th>Meal Pattern Contributions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chicken, broccoli and brown rice bowl</td>
<td>2 cups</td>
<td>...</td>
<td>1/2</td>
</tr>
</tbody>
</table>

• Note that some fruits and vegetables do not credit on a volume as served basis (for example, 1 cup of a food item does not always credit as 1 cup). Below are some examples:

✓ Dried fruit: credits as twice the volume as served, so 1/2 cup would credit as 1 cup of fruit
✓ Raw leafy greens: credits as half the volume as served, so 2 cups would credit as 1 cup of vegetable (dark green or other vegetables depending on the type of leafy green)
✓ Tomato paste: refer to manufacturing information or ask your SFA director for crediting information

• We have added shading to Column D to indicate the meal pattern food groups that are not usually applicable to menu items within a given food group section. If you write in a menu item that is not already listed on the form, be sure to enter the contribution amount(s) to the appropriate meal pattern food group(s) in Column D.
For self-serve or made-to-order bars:

- List the meal pattern contribution for “1 serving” from the bar. This information may be included in your production records; if not, you may need to talk to your SFA director to obtain it.

**Example:**
If you offer a side salad bar, you would enter the amount that one serving contributes to the meal pattern food groups. The side salad bar shown in the example below provides ½ cup equivalent of dark green vegetables, ¼ cup equivalent of red/orange vegetables, and ¼ cup equivalent of other vegetables. The creditable amounts are listed under the appropriate vegetable subgroup columns (in Column D).

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Number of Portions</th>
<th>Meal Pattern Contributions</th>
<th>Vegetables (cups)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Side salad bar (non-entrée or small portion)</td>
<td>1 serving</td>
<td>...</td>
<td>1/2</td>
</tr>
</tbody>
</table>

For vegetables offered at breakfast:

- There are currently no requirements for vegetable subgroups at breakfast. However, if your school does offer vegetables as a separate menu item or as part of a combination item at breakfast, be sure to record the meal pattern food group amount in the vegetable column (in Column D).

**Example:**
If your school offers 1/2 cup of hash browns at breakfast, you would enter 1/2 cup under the vegetables column (in Column D).
Whole Grain-Rich Foods

Whole grain-rich foods must meet at least one of the following criteria:

- Whole grains per serving must be ≥ 8 grams,
- Product includes FDA’s whole grain health claim on its packaging, or
- Product ingredient listing lists a whole grain first (HUSSC criteria).

Check the box in the “Whole Grain-Rich” column if the menu item meets the whole grain-rich criteria.

If you are unsure whether a menu item is Whole Grain-Rich, you can...

- Visit the following websites that describe the criteria for determining whether a menu item is whole grain-rich:
  
  

- Include a package label for the product with your completed forms at the end of the week.

Column E: Manufacturer/Brand Name and Product Code

This column is used to provide information on the manufacturer, brand name, and product code of certain foods listed in Column A. We have shaded this column for pre-listed foods that do not require manufacturer/brand name, or a product code.

- For all other commercially prepared food products you serve, including entrees, meat/meat alternates, and most bread/grain items (including biscuits, doughnuts, breakfast pastries, and pancakes), please fill in the manufacturer/brand and product code information in Column E.

- Please do your best to record whatever manufacturer and/or brand information is available (or at least how the food is described on the package label) for all required foods listed above. Always include a product code, if available. The product code is usually located on the label of the box in which commercially prepared food products are delivered. An example is shown below.

![Example of a product label with a product code]

13
• Below are additional examples of manufacturer and brand names, and products codes, for some foods.

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Manufacturer/Brand Name and Product Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pizza, pepperoni</td>
<td>Schwan’s/Tony’s 78546</td>
</tr>
<tr>
<td>Super Donut</td>
<td>Super Bakery 6001</td>
</tr>
<tr>
<td>Pancake-on-a-stick</td>
<td>State Fair 70481</td>
</tr>
</tbody>
</table>

• If your school purchases commercially prepared food products, including ones that are lower in fat or sodium, you may wish to include package labels to tell us more about the products. This will help ensure that the nutrient analysis is accurate and reflects the types of foods used in your school meal program.

• If you decide that you would like to give us package labels, you can put them in the envelope with the completed forms at the end of the week.

Column F: Food Description

This column is used to describe foods so that an accurate nutrient analysis can be done. For most of the pre-listed items, you will need to check a box or write in a response. For example, for some foods you will be asked to check whether a food is regular, low-fat or fat-free, or if it is breaded or has icing. For some foods you will be asked to specify the type or variety of the food, such as the type of bread (100% whole wheat, rye bread, etc.), or the flavor of milk or yogurt.

It is especially important to complete this column for commercially prepared products and items that you add to the form. Please provide as complete a description of the item as possible. Depending on the item, this may include information on:

- type (100% whole wheat bread, rye bread, blueberry muffin, unbreaded chicken patty, low-sodium green beans)
- form (fresh, frozen or canned vegetable or fruit)
- flavor (Strawberry milk, oatmeal cookie, vanilla yogurt)
- fat content (low-fat yogurt, reduced-fat sour cream, fat-free salad dressing)

Column G: USDA Food?

For food items in Column A that are donated USDA Foods, place a check mark in the box in Column G.

Column H: Recipe?

For foods in Column A that require a recipe, place a check mark in the appropriate box in Column H. Use these checkmarks to remind you to complete a Recipe Form or provide a printed recipe.
We have shaded this column for pre-listed foods that do not require recipes. If the column is not shaded, you may need a recipe, depending on the food. For example, for purchased pizza that is served as is, a recipe is not needed. For pizza that is prepared from scratch or is a modified version of a purchased product (for example, you added your own toppings), a recipe is needed.

**Note:** Recipes are needed for all items that are made by combining two or more foods or ingredients.
Instructions for Completing Recipe Forms

Purpose: To describe the types and amounts of ingredients used in preparing foods made from scratch or made by combining two or more foods or ingredients.

Location: A booklet of Recipe Forms (grey) is located behind the “Recipes” tab in the Menu Survey Folder. If you need more forms than are included in the booklet, make copies of the form and file the completed extra forms inside the Recipe Form booklet.

Notes:

- A Recipe Form is needed for every item that is prepared from scratch or prepared by combining two or more foods or ingredients. This includes all sandwiches and foods prepared or cooked with added butter, margarine, dressings, or other condiments.

- Some foods may need more than one Recipe Form. For example, for a tuna salad sandwich, you will need to use two Recipe Forms—one for the tuna salad mixture and one for the assembled tuna salad sandwich. The same is true for a brownie or cake with icing. See the sample completed Recipe Forms for an example of a situation where two Recipe Forms are needed.

- You may not have to fill out the Recipe Form if a printed copy of the recipe is available. See the special instructions later in this section.

- If the same recipe was prepared more than once during the target week, you only need to fill out a Recipe Form once and be sure to check the boxes at the top of the form to indicate which days of the week the recipe was served, unless the recipe is prepared differently on other days of the week. If variations of a recipe are used on different days, a separate Recipe Form is needed for each variation.

- Be sure to look at the sample completed Recipe Forms that are provided. Looking at these forms as you read the instructions will make it easier to understand what you need to do when filling out the form.
How to Complete the Recipe Form

Recipe/Food Name

Write the complete name of the recipe or food on the line provided in the upper right hand corner of the form. Please be sure that the name is clear enough that we will be able to match it up with the appropriate item on the Reimbursable Foods Form.

For recipes that are used in other recipe items, mention both recipes in the name. For example, “Tuna salad for tuna sandwich.”

Meal

Check the meal or meals in which the recipe/food item was offered.

Day

Check the day or days of the target week on which the recipe/food was offered. Check “all” if the item is offered every day.

Size of One Serving

Write the size of one individual serving, as offered to students. Include both the amount and unit of measure (Examples: 1/4 cup, 8 fluid ounces, 1 sandwich).

Number of Servings Prepared

Please record the total number of individual servings prepared (recipe yield) in the space provided. For some items, such as sandwiches, the Recipe Form describes the ingredients or components of a single serving (Examples: 1 sandwich, 1 Chef’s salad).

Column A: Ingredient Name

List all foods and ingredients used to prepare the recipe/food. Remember to include all items used in food preparation, including seasonings and salt, as well as oils, butter, margarine, and other fats used in cooking.

Column B: Amount in Recipe

For each item listed in Column A, write the amount used in Column B. Be sure to include information on both the amount and the unit of measure (Examples: 2 Tbsp, 6 oz, 5 cups, 7.5 gallons, 35 lbs)

Be sure to provide amount information on the form of the ingredient when it was measured. For example, was pasta or rice measured cooked or uncooked? Was meat measured raw or after cooking? Was the cheese sliced, cubed, shredded, or grated?

Column C: Manufacturer/Brand Name and Product Code

If the ingredient or food listed in Column A is a commercially prepared food, list the manufacturer and/or brand name as well as the product code.
Column D: Ingredient Description

For each item listed in Column A, use this column to provide details about the food or ingredient that will allow us to do an accurate nutrient analysis. Depending on the item, this may include information on:

- type (whole wheat flour, brown rice, ground turkey, low-sodium tomato sauce)
- form (fresh, frozen or canned vegetables, fruits, or meats)
- cooking status (cooked, uncooked, dry, raw)
- fat content (part-skim cheese, 1% fat milk, fat-free mayonnaise)
- whether whole grain-rich

See the sample completed forms for examples of ingredient descriptions.

Column E: USDA Food?

For ingredients in Column A that are donated USDA Foods, place a check mark in the box in Column E.

Column F: Recipe?

For ingredients in Column A that require a recipe, place a check mark in the appropriate box in Column F. Use these checkmarks to remind you to complete an additional Recipe Form.

Note: Recipes are needed for all items that are made by combining two or more foods or ingredients.

If You Can Provide a Printed Copy of the Recipe…

Be sure to:

- Staple or clip a copy of the printed recipe to a blank Recipe Form in the booklet, and indicate on the Recipe Form the meal and days the recipe was used.
- Mark the recipe, as needed, to show how the recipe was prepared in your school, and make sure the name of the recipe matches the name used on the Reimbursable Foods Form.

Make sure the recipe includes:

- Yield information: size of the serving and number of servings prepared.
- A complete description of all ingredients, including manufacturer and/or brand and product code for commercially prepared food products.
- An indication of any ingredients that are USDA Foods, for example, write “USDA” beside the ingredient name.
Instructions for Completing Self-Serve/Made-to-Order Bar Form

Purpose: To describe the ingredients included on self-serve bars such as salad bars, theme bars, and condiment bars, as well as made-to-order bars such as deli bars.

Location: A booklet of Self-Serve/Made-to-Order Bar Forms (lavender) is located behind the “Self-Serve Bars” tab in the Menu Survey Folder.

Notes:

- A separate Self-Serve/Made-to-Order Bar Forms must be completed for each type of self-serve bar or made-to-order bar offered. If the same bar (with all the same foods/ingredients) was offered more than once during the target week, you only need to fill out one Self-Serve/Made-to-Order Bar Forms and indicate the days on which the bar was offered. If the foods/ingredients offered on the bar differ on other days of the week, a separate form is needed for each day they are different.

- Be sure to look at the sample completed Self-Serve/Made-to-Order Bar Forms that are provided. Looking at these forms as you read the instructions will make it easier to understand what you need to do when filling out the form.

How to Complete the Self-Serve/Made-to-Order Bar Forms

Name of Bar

Write the complete name of the self-serve/made-to-order bar on the line provided in the upper right hand corner of the form. Please be sure that the name is clear enough that we will be able to match it up with the same item on the Reimbursable Foods Form.

Meal

Check the meal or meals in which the bar was offered during the target week.

Day

Check the day or days of the target week on which the bar was offered. Check “all” if the bar (with all the same ingredients) is offered every day.

Column A: Food Name

List all foods and ingredients offered on the bar. If you need additional lines, write the name of the bar and “continued” on a blank Self-Serve/Made-to-Order Bar Forms and list remaining foods/ingredients.
Column B: Portion Size (if pre-portioned)

For pre-portioned items only, describe the size of one portion. This includes items such as baked potatoes, tortillas, packaged crackers, boxes of raisins, or packages of sunflower seeds. It also includes items that might be portioned out by cafeteria servers, such as pasta on a pasta bar, cold cuts on a deli bar, or meat and cheese items on a salad bar.

Be sure to include information on both the amount and the unit of measure. See the sample completed Self-Serve/Made-to-Order Bar Forms for examples.

Column C: Manufacturer/Brand Name and Product

For commercially prepared food products, please record the manufacturer and/or brand name and a product code in Column C.

Column D: Food Description

For each item listed in Column A, use this column to provide details about the food or ingredient that will allow us to do an accurate nutrient analysis. Depending on the item, this may include information on:

- type (100% whole grain bread, rye bread, graham cracker, cheddar cheese, low-sodium green beans, deli turkey)
- form (fresh, frozen or canned vegetables or fruit)
- cooking status (cooked, uncooked, dry, raw)
- fat content (low-fat yogurt, reduced-fat sour cream, fat-free salad dressing)
- whether whole grain-rich

See the sample completed forms for examples of ingredient descriptions.

Column E: USDA Food?

For foods in Column A that are donated USDA Foods, place a check mark in the box in Column E.

Column F: Recipe?

For foods in Column A that require a recipe, place a check mark in the appropriate box in Column F. Use these checkmarks to remind you to complete a Recipe Form.

Note: Recipes are needed for all items that are made by combining two or more foods or ingredients.
Instructions for Completing the A La Carte Foods Checklist

Purpose: To identify foods and beverages your school offers on an a la carte basis at lunch and breakfast.

Location: The A La Carte Foods Checklist (pink paper) is located behind the “A La Carte” tab in the Menu Survey Folder.

Notes:

- Complete the A La Carte Foods Checklist on the one day specified on the front of the Menu Survey Folder. Be sure to complete the checklist even if your school does not offer items on an a la carte basis, or if you sell only milk.

- Be sure to look at the sample completed A La Carte Foods Checklist that is provided.

How to Complete the A La Carte Foods Checklist

1. Write the name of your school and the date on the first page of the form.

2. Answer Question 1. If your school does not offer any foods or beverages on an a la carte basis, check “No.” You are done. If you check “Yes,” please answer Questions 2 through 4 and go on to the next page.

3. Place a check mark in the box next to each food and beverage that was available for a la carte purchase on the specified day. This includes items that are sold only a la carte as well as components of a reimbursable meal that may be purchased a la carte. There are separate check boxes for lunch and breakfast.

4. If a food or beverage is usually or sometimes available a la carte, but was not available on the specified day, do not check the box.

5. If your school had a la carte foods or beverages available on your specified day that are not included in the checklist, please write in the names of these foods and beverages under the appropriate category. Extra lines are available on the last page of the checklist, if necessary. Be sure to indicate whether each food or beverage was offered at breakfast and/or lunch.
Instructions for Completing the Afterschool Snack Form

Purpose: To describe the foods and beverages offered in NSLP afterschool snacks during the target week, and to provide information on the number of individual snack items served and the total number of reimbursable snacks served to students.

Location: A booklet of Afterschool Snack Forms (green paper) is behind the “Afterschool Snacks” tab in the Menu Survey Folder.

Notes:

• If your school offers reimbursable fruits and vegetables through the Fresh Fruit and Vegetable Program during the target week, do NOT include these fruits and vegetables on the Afterschool Snack Form.

• Be sure to look at the sample completed Afterschool Snack Form that is provided. Looking at this sample as you read the instructions will make it easier to understand what you need to do when filling out the form.

How to Complete the Afterschool Snack Form

On the front page of this booklet answer question 1 and indicate the days during the target week that afterschool snacks were offered. Complete one Afterschool Snack Form for each day snacks were offered.

This form is similar to the Reimbursable Foods Form. It includes columns for the food item, portion size, number of reimbursable portions prepared/available and served, and food description so that an accurate nutrient analysis can be done. Depending on how your afterschool program operates, you may need assistance from afterschool program staff to complete the columns for number of portions served.

Day

Check the day of the target week for which this form is being completed.

Number of Reimbursable Snacks Served

At the top of the form record the total number of reimbursable snacks served to students that day.
Column A: Food Item

You will use this column to identify foods and beverages offered in reimbursable snacks each day. Some foods are already listed for you. Others you will need to write in. In thinking about all the foods offered in your snacks each day and deciding which to include on this form, keep the following in mind:

**DO INCLUDE:**

- All foods and beverages offered in reimbursable snacks (even if they may not count toward USDA meal pattern requirements).

**DO NOT INCLUDE:**

- Foods and beverages that are offered only to adults.
- Foods and beverages that were planned for a given day, but not actually prepared/available that day.

**When writing in foods that are not already listed on the form:**

- Record foods in appropriate food group sections. Blank lines are provided at the end of each section for your entries.

Column B: Portion Size

For each item offered in reimbursable afterschool snacks, write the size of one individual serving, as offered to students. If the snack item is pre-packaged, list the actual package size or weight, not “1 package.”

- Include both the *amount* and the *unit* of measure:

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Amount</th>
<th>Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Banana, fresh</td>
<td>1</td>
<td>Medium</td>
</tr>
<tr>
<td>Orange juice</td>
<td>6</td>
<td>fl. oz</td>
</tr>
<tr>
<td>Granola bar</td>
<td>1</td>
<td>oz.</td>
</tr>
</tbody>
</table>

- If a food or beverage is offered in more than one portion size (for different age-grade groups), list the food or beverage on separate lines and write in the different portion sizes.
Example:

<table>
<thead>
<tr>
<th>A. Food Item</th>
<th>B. Portion Size (Include Units)</th>
<th>C. Number of Reimbursable Portions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Orange juice</td>
<td>6 fl.oz</td>
<td>50</td>
</tr>
<tr>
<td>Orange juice</td>
<td>8 fl.oz</td>
<td>50</td>
</tr>
</tbody>
</table>

**Column C: Number of Reimbursable Portions**

**Number of Reimbursable Portions Prepared/Available**

For each snack item offered, write in the number of reimbursable portions prepared/available. The number of reimbursable portions prepared should reflect the actual number of servings available for students to select as part of a reimbursable snack.

**Number of Reimbursable Portions Served**

Also for each snack item, enter the number of reimbursable portions or individual items served to (or selected by) students as part of a reimbursable snack, excluding portions served to adults. If a menu item is prepared and available to students but no portions are served, be sure to enter a zero in this column.

You may need to ask the afterschool program staff for this information. You can also give the afterschool program staff a copy of the Afterschool Snack Form and ask them to complete this column.

**Column D: Food Description**

This column is used to describe foods so that an accurate nutrient analysis can be done. For most of the pre-listed items, you will need to check a box or write in a response. For example, for some foods you will be asked to check whether a food is regular, low-fat or fat-free, or if it is whole grain-rich or reduced-fat. For some foods you will be asked to specify the type or variety of the food, such as the type of crackers (graham, wheat, saltines, etc.), or the flavor of milk or yogurt. Please provide as complete a description of the item as possible. Depending on the item, this may include information on:

- Type (1% or 2% milk; white or whole wheat bread; 100% apple juice)
- Form (fresh carrots, canned pineapple)
- Flavor (chocolate milk, strawberry yogurt)
- Fat or sugar content (low-fat yogurt, reduced-fat cookies; reduced-sugar jelly, pears in light syrup)
Daily Meal Counts Form (Basic)

From Screener:
1. Does your school participate in the School Breakfast Program (SBP)? [scrnr_Q1]
   □ Yes
   □ No  → SKIP OUT OF REIMBURSABLE BREAKFAST Qs.

3. Does your school sell food or beverages on an a la carte basis (including milk)? [scrnr_Q3]
   □ Yes
   □ No

4. [Group 3 only] Does your foodservice department sell any foods or beverages solely on a non-reimbursable or a la carte basis? [scrnr_Q4]
   □ Yes
   □ No

Coding note: If scrnr_Q3=0 AND scrnr_Q4=0, skip out of NRF Sales Q

School Name: _____________________________  Date: _____________________________

Instructions:
1. In the boxes for the Number of Reimbursable Lunches Served and Number of Reimbursable Breakfasts Served, please record the number of free, reduced-price, and full-price reimbursable meals served in your school each day of the target week. Do not include meals for which you do not claim reimbursement, for example, second lunches sold to students on an a la carte basis.

2. Check if the number of reimbursable meals was much higher or lower than usual. If so, describe the reasons for this difference in the space provided.

3. At the bottom of the page, please record the total value of your non-reimbursable food sales by venue (including all student, adult, and other sales in venues supplied by foodservice only) for each day of the target week. If you do not keep venue-specific records, you may simply enter the total sales into the last column.

<table>

School Nutrition and Meal Cost Study

Instructions for the Menu Survey (Expanded)

Sponsored by:

U.S. Department of Agriculture
Food and Nutrition Service

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-XXXX. The time required to complete this information collection is estimated to average 600 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
INTRODUCTION TO THE MENU SURVEY

Thank you for participating in the School Nutrition and Meal Cost Study. Without your help, and the help of school nutrition professionals like you across the country, this important study could not be done.

As part of this study, you are being asked to complete a Menu Survey. The objective of the Menu Survey is to obtain a complete and accurate description of the foods offered and served by your school nutrition program, including foods offered in reimbursable meals, sold a la carte, and in afterschool snacks/suppers. You will complete the survey forms during a specified time period, referred to as the “target week.” The target week for your school is shown on the front of the Menu Survey Folder.

The information you provide will be combined with information from many other schools across the country and will be used to examine the food and nutrient content of school meals and snacks.

This Instruction Manual describes the Menu Survey and provides easy-to-follow instructions for completing the survey forms. Along with the manual is a set of sample completed forms that may be useful when you are completing your own survey forms. Be sure to look over the sample completed forms.

Below, we describe the forms included in the Menu Survey Folder. The rest of this manual explains how to complete each form.

Daily Meal Counts Form

This one-page form (blue paper) is located behind the first tab inside the Menu Survey Folder. This is a very simple form. All you have to do is write in the number of reimbursable lunches and breakfasts you served each day of the target week. At the bottom of the form, you will write in your non-reimbursable food sales each day of the week, by venue (if applicable). Additional instructions are provided at the top of the form.

Reimbursable Foods Forms

You will fill out these forms each day of the target week. They are located in colored folders in the Menu Survey Folder labeled by day of the week (Monday forms, Tuesday forms, etc.). There are separate forms for breakfast (yellow paper) and lunch (white paper). You will use these forms to provide information about all foods and beverages offered in reimbursable meals, including portion sizes, the number of portions prepared and served, their contributions to the meal pattern food groups, and the food descriptions needed for an accurate nutrient analysis. You will also check if any item was a USDA Food or prepared from a recipe.
Recipe Forms

A booklet of Recipe Forms (grey paper) is located behind the “Recipes” tab in the Menu Survey Folder. The Recipe Forms are used to provide information for foods prepared from two or more ingredients and certain other reimbursable menu items served during the target week.

Self-Serve/Made-to-Order Bar Form

Behind the next tab in the Menu Survey Folder is another booklet of forms (lavender paper) to be used for recording information about “self-serve” bars, such as salad bars and condiment bars, as well as made-to-order bars such as deli bars. If your school offers self-serve or made-to-order bars, you will use a Self-Serve/Made-to-Order Bar form to describe the foods offered on each bar.

A La Carte Foods Checklist

The A La Carte Foods Checklist is a multiple-page form (pink paper) that you will use to identify all foods and beverages sold on an a la carte basis in your school. You only need to fill out this form for ONE DAY during your target week. The day that has been randomly selected to be your “a la carte checklist day” is shown on the front cover of the Menu Survey Folder.

NSLP Afterschool Snack Form

If your school provides reimbursable snacks through the National School Lunch Program (NSLP) to one or more afterschool programs, you will fill out the NSLP Afterschool Snack Form (green paper) to provide information about the items provided in afterschool snacks each day. This includes much of the same information you will be providing on the Reimbursable Foods Forms.

CACFP Afterschool Snack and Supper Form

If your school provides reimbursable snacks or suppers through the Child and Adult Care Food Program (CACFP) to one or more afterschool programs, you will fill out the CACFP Afterschool Snack and Supper Form (green paper) to provide information about the items provided in afterschool snacks and/or suppers each day. This includes much of the same information you will be providing on the Reimbursable Foods Forms.

Non-Reimbursable Foods Form

The Non-Reimbursable Foods Form will be used to record daily or weekly sales information for foods that are served a la carte in the cafeteria serving line or in other venues but are not available as part of a reimbursable meal or reimbursable snack. This form is only for non-reimbursable food items that are supplied or stocked by foodservice. Use this form to record the number of non-reimbursable food items sold on a daily basis. You may use your daily sales report, if available, to help you fill out this form. If you do not have the daily sales totals, you may provide weekly sales total information for food items.
Always use the Non-Reimbursable Foods Form to record non-reimbursable items that are prepared from recipes or removed from their original packaging before being sold. Some examples include baked goods, smoothies, and cheese & cracker plates assembled by foodservice personnel. These items often cannot be returned to inventory. For these items, you should provide daily sales total information on the Non-Reimbursable Foods Form.

Also use this form to record prepackaged foods if you can provide daily counts of items sold. Examples of these foods include granola bars, bottled drinks, and individually packaged yogurt. These items can be returned to inventory if they are not sold on the day they are offered.

You may provide the weekly sales total information only if you cannot provide the count of items sold for each individual day of the week. You will indicate this by checking off the “weekly” box to show that you can only report weekly totals for that food.

**Non-Reimbursable Foods Inventory**

The Non-Reimbursable Foods Inventory will be used to record inventory information for prepackaged foods that are served a la carte in the cafeteria or in other venues that are supplied or stocked by foodservice, but are not available as part of a reimbursable meal or reimbursable snack. Use this form only if you do not have the daily count of units sold for a food item. Only commercially manufactured non-reimbursable items that are sold in their original packaging will be recorded on this form. All other non-reimbursable items should be recorded on the Non-Reimbursable Foods Form (see previous item).

**Daily Reminder List**

In each of the Monday through Friday folders we have also included the Daily Reminder List (gold paper). This list provides tips for getting organized before the target week and a summary of day-to-day activities for the target week. We suggest that you also store or post this list in a convenient location so you can refer to it during the target week.

**School Nutrition Manager Survey**

We have included a survey that asks about school’s foodservice operations and your experiences implementing the new meals requirements. Please complete the survey during your target week. You can choose to complete it on any day you would like.

**The Rest of This Manual**

The rest of this manual includes step-by-step instructions for completing each of the Menu Survey forms. For each form, a completed “SAMPLE” is provided. Please take the time to review the instructions and all of the sample completed forms before beginning the Menu Survey.

**If You Need Assistance**

We will be calling you before the start of the target week and again during the target week to answer any questions you may have. If you have questions or need assistance
at any other time before, during, or after the target week, feel free to call our technical assistance line at 1-844-604-2775. Thank you for your assistance with this important study!
General Guidelines for Completing the Menu Survey

Getting Started

Please read this manual carefully. Be sure to review the sample completed forms that are provided. Also, pay special attention to the Daily Reminder List. Keep this guide handy during the target week and refer to it as you complete the survey forms.

Off-Site Kitchens

If your school receives prepared meals or any components of reimbursable meals from another school, a central kitchen or commissary, or an outside vendor during the target week, we ask that you obtain food descriptions, product information, and recipes for these foods, as needed. You may wish to discuss strategies for this task with your school food authority (SFA) director.

Filling Out Forms

✓ Use pencil on all forms.
✓ Write clearly and legibly (especially when recording numbers).
✓ Write the name of your school and the date (if applicable) at the top of each form.
✓ Double-check your work and review the Daily Reminder List at the end of each day to be sure you have provided all the necessary information.

At the End of the Week

When you have completed all forms included in the Menu Survey, please double-check your work to make sure you have provided all the necessary information. Please place the completed forms in the empty plastic envelope at the back of the Menu Survey Folder. Remember to also include your completed School Nutrition Manager Survey. Return all completed survey materials to Mathematica in the pre-addressed envelope provided.
Instructions for Completing the Reimbursable Foods Forms

Purpose: To describe foods and beverages that are offered as part of USDA reimbursable lunches and breakfasts during the target week, and to provide information on the number of portions of each item prepared and served in reimbursable meals.

Location: The Reimbursable Foods Forms are located in the five colored folders labeled Monday-Friday, in the Menu Survey Folder. Separate forms are provided for breakfast (yellow) and lunch (white).

Notes:

- If your school offers reimbursable fruits and vegetables through the Fresh Fruit and Vegetable Program during the target week, do NOT include these fruits and vegetables on the Reimbursable Foods Form.

- If your school offers meals to pre-kindergarten students, do NOT include these foods on the Reimbursable Foods Form.

- Be sure to look at the sample completed Reimbursable Foods Forms that are provided. Looking at the sample forms as you read the instructions will make it easier to understand what you need to do when filling out the forms.

How to Complete the Reimbursable Foods Form

Reimbursable Meal Counts

On the top right-hand corner of the form, you will see the Reimbursable Meal Counts box. The questions in this box ask about the number of reimbursable meals (breakfast or lunch) you planned to serve for the day and the number of reimbursable meals that you actually served that day. Record the answers to both questions in the spaces provided. Your production records may include this information. If not, you may need to talk to your SFA director to obtain it.

Column A: Food Item

You will use this column to identify foods and beverages offered in reimbursable meals each day. Most foods are already listed for you. Others you will need to write in. In thinking about all the foods offered in your cafeteria each day and deciding which ones to include on this form, keep the following in mind:
DO INCLUDE:

- All foods and beverages offered in reimbursable meals (even if they may not count toward USDA meal pattern requirements).
- All condiments, salad dressings, optional toppings, desserts, and snack items.

DO NOT INCLUDE:

- Foods and beverages that are offered only a la carte or only to adults.
- Foods and beverages that are offered and served to pre-kindergarten students.
- Foods and beverages that were planned for a given day, but not actually prepared or served at your school because a substitution was made.

When foods are paired or offered together:

When a condiment/topping, bread/grain item or meat/meat alternate is paired with, or offered only with another menu item, add a note in Column A to make this clear.

Examples:

- For barbeque sauce that is offered only with chicken nuggets, add a note…
  Barbeque sauce w/ chicken nuggets
- For crackers that are offered only with a Chef’s salad, add a note…
  Crackers w/ Chef’s salad
- For toast that is offered only with cereal, add a note…
  Toast w/ cereal
- For a cheese stick that is offered only with a peanut butter sandwich, add a note…
  Cheese stick w/ peanut butter sandwich

When writing in foods that are not already listed on the form:

- Record foods in their appropriate food group sections whenever possible. Blank lines are provided at the end of each section for your entries. A generous amount of additional space is provided at the end of the form for recording items that do not fit in the individual food group sections (for example, not enough blank lines for additional fruits), as well as items that belong in a food group that is not listed on the form.

- Salad bars, condiment bars, and other food bars, whether self-serve or made-to-order, should be listed as single menu items. Salad bars (both side salad bars and entrée salad bars) and other common theme bars are prelisted. Use separate lines for any self-serve bars that are not prelisted.

- If your school offers bag or box meals or fully preplated meals, write each type of meal on a separate line. Complete a Recipe Form for each type of meal to identify all of the foods and beverages included in the meal.
• If foods are offered with optional components or ingredients, use separate lines to list each component and make it clear that the main food and optional components/ingredients go together, as shown below.

Example:
- For a baked potato offered with optional toppings of cheese sauce and/or broccoli, use separate lines for…
  
  Baked potato
  Cheese sauce, canned, low-fat
  Broccoli, frozen, chopped

Column B: Portion Size

For each item offered in reimbursable meals, write the size of one individual serving, as offered to students.

• Include both the amount, if not already printed on the form, and the unit of measure. For example:

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Amount</th>
<th>Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Broccoli</td>
<td>¾ cup</td>
<td></td>
</tr>
<tr>
<td>Chicken patty</td>
<td>2.5 oz.</td>
<td></td>
</tr>
<tr>
<td>Tossed salad</td>
<td>½ cup</td>
<td></td>
</tr>
</tbody>
</table>

You may change the printed unit for any food if your school serves the item in a different unit of measure.

• Include the weight (oz.) of one portion whenever available, especially for commercially prepared foods, such as burritos, chicken or fish nuggets, pizza, doughnuts, or cookies.

• For foods that are offered self-serve, write “self-serve” as the portion size.

• If your school offers different portion sizes of the same food, for example to students in different age-grade groups, you will need to list the food twice (on two separate lines) and write in the different portion sizes.

Example:
If your school serves two age-grade groups (grades 6-8 and 9-12), there may be different portion sizes for canned peaches. You would indicate this by listing the food twice as shown below.
### Column C: Number of Portions

#### Total Portions Prepared

For each menu item, enter the total number of portions prepared. Include portions that are prepared for reimbursable meals at your school as well as portions that are prepared to be sent off-site, served a la carte and to adults or others. For pre-packaged foods and beverages, the total number of portions prepared refers to the number of individual packages that are put out in the serving area. For example for cartons of juice, write the number of cartons that are placed on the serving line before and throughout the meal period.

#### Portions Sent Off-Site

If your school prepares food to be served at other schools or facilities, enter the total number of portions for each item that is sent off-site. Include portions sent off-site on the day they are sent – it doesn’t matter if they will be served on the same day or another day. If your school does not prepare food to be served at other schools or facilities, you do not need to complete this column.

#### Reimbursable Portions Served

For each menu item, enter the number of reimbursable portions served to students at your school (excluding portions sold a la carte or to adults/others). Your production records may include this information; if not, you may need to talk to your SFA director about putting a procedure in place to record it for the target week. If a menu item is prepared and available to students but none are served in reimbursable meals, be sure to enter a zero in Column C.

#### Portions Served A La Carte or to Adults/Others

Also for each menu item, enter the number of portions that are served a la carte, to adults, or to others who are not receiving meals through the NSLP or SBP. If no portions are served a la carte or to adults, enter zero in this column.

#### Portions Left Over for Later Use

At the end of each meal, enter the number of portions that were not served on this day, but were leftover and may be served on a different day. For instance, this may include

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Portion Size (Include Units)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Canned peaches</td>
<td>½ cup</td>
</tr>
<tr>
<td>Canned peaches</td>
<td>1 cup</td>
</tr>
</tbody>
</table>
cartons of milk or juice to be used on the following day. Do not include leftover portions that are thrown away. If no portions are left over and saved for later use, enter zero in this column.

**Portions Wasted**

Also enter the number of portions that were not served and must be thrown out because they cannot be used on a different day. For instance, this may include food prepared in a large dish, such as macaroni and cheese. If no portions are wasted, enter zero in this column.

**Example:**

Note that for each of the following menu items, the number of portions entered in the last five sub-columns (Sent Off-Site, Reimbursable Served, Served a La Carte or to Adults/Others, Left Over, and Wasted) add up to the total number of portions prepared (Total Prepared).

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Portion Size (Include Units)</th>
<th>Number of Portions</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Total Prepared</td>
<td>Sent Offsite</td>
</tr>
<tr>
<td>Orange juice</td>
<td>8 fl oz</td>
<td>140</td>
</tr>
</tbody>
</table>
| Macaroni and cheese        | 1 cup           | 160          | 20                  | 110                                     | 14                      | 0       | 16

**Column D: Meal Pattern Contributions**

Fill in these columns with the contribution each menu item makes to the USDA meal pattern food groups (“creditable amounts”). This information may be included in your production records; if not, you may need to talk to your SFA director to obtain it. You may be able to find meal pattern contributions in the *Food Buying Guide for Child Nutrition Programs*, *USDA Foods Fact Sheets* or, for commercially prepared foods, on CN labels.

- For each menu item, enter the creditable amount of each meal pattern food group contributed by one portion in cups or oz equivalents. In some cases the meal pattern contribution will be the same as the portion size (recorded in Column B), but this will not be true for all menu items or menu items that contribute to more than one meal pattern food group.
- You do not need to list the meal pattern contribution for milks or other food items where the column is shaded in gray.
- Note that many menu items will contribute to only one meal pattern food group and few, if any, menu items will contribute to all meal pattern food groups.
• If a menu item contributes to more than one meal pattern food group or vegetable subgroup, be sure to enter the amount contributed to all applicable meal pattern food groups in Column D.

• When a menu item contains grains, enter the oz equivalent that it contributes in the “Grains” column. Check the box in the “Whole Grain-Rich” column if the menu item meets the whole grain-rich criteria (listed on page 13 of this document).

**Example:**
If your school offers a 2 cup portion of a chicken, broccoli and brown rice bowl, you would list the contribution that one portion makes to the applicable meal pattern food groups in Column D: 1/2 cup equivalent of dark green vegetables, 2 oz equivalents of meat/meat alternates, 1.5 oz equivalents of grains; and check the box for whole grain-rich.

<table>
<thead>
<tr>
<th>A.</th>
<th>B.</th>
<th>C.</th>
<th>D.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>Number of Portions</td>
<td>Meal Pattern Contributions</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Fruit (cups)</td>
</tr>
<tr>
<td>Food Item</td>
<td>Portion Size (Include Units)</td>
<td>...</td>
<td>1/2</td>
</tr>
<tr>
<td>Chicken, broccoli and brown rice bowl</td>
<td>2 cups</td>
<td>...</td>
<td>1/2</td>
</tr>
</tbody>
</table>

• Note that some fruits and vegetables do not credit on a volume as served basis (for example, 1 cup of a food item does not always credit as 1 cup). Below are some examples:

  ✓ Dried fruit: credits as twice the volume as served, so 1/2 cup would credit as 1 cup of fruit
  ✓ Raw leafy greens: credits as half the volume as served, so 2 cups would credit as 1 cup of vegetable (dark green or other vegetables depending on the type of leafy green)
  ✓ Tomato paste: refer to manufacturing information or ask your SFA director for crediting information

• We have added shading to Column D to indicate the meal pattern food groups that are not usually applicable to menu items within a given food group section. If you write in a menu item that is not already listed on the form, be sure to enter the contribution amount(s) to the appropriate meal pattern food group(s) in Column D.
For self-serve or made-to-order bars:

- List the meal pattern contribution for “1 serving” from the bar. This information may be included in your production records; if not, you may need to talk to your SFA director to obtain it.

**Example:**
If you offer a side salad bar, you would enter the amount that one serving contributes to the meal pattern food groups. The side salad bar shown in the example below provides ½ cup equivalent of dark green vegetables, ¼ cup equivalent of red/orange vegetables, and ¼ cup equivalent of other vegetables. The creditable amounts are listed under the appropriate vegetable subgroup columns (in Column D).

<table>
<thead>
<tr>
<th>A.</th>
<th>B.</th>
<th>C.</th>
<th>D.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Food Item</td>
<td>Portion Size (Include Units)</td>
<td>Number of Portions</td>
<td>Meal Pattern Contributions</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Vegetables (cups)</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Dark Green</td>
</tr>
<tr>
<td>Side salad bar (non-entrée or small portion)</td>
<td>1 serving</td>
<td>...</td>
<td>1/2</td>
</tr>
</tbody>
</table>

For vegetables offered at breakfast:

- There are currently no requirements for vegetable subgroups at breakfast. However, if your school does offer vegetables as a separate menu item or as part of a combination item at breakfast, be sure to record the meal pattern food group amount in the vegetable column (in Column D).

**Example:**
If your school offers 1/2 cup of hash browns at breakfast, you would enter 1/2 cup under the vegetables column (in Column D).

<table>
<thead>
<tr>
<th>A.</th>
<th>B.</th>
<th>C.</th>
<th>D.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Food Item</td>
<td>Portion Size (Include Units)</td>
<td>Number of Portions</td>
<td>Meal Pattern Contributions</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Fruit (cups)</td>
</tr>
<tr>
<td>Hash brown</td>
<td>1/2 cup</td>
<td>...</td>
<td>1/2</td>
</tr>
</tbody>
</table>
Whole Grain-Rich Foods

Whole grain-rich foods must meet at least one of the following criteria:

- Whole grains per serving must be ≥ 8 grams,
- Product includes FDA’s whole grain health claim on its packaging, or
- Product ingredient listing lists a whole grain first (HUSSC criteria).

Check the box in the “Whole Grain-Rich” column if the menu item meets the whole grain-rich criteria.

If you are unsure whether a menu item is Whole Grain-Rich, you can…

- Visit the following websites that describe the criteria for determining whether a menu item is whole grain-rich:
- Include a package label for the product with your completed forms at the end of the week.

Column E: Manufacturer/Brand Name and Product Code

This column is used to provide information on the manufacturer, brand name, and product code of certain foods listed in Column A. We have shaded this column for pre-listed foods that do not require manufacturer/brand name, or a product code.

- For all other commercially prepared food products you serve, including entrees, meat/meat alternates, and most bread/grain items (including biscuits, doughnuts, breakfast pastries, and pancakes), please fill in the manufacturer/brand and product code information in Column E.

- Please do your best to record whatever manufacturer and/or brand information is available (or at least how the food is described on the package label) for all required foods listed above. Always include a product code, if available. The product code is usually located on the label of the box in which commercially prepared food products are delivered. An example is shown below.
Below are additional examples of manufacturer and brand names, and products codes, for some foods.

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Manufacturer/Brand Name and Product Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pizza, pepperoni</td>
<td>Schwan’s/Tony’s 78546</td>
</tr>
<tr>
<td>Super Donut</td>
<td>Super Bakery 6001</td>
</tr>
<tr>
<td>Pancake-on-a-stick</td>
<td>State Fair 70481</td>
</tr>
</tbody>
</table>

If your school purchases commercially prepared food products, including ones that are lower in fat or sodium, you may wish to include package labels to tell us more about the products. This will help ensure that the nutrient analysis is accurate and reflects the types of foods used in your school meal program.

If you decide that you would like to give us package labels, you can put them in the envelope with the completed forms at the end of the week.

**Column F: Food Description**

This column is used to describe foods so that an accurate nutrient analysis can be done. For most of the pre-listed items, you will need to check a box or write in a response. For example, for some foods you will be asked to check whether a food is regular, low-fat or fat-free, or if it is breaded or has icing. For some foods you will be asked to specify the type or variety of the food, such as the type of bread (100% whole wheat, rye bread, etc.), or the flavor of milk or yogurt.

It is especially important to complete this column for commercially prepared products and items that you add to the form. Please provide as complete a description of the item as possible. Depending on the item, this may include information on:

- type: (100% whole wheat bread, rye bread, blueberry muffin, unbreaded chicken patty, low-sodium green beans)
- form: (fresh, frozen or canned vegetable or fruit)
- flavor: (Strawberry milk, oatmeal cookie, vanilla yogurt)
- fat content: (low-fat yogurt, reduced-fat sour cream, fat-free salad dressing)

**Column G: USDA Food?**

For food items in Column A that are donated USDA Foods, place a check mark in the box in Column G.

**Column H: Recipe?**

For foods in Column A that require a recipe, place a check mark in the appropriate box in Column H. Use these checkmarks to remind you to complete a Recipe Form or provide a printed recipe.
We have shaded this column for pre-listed foods that do not require recipes. If the column is not shaded, you may need a recipe, depending on the food. For example, for purchased pizza that is served as is, a recipe is not needed. For pizza that is prepared from scratch or is a modified version of a purchased product (for example, you added your own toppings), a recipe is needed.

Note: Recipes are needed for all items that are made by combining two or more foods or ingredients.
Instructions for Completing Recipe Forms

Purpose: To describe the types and amounts of ingredients used in preparing foods made from scratch or made by combining two or more foods or ingredients.

Location: A booklet of Recipe Forms (grey) is located behind the “Recipes” tab in the Menu Survey Folder. If you need more forms than are included in the booklet, make copies of the form and file the completed extra forms inside the Recipe Form booklet.

Notes:

- A Recipe Form is needed for every item that is prepared from scratch or prepared by combining two or more foods or ingredients. This includes all sandwiches and foods prepared or cooked with added butter, margarine, dressings, or other condiments.

- Some foods may need more than one Recipe Form. For example, for a tuna salad sandwich, you will need to use two Recipe Forms—one for the tuna salad mixture and one for the assembled tuna salad sandwich. The same is true for a brownie or cake with icing. See the sample completed Recipe Forms for an example of a situation where two Recipe Forms are needed.

- You may not have to fill out the Recipe Form if a printed copy of the recipe is available. See the special instructions later in this section.

- If the same recipe was prepared more than once during the target week, you only need to fill out a Recipe Form once and be sure to check the boxes at the top of the form to indicate which days of the week the recipe was served, unless the recipe is prepared differently on other days of the week. If variations of a recipe are used on different days, a separate Recipe Form is needed for each variation.

- Be sure to look at the sample completed Recipe Forms that are provided. Looking at these forms as you read the instructions will make it easier to understand what you need to do when filling out the form.
How to Complete the Recipe Form

Recipe/Food Name
Write the complete name of the recipe or food on the line provided in the upper right hand corner of the form. Please be sure that the name is clear enough that we will be able to match it up with the appropriate item on the Reimbursable Foods Form.

For recipes that are used in other recipe items, mention both recipes in the name. For example, “Tuna salad for tuna sandwich.”

Meal
Check the meal or meals in which the recipe/food item was offered.

Day
Check the day or days of the target week on which the recipe/food was offered. Check “all” if the item is offered every day.

Size of One Serving
Write the size of one individual serving, as offered to students. Include both the amount and unit of measure (Examples: 1/4 cup, 8 fluid ounces, 1 sandwich).

Number of Servings Prepared
Please record the total number of individual servings prepared (recipe yield) in the space provided. For some items, such as sandwiches, the Recipe Form describes the ingredients or components of a single serving (Examples: 1 sandwich, 1 Chef’s salad).

Column A: Ingredient Name
List all foods and ingredients used to prepare the recipe/food. Remember to include all items used in food preparation, including seasonings and salt, as well as oils, butter, margarine, and other fats used in cooking.

Column B: Amount in Recipe
For each item listed in Column A, write the amount used in Column B. Be sure to include information on both the amount and the unit of measure (Examples: 2 Tbsp, 6 oz, 5 cups, 7.5 gallons, 35 lbs)

Be sure to provide amount information on the form of the ingredient when it was measured. For example, was pasta or rice measured cooked or uncooked? Was meat measured raw or after cooking? Was the cheese sliced, cubed, shredded, or grated?

Column C: Manufacturer/Brand Name and Product Code
If the ingredient or food listed in Column A is a commercially prepared food, list the manufacturer and/or brand name as well as the product code.
Column D: Ingredient Description

For each item listed in Column A, use this column to provide details about the food or ingredient that will allow us to do an accurate nutrient analysis. Depending on the item, this may include information on:

- type (whole wheat flour, brown rice, ground turkey, low-sodium tomato sauce)
- form (fresh, frozen or canned vegetables, fruits, or meats)
- cooking status (cooked, uncooked, dry, raw)
- fat content (part-skim cheese, 1% fat milk, fat-free mayonnaise)
- whether whole grain-rich

See the sample completed forms for examples of ingredient descriptions.

Column E: USDA Food?

For ingredients in Column A that are donated USDA Foods, place a check mark in the box in Column E.

Column F: Recipe?

For ingredients in Column A that require a recipe, place a check mark in the appropriate box in Column F. Use these checkmarks to remind you to complete an additional Recipe Form.

Note: Recipes are needed for all items that are made by combining two or more foods or ingredients.

If You Can Provide a Printed Copy of the Recipe...

Be sure to:

- Staple or clip a copy of the printed recipe to a blank Recipe Form in the booklet, and indicate on the Recipe Form the meal and days the recipe was used.
- Mark the recipe, as needed, to show how the recipe was prepared in your school, and make sure the name of the recipe matches the name used on the Reimbursable Foods Form.

Make sure the recipe includes:

- Yield information: size of the serving and number of servings prepared.
- A complete description of all ingredients, including manufacturer and/or brand and product code for commercially prepared food products.
- An indication of any ingredients that are USDA Foods, for example, write “USDA” beside the ingredient name.
Instructions for Completing Self-Serve/Made-to-Order Bar Form

Purpose: To describe the ingredients included on self-serve bars such as salad bars, theme bars, and condiment bars, as well as made-to-order bars such as deli bars.

Location: A booklet of Self-Serve/Made-to-Order Bar Forms (lavender) is located behind the “Self-Serve Bars” tab in the Menu Survey Folder.

Notes:

- A separate Self-Serve/Made-to-Order Bar Forms must be completed for each type of self-serve bar or made-to-order bar offered. If the same bar was offered more than once during the target week, you only need to fill out one Self-Serve/Made-to-Order Bar Forms and indicate the days on which the bar was offered.

- Be sure to look at the sample completed Self-Serve/Made-to-Order Bar Forms that are provided. Looking at these forms as you read the instructions will make it easier to understand what you need to do when filling out the form.

How to Complete the Self-Serve/Made-to-Order Bar Forms

Name of Bar

Write the complete name of the self-serve/made-to-order bar on the line provided in the upper right hand corner of the form. Please be sure that the name is clear enough that we will be able to match it up with the same item on the Reimbursable Foods Form.

Meal

Check the meal or meals in which the bar was offered during the target week.

Day

Check the day or days of the target week on which the bar was offered. Check “all” if the bar (with all the same ingredients) is offered every day.

Column A: Food Name

List all foods and ingredients offered on the bar. If you need additional lines, write the name of the bar and “continued” on a blank Self-Serve/Made-to-Order Bar Forms and list remaining foods/ingredients.
Column B: Portion Size (if pre-portioned)

For pre-portioned items only, describe the size of one portion. This includes items such as baked potatoes, tortillas, packaged crackers, boxes of raisins, or packages of sunflower seeds. It also includes items that might be portioned out by cafeteria servers, such as pasta on a pasta bar, cold cuts on a deli bar, or meat and cheese items on a salad bar.

Be sure to include information on both the amount and the unit of measure. See the sample completed Self-Serve/Made-to-Order Bar Forms for examples.

Column C: Manufacturer/Brand Name and Product

For commercially prepared food products, please record the manufacturer and/or brand name and a product code in Column C.

Column D: Food Description

For each item listed in Column A, use this column to provide details about the food or ingredient that will allow us to do an accurate nutrient analysis. Depending on the item, this may include information on:

- type (100% whole grain bread, rye bread, graham cracker, cheddar cheese, low-sodium green beans, deli turkey)
- form (fresh, frozen or canned vegetables or fruit)
- cooking status (cooked, uncooked, dry, raw)
- fat content (low-fat yogurt, reduced-fat sour cream, fat-free salad dressing)
- whether whole grain-rich

See the sample completed forms for examples of ingredient descriptions.

Column E: USDA Food?

For foods in Column A that are donated USDA Foods, place a check mark in the box in Column E.

Column F: Recipe?

For foods in Column A that require a recipe, place a check mark in the appropriate box in Column F. Use these checkmarks to remind you to complete a Recipe Form.

Note: Recipes are needed for all items that are made by combining two or more foods or ingredients.
Instructions for Completing the A La Carte Foods Checklist

Purpose: To identify foods and beverages your school offers on an a la carte basis at lunch and breakfast.

Location: The A La Carte Foods Checklist (pink paper) is located behind the “A La Carte” tab in the Menu Survey Folder.

Notes:

- Complete the A La Carte Foods Checklist on the one day specified on the front of the Menu Survey Folder. Be sure to complete the checklist even if your school does not offer items on an a la carte basis, or if you sell only milk.

- Be sure to look at the sample completed A La Carte Foods Checklist that is provided.

How to Complete the A La Carte Foods Checklist

1. Write the name of your school and the date on the first page of the form.

2. Answer Question 1. If your school does not offer any foods or beverages on an a la carte basis, check “No.” You are done. If you check “Yes,” please answer Questions 2 through 4 and go on to the next page.

3. Place a check mark in the box next to each food and beverage that was available for a la carte purchase on the specified day. This includes items that are sold only a la carte as well as components of a reimbursable meal that may be purchased a la carte. There are separate check boxes for lunch and breakfast.

4. If a food or beverage is usually or sometimes available a la carte, but was not available on the specified day, do not check the box.

5. If your school had a la carte foods or beverages available on your specified day that are not included in the checklist, please write in the names of these foods and beverages under the appropriate category. Extra lines are available on the last page of the checklist, if necessary. Be sure to indicate whether each food or beverage was offered at breakfast and/or lunch.
Instructions for Completing the NSLP Afterschool Snack Form

Purpose: To describe the foods and beverages offered in NSLP reimbursable afterschool snacks during the target week, and to provide information on the number of individual snack items prepared and served, as well as the total number of reimbursable snacks served to students.

Location: A booklet of NSLP Afterschool Snack Forms (green paper) is behind the “NSLP Afterschool Snacks” tab in the Menu Survey Folder.

Notes:

- Only include afterschool snacks offered through the National School Lunch Program (NSLP). If your school offers snacks and/or suppers through the Child and Adult Care Food Program (CACFP), you will complete the CACFP Afterschool Snack and Supper Forms.

- If your school offers reimbursable fruits and vegetables through the Fresh Fruit and Vegetable Program during the target week, do NOT include these fruits and vegetables on the NSLP Afterschool Snack Forms.

- Be sure to look at the sample completed NSLP Afterschool Snack Form that is provided. Looking at this sample as you read the instructions will make it easier to understand what you need to do when filling out the form.

How to Complete the NSLP Afterschool Snack Form

On the front page of this booklet answer question 1 by indicating the days during the target week that NSLP afterschool snacks were offered. Complete one NSLP Afterschool Snack Form for each day snacks were offered.

This form is similar to the Reimbursable Foods Form. It includes columns for the food item, portion sizes, the number of portions prepared and served, and the food descriptions needed for an accurate nutrient analysis. You will also check if any item was a USDA Food or prepared from a recipe. Depending on how your afterschool program operates, you may need assistance from afterschool program staff to complete the columns for number of portions served.

Day

Check the day of the target week for which this form is being completed.

Number of Reimbursable Snacks Served Onsite

At the top of the form record the total number of reimbursable snacks served to students at your school that day.
Column A: Food Item

You will use this column to identify foods and beverages offered in reimbursable snacks each day. Some foods are already listed for you. Others you will need to write in. In thinking about all the foods offered in your snacks each day and deciding which to include on this form, keep the following in mind:

DO INCLUDE:

- All foods and beverages offered in NSLP reimbursable snacks (even if they may not count toward USDA meal pattern requirements).

DO NOT INCLUDE:

- Foods and beverages that are offered only to adults.
- Foods and beverages that were planned for a given day, but not actually prepared/available that day.

When writing in foods that are not already listed on the form:

- Record foods in appropriate food group sections. Blank lines are provided at the end of each section for your entries.

Column B: Portion Size

For each item offered in NSLP afterschool snacks, write the size of one individual serving, as offered to students. If the snack item is pre-packaged, list the actual package size or weight, not “1 package.”

- Include both the amount and the unit of measure:

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Amount</th>
<th>Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Banana, fresh</td>
<td>1</td>
<td>Medium</td>
</tr>
<tr>
<td>Orange juice</td>
<td>6</td>
<td>fl. oz</td>
</tr>
<tr>
<td>Granola bar</td>
<td>1</td>
<td>oz.</td>
</tr>
</tbody>
</table>

- If a food or beverage is offered in more than one portion size (for different age-grade groups), list the food or beverage on separate lines and write in the different portion sizes.
Example:

<table>
<thead>
<tr>
<th>A.</th>
<th>B.</th>
<th>C.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Food Item</td>
<td>Portion Size (Include Units)</td>
<td>Number of Portions</td>
</tr>
<tr>
<td></td>
<td>Sent Off-Site</td>
<td>Reimbursable Prepared/Available</td>
</tr>
<tr>
<td>Orange juice</td>
<td>6 fl.oz.</td>
<td>0</td>
</tr>
<tr>
<td>Orange juice</td>
<td>8 fl.oz.</td>
<td>0</td>
</tr>
</tbody>
</table>

**Column C: Number of Portions**

**Sent Off-Site**

For each snack item offered, enter the total number of portions, if any, that are sent off-site to be served at other schools or facilities.

**Number of Reimbursable Portions Prepared/Available**

For each snack item, write in the number of reimbursable portions prepared or available to be served at your school. The number of reimbursable portions prepared/available should reflect the actual number of servings available for students to select as part of a reimbursable snack.

**Number of Reimbursable Portions Served**

Also for each snack item, enter the number of reimbursable portions or individual items served to (or selected by) students as part of a reimbursable snack, excluding portions served to adults. If a menu item is prepared and available to students but no portions are served, be sure to enter a zero in this column.

You may need to ask the afterschool program staff for this information. You can also give the afterschool program staff a copy of the NSLP Afterschool Snack Form and ask them to complete this column.

**Column D: Manufacturer/Brand Name and Product Code**

This column is used to provide information on the manufacturer, brand name, and product code of certain foods listed in Column A. We have shaded this column for pre-listed foods that do not require manufacturer/brand name, or a product code. For all other commercially prepared food products you serve, please fill in the manufacturer/brand and product code information in Column D.
Column E: Food Description

This column is used to describe foods so that an accurate nutrient analysis can be done. For most of the pre-listed items, you will need to check a box or write in a response. For example, for some foods you will be asked to check whether a food is regular, low-fat or fat-free, or if it is whole grain-rich or reduced-fat. For some foods you will be asked to specify the type or variety of the food, such as the type of crackers (graham, wheat, saltines, etc.), or the flavor of milk or yogurt.

It is especially important to complete this column for commercially prepared products and items that you add to the form. Please provide as complete a description of the item as possible. Depending on the item, this may include information on:

- type (1% milk; 100% whole wheat bread; blueberry muffin)
- form (fresh, frozen or canned vegetable or fruit)
- flavor (chocolate milk, strawberry yogurt)
- fat content (low-fat yogurt, or fat-free salad dressing)

Column F: USDA Food?

For food items in Column A that are donated USDA Foods, place a check mark in the box in Column F.

Column G: Recipe?

For foods in Column A that require a recipe, place a check mark in the appropriate box in Column G. Use these checkmarks to remind you to complete a Recipe Form or provide a printed recipe.

We have shaded this column for pre-listed foods that do not require recipes. If the column is not shaded, you may need a recipe, depending on the food. For example, for purchased pizza that is served as is, a recipe is not needed. For pizza that is prepared from scratch or is a modified version of a purchased product (for example, you added your own toppings), a recipe is needed.

Note: Recipes are needed for all items that are made by combining two or more foods or ingredients.
Instructions for Completing the CACFP Afterschool Snack and Supper Form

Purpose: To describe the foods and beverages offered in CACFP reimbursable afterschool snacks and suppers during the target week, and to provide information on the number of individual snack/supper items prepared and served, as well as the total number of reimbursable snacks/suppers served to students.

Location: A booklet of CACFP Afterschool Snack and Supper Forms (green paper) is behind the “CACFP Afterschool Snacks/Suppers” tab in the Menu Survey Folder.

Notes:

- Only include afterschool snacks and suppers offered through the Child and Adult Care Food Program (CACFP). If your school offers snacks through the National School Lunch Program (NSLP), you will complete the NSLP Afterschool Snack Form.

- If your school offers reimbursable fruits and vegetables through the Fresh Fruit and Vegetable Program during the target week, do NOT include these fruits and vegetables on the CACFP Afterschool Snack and Supper Form.

- Be sure to look at the sample completed CACFP Afterschool Snack and Supper Form that is provided. Looking at this sample as you read the instructions will make it easier to understand what you need to do when filling out the form.

How to Complete the CACFP Afterschool Snack and Supper Form

On the front page of this booklet answer question 1 by indicating the days during the target week that CACFP afterschool snacks and/or suppers were offered. Complete one CACFP Afterschool Snack and Supper Form for each day snacks and/or suppers were offered.

This form is similar to the Reimbursable Foods Form. It includes columns for the food item, portion sizes, the number of portions prepared and served, and the food descriptions needed for an accurate nutrient analysis. You will also check if any item was a USDA Food or prepared from a recipe. Depending on how your afterschool program operates, you may need assistance from afterschool program staff to complete the columns for number of portions served.

Day

Check the day of the target week for which this form is being completed.
Number of Reimbursable Snacks and/or Suppers Served Onsite

At the top of the form record the total number of CACFP reimbursable snacks and/or suppers served to students at your school that day.

Column A: Food Item

You will use this column to identify foods and beverages offered in CACFP snacks and/or suppers each day. Some foods are already listed for you. Others you will need to write in. In thinking about all the foods offered in your snacks each day and deciding which to include on this form, keep the following in mind:

DO INCLUDE:

- All foods and beverages offered in CACFP reimbursable snacks and/or suppers (even if they may not count toward USDA meal pattern requirements).

DO NOT INCLUDE:

- Foods and beverages that are offered only to adults.
- Foods and beverages that were planned for a given day, but not actually prepared/available that day.

When writing in foods that are not already listed on the form:

- Record foods in their appropriate food group sections whenever possible. Blank lines are provided at the end of each section for your entries. A generous amount of additional space is provided at the end of the form for recording items that do not fit in the individual food group sections (for example, not enough blank lines for additional fruits), as well as items that belong in a food group that is not listed on the form.

Column B: Portion Size

For each item offered in CACFP afterschool snacks or suppers, write the size of one individual serving, as offered to students. If the snack/supper item is pre-packaged, list the actual package size or weight, not “1 package.”

- Include both the amount and the unit of measure:

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Amount</th>
<th>Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Banana, fresh</td>
<td>1</td>
<td>Medium</td>
</tr>
<tr>
<td>Orange juice</td>
<td>6</td>
<td>fl. Oz</td>
</tr>
<tr>
<td>Granola bar</td>
<td>1</td>
<td>oz.</td>
</tr>
</tbody>
</table>

- If a food or beverage is offered in more than one portion size (for different age-grade groups), list the food or beverage on separate lines and write in the different portion sizes.
**Example:**

<table>
<thead>
<tr>
<th>Food Item</th>
<th>Portion Size <em>(Include Units)</em></th>
<th>Number of Portions</th>
<th>Onsite</th>
<th>Reimbursable Prepared/Available</th>
<th>Reimbursable Served</th>
</tr>
</thead>
<tbody>
<tr>
<td>Orange juice</td>
<td>6 fl.oz</td>
<td>0</td>
<td>50</td>
<td>25</td>
<td></td>
</tr>
<tr>
<td>Orange juice</td>
<td>8 fl.oz</td>
<td>0</td>
<td>50</td>
<td>50</td>
<td></td>
</tr>
</tbody>
</table>

**Column C: Number of Portions**

**Sent Off-Site**

For each snack/supper item offered, enter the total number of portions, if any, that are *sent off-site* to be served at other schools or facilities.

**Number of Reimbursable Portions Prepared/Available**

For each snack/supper item offered, write in the number of reimbursable portions *prepared or available*. The number of reimbursable portions prepared should reflect the actual number of servings available for students *at your school* to select as part of a CACFP snack or supper. If an item is prepared/available for both a snack and supper, write the combined total.

**Number of Reimbursable Portions Served**

Also for each snack item, enter the number of reimbursable portions or individual items *served* to (or selected by) students as part of a CACFP snack or supper, excluding portions served to adults. If a menu item is prepared and available to students but no portions are served, be sure to enter a zero in this column. If an item is served during both a snack and supper, write the combined total.

You may need to ask the afterschool program staff for this information. You can also give the afterschool program staff a copy of the CACFP Afterschool Snack and Supper Form and ask them to complete this column.

**Column D: Manufacturer/Brand Name and Product Code**

This column is used to provide information on the manufacturer, brand name, and product code of certain foods listed in Column A. We have shaded this column for pre-listed foods that do not require manufacturer/brand name, or a product code. For all other commercially prepared food products you serve, please fill in the manufacturer/brand and product code information in Column D.
Column F: Food Description

This column is used to describe foods so that an accurate nutrient analysis can be done. For most of the pre-listed items, you will need to check a box or write in a response. For example, for some foods you will be asked to check whether a food is regular, low-fat or fat-free, or if it is whole grain-rich or reduced-fat. For some foods you will be asked to specify the type or variety of the food, such as the type of crackers (graham, wheat, saltines, etc.), or the flavor of milk or yogurt.

It is especially important to complete this column for commercially prepared products and items that you add to the form. Please provide as complete a description of the item as possible. Depending on the item, this may include information on:

- type (1% milk; **100% whole wheat** bread; **blueberry** muffin)
- form (**fresh**, **frozen** or **canned** vegetable or fruit)
- flavor (**chocolate** milk, **strawberry** yogurt)
- fat content (**low-fat** yogurt, or **fat-free** salad dressing)

Column G: USDA Food?

For food items in Column A that are donated USDA Foods, place a check mark in the box in Column G.

Column G: Recipe?

For foods in Column A that require a recipe, place a check mark in the appropriate box in Column G. Use these checkmarks to remind you to complete a Recipe Form or provide a printed recipe.

We have shaded this column for pre-listed foods that do not require recipes. If the column is not shaded, you may need a recipe, depending on the food. For example, for purchased pizza that is served as is, a recipe is not needed. For pizza that is prepared from scratch or is a modified version of a purchased product (for example, you added your own toppings), a recipe is needed.

**Note:** Recipes are needed for all items that are made by combining two or more foods or ingredients.
Instructions for Completing the Non-Reimbursable Foods Form

Purpose: To describe non-reimbursable foods and beverages and to provide information on the number of portions of each item sold during the target week. Keep this goal in mind as you determine how to use your existing records and collect information needed to fill out the form.

Notes:

- You will use one Non-Reimbursable Foods Form for the whole week.
- Only include non-reimbursable foods from venues that are supplied or stocked by foodservice.

The Non-Reimbursable Food Form should include the following:

- Include foods sold a la carte in the cafeteria but **NOT** offered as part of a reimbursable meal or reimbursable snack **AND** include foods sold in other venues that offer non-reimbursable foods only. Some examples of other venues are vending machines, snack bars, school stores, and food carts.
- All non-reimbursable foods that are prepared from recipes (for example, baked goods, sandwiches, or smoothies).
- Non-reimbursable foods that are removed from their original packaging before being sold (for instance, a frozen pizza that is removed from the box and heated before it is sold), or cookies that are packaged by the dozen and sold individually; and,
- Commercially prepared non-reimbursable items that are sold in their original packaging, such as chips and bottled drinks, if you are able to provide the daily or weekly sales totals for these items.
- **Be sure to look at the sample completed Non-Reimbursable Foods Form that is provided.** Looking at this sample as you read the instructions will make it easier to understand what you need to do when filling out the form.

How to Complete the Non-Reimbursable Foods Form

Use this form to record the number of non-reimbursable food items sold on a daily or weekly basis. You may use your daily or weekly sales report, if available, to help you fill out this form.

The information collected on this form includes:
Meal

At the top of the form, check the appropriate box or boxes to indicate whether the non-reimbursable foods were offered during breakfast, lunch, and/or outside of meal periods. Foods may be offered outside of meal periods, just one time, or throughout the day.

Where Offered

Non-reimbursable foods may be sold on cafeteria serving lines or in other venues, such as vending machines, snack bars, school stores, or food carts or at another school or facility off-site. Indicate the venues where the non-reimbursable food items listed on this form are offered, checking all boxes that apply. If your school sells non-reimbursable foods in a venue that is not listed, check “Other,” and write in the name of the venue.

Column A: Food Name

Use this column to list all non-reimbursable items for which you are able to provide a daily sales total. These foods can either be prepackaged or prepared by foodservice. Include foods sold in the cafeteria but NOT offered as part of a reimbursable meal or reimbursable snack AND include foods sold in other venues that offer non-reimbursable foods only.

This form does NOT include non-reimbursable foods sold in venues that are not supplied or stocked by foodservice.

Column B: Portion Size

For each non-reimbursable item, write the size of one individual serving, as offered. Include both the amount and the unit of measure.

- For items prepared from recipes, write the size of one individual serving (“1/2 cup” vanilla pudding) or simply the number of items offered (“1 sandwich,” “2 pieces,” or “1 each”).
- For items that are packaged in bulk quantities, record the weight (oz.) of one serving from the package, Child Nutrition (CN), or Nutrition Facts label.
- If any items were packaged as individual portions, record the actual package size or weight, not “1 package.”
- If a food or beverage item is offered in more than one portion size, you will need to list the food twice (on separate lines) and write in both portion sizes for the item.
- If a food item is available in different flavors AND the brand and package sizes are the same, you can group the items and list them only once.
**Column C: Recipe**

If an item was prepared from a recipe, check the box in Column C. Use these checkmarks to remind you to complete a Recipe Form or provide a printed recipe. Remember that recipes are needed for all items that are made by combining two or more foods or ingredients.

**Column D: Manufacturer/Brand Name and Product Code**

For commercially prepared foods that are not prepared from a recipe, please record the manufacturer and/or brand name and a product code (if available) in Column D. Below are examples of manufacturer/brand names and products codes for some foods.

<table>
<thead>
<tr>
<th>Food Name</th>
<th>Manufacturer/Brand Name and Product Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pizza, pepperoni</td>
<td>Schwan's/Tony's 78546</td>
</tr>
<tr>
<td>Super Donut</td>
<td>Super Bakery 6001</td>
</tr>
<tr>
<td>Pancake-on-a-stick</td>
<td>State Fair 70481</td>
</tr>
</tbody>
</table>

**Column E: Food Description**

For each item listed in Column A, use this column to provide details about the type or variety of the food. Please provide as complete a description of the item as possible. Depending on the item, this may include information on:

- type such as **100% whole wheat** bread, **rye** bread, **blueberry** muffin, **un-breaded** chicken patty, **low-sodium** green beans
- form: such as **fresh**, **frozen** or **canned** vegetable or fruit
- flavor: for example **strawberry** milk, **oatmeal** cookie, **vanilla** yogurt; and
- fat content: such as **low-fat** yogurt, **reduced-fat** sour cream, **fat-free** salad dressing

If a food item is available in different flavors and the brand and package sizes are the same, group the items and list them only once with the food description “assorted flavors or types.” An example of this is Gatorade®, which comes in many flavors. You would record this by listing the name and portion size of the item, Gatorade®, 12oz, and “Assorted flavors” in Column E, for the Food Description.

**Column F: Number of Portions**

For each non-reimbursable food and beverage listed, record the **number** of portions sold each day of the target week. Use the **Sold Onsite** column to record this information for all items sold onsite during the target week.

For items that require some preparation (including items removed from their original packaging), also complete the **Sent off-site (if applicable)**, **Leftover for Later Use**, and

---

33
and *Wasted* columns. For foods sold in their original packaging, enter zeros for Sent off-site, Leftover for Later Use, and Wasted columns. Include counts from all venues operated or stocked by school foodservice in your school. Your production records may include this information; if not, you may need to talk to your SFA director about putting a procedure in place to record it for the target week.

**Sent Off-Site**

For any non-reimbursable item that is prepared from a recipe or removed from the original packaging, enter the total number of portions, if any, that are *sent off-site* to be sold at other schools or facilities. Include portions sent off-site on the day they are sent—it doesn’t matter if they will be sold on the same day or another day.

**Sold Onsite**

For all non-reimbursable items, enter the total number of portions *sold onsite*. If an item is offered but not sold, be sure to enter zero.

**Left Over for Later Use**

For any non-reimbursable item that is prepared from a recipe or removed from the original packaging, enter the number of non-reimbursable portions that were not sold, but were saved to be served on a different day. For instance, this may include cookies prepared from a recipe that are wrapped in plastic wrap and may be offered the following day.

**Wasted**

For any non-reimbursable item that is prepared from a recipe or removed from the original packaging, enter the number of non-reimbursable portions that were not sold and must be thrown out because they cannot be served on a different day. For instance, this may include frozen pizza that has already been removed from its package and heated.

*And remember, if there are no portions to enter in a column, enter zero.*

**Column G: Weekly Sales Total Only**

Use this checkbox to indicate if you are *only* able to provide a weekly sales total for the food item. This column will only appear if you indicated that you would only have weekly sales total information available for some items on the Non-Reimbursable Food Form.

Only use this checkbox for non-reimbursable food items that can be returned to inventory (pre-packaged, left in the original wrapper). If the item cannot be returned to inventory, please provide the daily sales total information. Enter the weekly sales total in the Friday column, and enter 0’s for the rest of the week. Only enter the number of portions sold and enter 0’s for sent off-site/leftover/wasted.
Instructions for Completing the Non-Reimbursable Foods Inventory

Purpose: To describe and record inventory information for pre-packaged foods for which you do not have the daily or weekly count of units sold for a food item. This form is used to record the weekly INVENTORY or quantity remaining, so each day you will count how many units of each item you have stocked, and on Friday, you will count how many units remain. Only commercially manufactured non-reimbursable items that are sold in their original packaging will be recorded on this form.

Notes:

- The goal of this form is to provide information about the weekly INVENTORY or quantity remaining, and should only be used if you do not have daily or weekly sales totals.

- Record any deliveries that occur throughout the week. You will use one Non-Reimbursable Foods Inventory for the whole week.

- Include foods sold in the cafeteria but NOT offered as part of a reimbursable meal or reimbursable snack AND include foods sold in other venues that offer non-reimbursable foods only.

- Only include foods sold in venues that are supplied or stocked by foodservice, and that are commercially prepared and sold in their original packaging.

- Be sure to inventory foods and beverages that are non-perishable, refrigerated, and frozen. Take into account all items in storage areas that are accessed during the week, plus items that are already out for sale. You do not need to count items in storage areas that are not accessed during the target week.

- Be sure to look at the sample completed Non-Reimbursable Foods Inventory that is provided. Looking at this sample as you read the instructions will make it easier to understand what you need to do when filling out the form.

How to Complete the Non-Reimbursable Foods Inventory

Meal

Check the appropriate box or boxes to indicate whether the non-reimbursable food or beverage was offered during breakfast, lunch, and/or outside of meal periods.
Delivery Day(s)

Check the boxes for all days when your school’s kitchen receives deliveries during the target week.

Where Offered

Non-reimbursable foods may be sold on cafeteria serving lines or in other venues, such as vending machines, snack bars, school stores, or food carts or at another school or facility (off-site). Indicate the venues where the non-reimbursable food items listed on this form are offered, checking all boxes that apply. If your school sells non-reimbursable foods in a venue that is not listed, check “Other,” and write in the name of the venue.

Column A: Food Name

Use this column to list commercially prepared non-reimbursable foods that are sold in their original packaging and that are supplied or stocked by foodservice. Include foods sold in the cafeteria but NOT offered as part of a reimbursable meal or reimbursable snack AND include foods sold in other venues that offer non-reimbursable foods only.

DO NOT INCLUDE:

- Non-reimbursable foods sold in venues that are not supplied or stocked by foodservice.
- Non-reimbursable items that are prepared from recipes or that are removed from their original packaging before being sold (for instance, a frozen pizza or burrito that is removed from the box and heated before it is sold). These items should only be recorded on the Non-Reimbursable Foods Form (see previous section).

If a food item is available in different flavors AND the brand and package sizes are the same, you can group the items and list them only once.

Example:
A 12 fl. oz. Tropicana 100% orange juice and 12 fl. oz. Tropicana 100% grapefruit juice can be listed together as “100% juice” in Column A.

Column B: Individual Package Size

For each food (including groups of foods) listed, write the size of the package, which represents one individual serving. The individual package size should include both the amount and the unit of measure (such as 12 ounces for a drink). If a food or beverage item is available in more than one size, you will need to list the food twice (on separate lines) and write in both package sizes for that item.
Column C: # Individual Packages in Bulk Case

Also for each food, write the number of individual packages received in a single bulk case.

Example:

On the form below, two types of 100% juice are grouped together and recorded on the same (first) line. However, items with different package sizes or different brands must be written on separate lines:

<table>
<thead>
<tr>
<th>A. Food Name</th>
<th>B. Individual Package Size</th>
<th>C. # Individual Packages in Bulk Case</th>
<th>D. Manufacturer/Brand Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>100% juice (orange, grapefruit)</td>
<td>12 fl. oz.</td>
<td>32</td>
<td>Tropicana</td>
</tr>
<tr>
<td>100% juice, orange</td>

</tbody>
</table>

Column D: Manufacturer/Brand Name

Please record the manufacturer and/or brand name, a product code (if available), and any other information from the package that might be helpful in identifying the item in Column D.

Column E: Starting Onsite Inventory

For each food, provide the starting inventory. Include the counts of items in the stock room, refrigerator, freezer, and other storage areas, plus the number of items already put out for sale. You do not need to count items in areas that are not accessed during the target week.

# Full Bulk Cases
Write the number of full bulk cases that are in the inventory of the venues selling non-reimbursable foods at the end of the day on Monday, after all of the foodservice venues have closed and after any deliveries in the afternoon.

# Additional Individual Packages
Write the number of additional individual packages on hand that do not make up a full bulk case. For example, there may be 8 48-carton bulk packages of orange juice, and 10 additional cartons left over from a bulk package that had already been opened.

Column F: Deliveries Received and Sent Off-Site

For each item or group of items, record the number of full bulk cases and/or fractions of
full cases (for example, 1/2 or 2 1/2 cases) that are received each day (Tuesday through Friday) of the target week and added to the amounts on hand that you recorded in Column E. If your school sends non-reimbursable items to another school or facility during the week, write in the number of bulk containers sent off-site in the columns provided.

Enter zeros on days when there are no deliveries or items sent off-site.

**Column G: Ending Onsite Inventory**

For each item or group of items, provide the ending inventory. Include the number of items in the stock room, refrigerator, freezer, and other storage areas, plus the number of items already put out for sale.

**# Full Bulk Cases**

Write the number of full bulk cases that remain in the foodservice inventory at the end of the week, after all deliveries and sales. Be sure to count all of the storage areas that were included in the count at the start of the week.

**# Additional Individual Packages**

Similarly, write the number of additional individual packages on hand at the end of the week.
Daily Meal Counts Form (Expanded)

From Screener:
1. Does your school participate in the School Breakfast Program (SBP)? [scrnr_Q1]
   □ Yes  0 □ No  ➔ SKIP OUT OF REIMBURSABLE BREAKFAST Qs.

3. Does your school sell food or beverages on an a la carte basis (including milk)? [scrnr_Q3]
   □ Yes  0 □ No

4. [Group 3 only] Does your foodservice department sell any foods or beverages solely on a non-reimbursable or a la carte basis? [scrnr_Q4]
   □ Yes  0 □ No

Coding note: If scrnr_Q3=0 AND scrnr_Q4=0, skip out of NRF Sales Q

School Name:_________________________  Date:_________________________

Instructions:
1. In the boxes for the Number of Reimbursable Lunches Served and Number of Reimbursable Breakfasts Served, please record the number of free, reduced-price, and full-price reimbursable meals served in your school each day of the target week. Do not include meals for which you do not claim reimbursement, for example, second lunches sold to students on an a la carte basis.

2. Check if the number of reimbursable meals was much higher or lower than usual. If so, describe the reasons for this difference in the space provided.

3. At the bottom of the page, please record the total value of your non-reimbursable food sales by venue, including all student, adult, and other sales in venues supplied or stocked by foodservice only, for each day of the target week. If you do not keep venue-specific records, you may simply enter the total sales into the last column.

## Non-Reimbursable Foods Inventory (Expanded)

### NOTES:
- For instructions on completing this form, please refer to the Instructions for the Menu Survey.
- Include ONLY non-reimbursable foods sold in venues supplied by foodservice that are commercially pre-packaged and served in their original packaging.
- Do NOT include foods listed on the Non-Reimbursable Foods Form.
- Be sure to inventory foods and beverages that are non-perishable, refrigerated, and frozen.

Includes the following instruments:

**CHECK WHEN COMPLETED**

- [ ] Staffing and Operations Interview
- [ ] Food Price and USDA Foods Checklist
  - [ ] Documentation Collected
    - Place documents in the same order as checklist
    - Check to ensure at least one document is included for each vendor on checklist
    - Using the checklist as a guide, check to ensure all expected foods are included on documents from each vendor
      - Write “N” in checklist cell if food is not available on document after probing (i.e. documentation doesn’t exist or is outside the 1 mo./3 mo. time period)
    - Review each document to ensure it includes:
      - Product name and brand
      - Unit size & unit price **OR** total price & # of cases
- [ ] SFA Director Cost Interview
  - [ ] Salary information collected
INTRODUCTION (READ ONCE FOR EACH NEW RESPONDENT)

Thank you for participating in the School Nutrition and Meal Cost Study. I will be conducting three interviews with you at this time – the Staffing and Operation Interview, the Food Price and USDA Foods Checklist, and the SFA Director Cost Interview. Should you have any questions about this study, please call 855-808-9389 at Abt Associates, Inc.

About the Study. The School Nutrition and Meal Cost Study (SNMCS) will continue the long-standing commitment of the US Department of Agriculture’s (USDA’s) Food and Nutrition Service (FNS) to periodic assessment of the school meal programs. This current assessment coincides with a period of considerable change for the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). In recent years, schools participating in these programs implemented sweeping regulatory changes designed to increase children’s access to healthy foods at school and to promote adoption of healthy eating and physical activity habits. While FNS has conducted multiple studies of school nutrition and meal costs to date, SNMCS is the first such study after these major changes were implemented and the first to explore both nutrition and cost on a large national scale. This study will provide critical information of interest to USDA, the States, School Food Authorities (SFAs), and other program stakeholders that is not currently available.

The USDA Food and Nutrition Service (FNS), has contracted with Mathematica Policy Research and its research partners Abt Associates and its subsidiary Abt SRBI, Agralytica, and Relyon Media to conduct the SNMCS for SY 2014-2015. Participation in the study by selected states, districts, and schools is required under Section 305 of the Healthy, Hunger-Free Kids Act of 2010 (HHFKA).

SNMCS will collect a broad range of data from nationally representative samples of public SFAs, schools, and students and their parents during SY 2014-2015. These data will provide Federal, State, and local policymakers with needed information about how federally sponsored school meal programs are operating after implementation of the new meal pattern and nutrient requirements and other changes in regulations. Comparisons of results from SNMCS with previous School Nutrition and Dietary Assessment (SNDA) and School Lunch and Breakfast Cost (SLBC) studies will provide information to assess the effects of the new nutrition standards on food service operations, the nutrient content of school meals offered and as served, meal costs and revenues, and student participation and dietary intake.

Protecting Privacy. All information gathered from school districts, schools, and households is for research purposes only and will be kept private to the full extent allowed by law. Responses will be grouped with those of other study participants, and no individual schools, districts, or students will be identified. We are not conducting audits or monitoring visits. Participation in the study will not affect meal reimbursements to participating districts and schools or school meal program benefits to participating households.
OMB Control # 0584-0596
Expiration Date: 08/31/2017

USDA/Food and Nutrition Service

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 195 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
PART 1: FOOD SERVICE OPERATIONS

1. What was the first day of the current school year?
   _____ DAY  _____ MONTH, 2014

2. What is the last scheduled day of the current school year?
   If your district operates year-round, please give me the date when the spring term ends.
   _____ DAY  _____ MONTH, 2015

3. Do any of the schools in this district offer foods from national or regional restaurant brands such as McDonald’s, Burger King, Taco Bell, Pizza Hut, Domino’s, or Subway?
   □ YES (GO TO 3a)
   □ NO (GO TO 6)
   □ REFUSED (GO TO 6)
   □ DON’T KNOW (GO TO 6)

3a. When are the brand-name restaurant food items offered? (CHECK ALL THAT APPLY.)
   □ Reimbursable Breakfast?
   □ Reimbursable Lunch?
   □ A la carte?
   □ Adult meals?
   □ REFUSED
   □ DON’T KNOW

INTERVIEWER:
IF REIMBURSABLE LUNCH SELECTED IN 3A, GO TO 4; ELSE GO TO 5.

4. Do the brand-name restaurant food items that this school district serves for reimbursable lunches cost more, less, or about the same to serve as similar foods from other suppliers, after taking into account costs for food production labor, storage, equipment, and waste?
   □ Cost more (GO TO 4a)
   □ Cost less (GO TO 4c)
   □ Cost about the same (GO TO INSTRUCTION BEFORE 5)
   □ REFUSED (GO TO INSTRUCTION BEFORE 5)
   □ DON’T KNOW (GO TO INSTRUCTION BEFORE 5)
   □ NOT APPLICABLE (THERE ARE NO SIMILAR FOODS FROM OTHER SUPPLIERS) (GO TO INSTRUCTION BEFORE 5)
4a. How much more per meal does this district spend to serve the average reimbursable lunch with brand-name restaurant food items versus what that lunch would cost with non-brand-name foods? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO INSTRUCTION BEFORE 5)

☐ DON’T KNOW (GO TO 4b)

4b. Please provide an estimate of the percentage of how much more it costs to serve the average reimbursable lunch with brand-name restaurant food items versus what that lunch would cost with non-brand-name foods. Would you say…

☐ 0 to under 10% more
☐ 10 to under 25% more
☐ 25 to under 50% more, or
☐ 50% or more above the cost of lunch with non-brand-name foods?
☐ DON’T KNOW

INTERVIEWER: GO TO INSTRUCTION BEFORE 5.

4c. How much less does this district spend to serve the average reimbursable lunch with brand-name restaurant food items versus what that lunch would cost with non-brand-name foods? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO INSTRUCTION BEFORE 5)

☐ DON’T KNOW (GO TO 4d)

4d. Please provide an estimate of the percentage of how much less it costs to serve the average reimbursable lunch with brand-name restaurant food items versus what that lunch would cost with non-brand-name foods. Would you say…

☐ 0 to under 10% less
☐ 10 to under 25% less
☐ 25 to under 50% less, or
☐ 50% or more less than the cost of lunch with non-brand-name foods?
☐ DON’T KNOW
INTERVIEWER:
IF REIMBURSABLE BREAKFAST SELECTED IN 3A, GO TO 5; OTHERWISE GO TO 6.

5. Do the brand-name restaurant food items that this district serves for reimbursable breakfasts cost more, less, or about the same to serve as similar foods from other suppliers, after taking into account costs for food production labor, storage, equipment, and waste?

☐ Cost more (GO TO 5a)
☐ Cost less (GO TO 5c)
☐ Cost about the same (GO TO 6)
☐ REFUSED (GO TO 6)
☐ DON'T KNOW (GO TO 6)
☐ NOT APPLICABLE (THERE ARE NO SIMILAR FOODS FROM OTHER SUPPLIERS) (GO TO 6)

5a. How much more does this district spend to serve the average reimbursable breakfast with brand-name restaurant food items versus what that breakfast would cost with non-brand-name foods? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO 6)

☐ DON'T KNOW (GO TO 5b)

5b. Please provide an estimate of the percentage of how much more it costs to serve the average reimbursable breakfast with brand-name restaurant food items versus what that breakfast would cost with non-brand-name foods. Would you say…

☐ 0 to under 10% more
☐ 10 to under 25% more
☐ 25 to under 50% more, or
☐ 50% or more above the cost of breakfast with non-brand-name foods?
☐ DON'T KNOW

INTERVIEWER: GO TO 6.

5c. How much less does this district spend to serve the average reimbursable breakfast with brand-name restaurant food items versus what that breakfast would cost with non-brand-name foods? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO 6)

☐ DON'T KNOW (GO TO 5d)
5d. Please provide an estimate of the percentage of how much less it costs to serve the average reimbursable breakfast with brand-name restaurant food items versus what that breakfast would cost with non-brand-name foods. Would you say…

- 0 to under 10% less
- 10 to under 25% less
- 25 to under 50% less or,
- 50% or more less than the cost of breakfast with non-brand-name foods?
- DON’T KNOW

6. What are the ways in which this district uses fresh produce for reimbursable meals? (READ LIST. CHECK ALL THAT APPLY.)

- Served on a self-serve basis such as a salad bar or fruit bowl
- Served as a portioned fruit/vegetable menu item (for example, orange slices or a tossed salad)
- Used in recipes for mixed foods prepared by or for the SFA, such as fresh vegetables in spaghetti sauce
- Any other ways? (SPECIFY):

______________________________

- DO NOT USE ANY FRESH PRODUCE FOR REIMBURSABLE MEALS
- REFUSED
- DON’T KNOW

INTERVIEWER:
IF NO FRESH PRODUCE USED, GO TO 6a; OTHERWISE GO TO 7.

6a. What is the main reason why this district does not use fresh produce for reimbursable meals? (CHECK ONE)

- Cost of purchasing fresh produce
- Other costs (such as storage, preparation, waste)
- Not enough variety available
- Quality of available produce
- …or something else? (SPECIFY):

______________________________

- REFUSED
- DON’T KNOW

INTERVIEWER:
IF NO FRESH PRODUCE USED, GO TO 9. OTHERWISE GO TO 7
7. Do the items using fresh produce that this district serves for reimbursable lunches cost more, less, or about the same to serve as similar foods without fresh produce, after taking into account costs for food production labor, storage, equipment, and waste?

☐ Cost more (GO TO 7a)
☐ Cost less (GO TO 7c)
☐ Cost about the same (GO TO 8)
☐ NOT APPLICABLE (DO NOT USE FRESH PRODUCE FOR LUNCHES) (GO TO 8)
☐ REFUSED (GO TO 8)
☐ DON’T KNOW (GO TO 8)

7a. How much more does this district spend to serve the average reimbursable lunch with food items using fresh produce versus what that lunch would cost without fresh produce? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO 8)

☐ DON’T KNOW (GO TO 7b)

7b. Please provide an estimate of the percentage of how much more it costs per reimbursable lunch to use fresh produce. Would you say…

☐ 0 to under 10% more
☐ 10 to under 25% more
☐ 25 to under 50% more, or
☐ 50% or more above the cost of lunch without fresh produce?
☐ DON’T KNOW

INTERVIEWER: GO TO 8.

7c. How much less does this district spend to serve the average reimbursable lunch with food items using fresh produce versus what that lunch would cost without fresh produce? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO 8)

☐ DON’T KNOW (GO TO 7d)

7d. Please provide an estimate of the percentage of how much less it costs per reimbursable lunch to use fresh produce. Would you say…

☐ 0 to under 10% less
☐ 10 to under 25% less
☐ 25 to under 50% less, or
☐ 50% or more less than the cost of lunch without fresh produce?
☐ DON’T KNOW
8. Do the items using fresh produce that this district serves for reimbursable breakfasts cost more, less, or about the same to serve as similar foods without fresh produce, after taking into account costs for food production labor, storage, equipment, and waste?

☐ Cost more (GO TO 8a)
☐ Cost less (GO TO 8c)
☐ Cost about the same (GO TO 9)
☐ NOT APPLICABLE (DO NOT USE FRESH PRODUCE FOR BREAKFASTS) (GO TO 9)
☐ REFUSED(GO TO 9)
☐ DON'T KNOW (GO TO 9)

8a. How much more does this district spend to serve the average reimbursable breakfast with food items using fresh produce versus what that breakfast would cost without fresh produce? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO 9)
☐ DON'T KNOW (GO TO 8b)

8b. Please provide an estimate of the percentage of how much more it costs per reimbursable breakfast to use fresh produce:

☐ 0 to under 10% more (GO TO 9)
☐ 10 to under 25% more (GO TO 9)
☐ 25 to under 50% more (GO TO 9)
☐ 50% or more above the cost of breakfast without fresh produce (GO TO 9)
☐ DON'T KNOW (GO TO 9)

8c. How much less does this district spend to serve the average reimbursable breakfast with food items using fresh produce versus what that breakfast would cost without fresh produce? Please give your answer as dollars and cents per meal.

$_____________________ per meal (GO TO 9)
☐ DON'T KNOW (GO TO 8d)

8d. Please provide an estimate of the percentage of how much less it costs per reimbursable breakfast to use fresh produce. Would you say…

☐ 0 to under 10% less
☐ 10 to under 25% less
☐ 25 to under 50% less, or
☐ 50% or more less than the cost of breakfast without fresh produce?
☐ DON'T KNOW
PART 2: AFTER-SCHOOL SNACKS

9. Does this school district provide after-school snacks funded by a USDA program such as the NSLP, or the Child and Adult Care Food Program (CACFP)? (CHECK ALL THAT APPLY.)

☐ NSLP (GO TO 10-10d)  
☐ CACFP (GO TO 10-10d)  
☐ OTHER/UNKNOWN USDA PROGRAM (GO TO 10-10d)  
☐ SNACK PROGRAM NOT FUNDED BY USDA (GO TO 11)  
☐ NO AFTER-SCHOOL SNACKS (GO TO 11)  
☐ REFUSED (GO TO 11)  
☐ DON’T KNOW (GO TO 11)

10. What organization operates the after-school care program(s) in this school district that provide snacks under NSLP/CACFP/other USDA program? The program operator may be the SFA, an individual school, or an outside organization contracting with the SFA to provide after-school care. (CHECK ALL THAT APPLY.)

☐ SCHOOL DISTRICT  
☐ INDIVIDUAL SCHOOL(S)  
☐ REFUSED  
☐ DON’T KNOW  
☐ OTHER (SPECIFY):

__________________________________________

10a. In how many elementary schools in this school district are these USDA-funded after-school snacks offered?

__________ ELEMENTARY SCHOOLS

☐ NONE  
☐ REFUSED  
☐ DON’T KNOW

10b. In how many middle schools in this school district are these USDA-funded after-school snacks offered?

__________ MIDDLE SCHOOLS

☐ NONE  
☐ REFUSED  
☐ DON’T KNOW
10c. In how many **high schools** in this school district are these USDA-funded after-school snacks offered?

__________ HIGH SCHOOLS
☐ NONE
☐ REFUSED
☐ DON'T KNOW

10d. In how many **other locations** in this school district (such as preschools, other types of schools, or community centers) are these USDA-funded after-school snacks offered?

__________ OTHER LOCATIONS
☐ NONE
☐ REFUSED
☐ DON'T KNOW
PART 3: ENROLLMENT AND FOOD INVENTORY DATA

11. The next set of questions asks for student enrollment numbers, and the number of students who are approved for free or reduced price lunch. You may need to refer to administrative records to answer these questions.

GIVE THE RESPONDENT “HANDOUT 1: Staffing and Operations Interview,” AND REVIEW THE DEFINITIONS OF PROVISION 2/3, CEP, AND THE SCHOOL CLASSIFICATION GRID

DEFINITIONS:

Provision 2 and 3 schools serve meals at no charge to all children as determined by application or other means once every four years.

Schools participating in the Community Eligibility Provision serve meals at no charge to all children based on the proportion of children certified for free school meals through means other than a household application.

INSTRUCTIONS:
Refer to the following chart to classify schools by type. Count students according to the type of school they attend. If any schools do not fit these definitions (e.g., ungraded schools), please provide a description of the grade ranges for these schools.

<table>
<thead>
<tr>
<th>Lowest Grade</th>
<th>Highest Grade</th>

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 195 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
PART 1 – SCREENER

1. SEA FINANCE OFFICER INDIRECT COST SURVEY IS AVAILABLE
   □ AVAILABLE [GO TO QUESTION 1a.]
   □ NOT AVAILABLE [GO TO QUESTION 2a.]

   1a. Does your SFA use the indirect cost rate or other allocation method calculated or approved by the State?
       □ YES [GO TO END SCRIPT, DO NOT COMPLETE THIS QUESTIONNAIRE.]
       □ NO [GO TO QUESTION 2a.]
       □ REFUSED [GO TO QUESTION 2a.]
       □ DON’T KNOW [GO TO QUESTION 2a.]

PART 2 – METHOD FOR ALLOCATING INDIRECT COSTS

The questions in this section ask about the methods your school district may use to calculate indirect costs attributable to foodservice and other programs or grants. The questions also ask about the procedures your school district may use to obtain approval for these methods from the State Education Agency.

2a. Does your school district have one or more indirect cost rate(s) for SY2014-2015?
    □ YES
    □ NO [GO TO QUESTION 3A.]
    □ DON’T KNOW [GO TO QUESTION 3A.]

2b. Did the State Education Agency provide your school district with an indirect cost rate(s) for SY2014-2015?
    □ YES [GO TO QUESTION 2E.]
    □ NO
    □ DON’T KNOW [GO TO QUESTION 2E.]

2c. Did your school district use a formula provided by the State Education Agency to calculate its indirect cost rate(s) for SY2014-2015?
    □ YES [GO TO QUESTION 2E.]
    □ NO
    □ DON’T KNOW [GO TO QUESTION 2E.]

2d. Did your school district obtain approval from the State Education Agency for its indirect cost rate(s) for SY2014-2015?
    □ YES
    □ NO
    □ DON’T KNOW
2e. What types of indirect cost rate(s) does your school district have for SY2014-2015?

CHECK ALL THAT APPLY.

☐ Restricted rate
☐ Unrestricted rate
☐ Other rate (specify) _________________________________
☐ DON'T KNOW

2f. What is your school district’s [restricted/unrestricted/other or unknown] indirect cost rate(s) for SY2014-2015?

WRITE ‘DK’ FOR DON’T KNOW IF THE INDIRECT COST RATE PERCENTAGE IS UNKNOWN.

2g. Is this rate final for SY 2014-2015?

% RESTRICTED RATE ☐ FINAL ☐ NOT FINAL ☐ DON'T KNOW
% UNRESTRICTED RATE ☐ FINAL ☐ NOT FINAL ☐ DON'T KNOW
% OTHER/UNKNOWN TYPE OF RATE ☐ FINAL ☐ NOT FINAL ☐ DON'T KNOW

3a. Does your school district have one or more indirect cost allocation plan(s) that use a method other than indirect cost rate(s) for SY2014-2015?

☐ YES
☐ NO [GO TO PART 3 – COMPONENTS OF INDIRECT COSTS. IF ALSO NO OR DON’T KNOW TO 2a GO TO END SCRIPT]
☐ DON’T KNOW [GO TO PART 3 – COMPONENTS OF INDIRECT COSTS. IF ALSO NO OR DON’T KNOW TO 2a GO TO END SCRIPT]

3b. Did the State Education Agency provide your school district with one or more indirect cost allocation plan(s) for SY2014-2015?

☐ YES [GO TO PART 3 – COMPONENTS OF INDIRECT COSTS]
☐ NO
☐ DON’T KNOW

3c. Did your school district obtain approval from the State Education Agency for its indirect cost allocation plan(s) for SY2014-2015?

☐ YES
☐ NO
☐ DON’T KNOW
3d. What type(s) of factors are used to allocate indirect costs in the indirect cost allocation plan? For example: percentage of square feet, percentage of staff, percentage of staff hours, or number of students served.

[IF THERE IS MORE THAN ONE PLAN READ: Please answer for the plan that is most applicable to foodservice, whether or not you plan to recover indirect costs to the school foodservice account. Refer to this plan in the rest of the questionnaire.]

3e. May I have a copy of your indirect cost allocation plan(s) for SY2014-2015?

☐ YES
☐ NO

INDIRECT COST ALLOCATION PLAN(S) FOR SY2014-2015 COLLECTED?

☐ YES
☐ NO

NOTES:
PART 3 – COMPONENTS OF INDIRECT COSTS

COPY RESPONSES FROM QUESTION 2e AND 3a (pg. 4)

2e. What types of indirect cost rate(s) does your school district have for SY2014-2015?

CHECK ALL THAT APPLY.

- Restricted rate  → IF NOT CHECKED CROSS OUT IN QUESTIONS 4, 5 AND 6
- Unrestricted rate  → IF NOT CHECKED CROSS OUT IN QUESTIONS 4, 5 AND 6
- Other rate  → IF BOTH NOT CHECKED CROSS OUT IN QUESTIONS 4, 5 AND 6
- DON’T KNOW  → IF BOTH NOT CHECKED CROSS OUT IN QUESTIONS 4, 5 AND 6

3a. Does your school district have one or more indirect cost allocation plan(s) that use a method other than indirect cost rate(s) for SY2014-2015?

- YES  → IF NOT CHECKED CROSS OUT IN QUESTIONS 4, 5 AND 6
- NO
- DON’T KNOW

This section asks about the components of indirect costs that apply to your school district for SY2014-2015.

4. Which of the following cost categories are included as indirect costs in the [Restricted Rate / Unrestricted Rate / Other Rate / Other Allocation Plan] for your school district for SY2014-2015?

READ COST CATEGORIES A. THROUGH K, RECORDING A RESPONSE FOR EACH.
THEN ASK ABOUT THE NEXT RATE/PLAN THE DISTRICT USES.

IF “YES” IS CHECKED FOR ANY ITEM IN TABLE 3 ABOVE, THEN ASK 6b.

**OTHERWISE, GO TO END OF INDIRECT COST QUESTIONNAIRE SCRIPT**

6b. Please describe the situations when salaries are treated - entirely or in part - as indirect costs for your school district for SY2014-2015.

________________________________________________________________________________________________________________________
________________________________________________________________________________________________________________________
________________________________________________________________________________________________________________________

**END OF INDIRECT COST QUESTIONNAIRE SCRIPT.**

We will contact you for information about the charging and recovery of indirect costs from school foodservice for SY 2014-2015 once the year-end financial reports have been completed. Next, I would like to ask you about your SFA’s statement of foodservice expenses.

*Prepared by Mathematica Policy Research and Abt Associates*
DEFINITIONS USED IN THIS QUESTIONNAIRE

Accounting, budget, finance, and payroll includes tasks to process payments to and from the school district, maintain financial records, manage cash, and produce financial reports.

Administration of personnel, benefits, and human resources includes recruiting, hiring, enrollment/disenrollment in benefit plans, and other human resource (HR) administration functions. This does not include the costs of non-HR personnel or the cost of employee benefits (health/dental insurance, pension/retirement, tuition assistance, etc.).

Allocation is the process of assigning indirect costs to particular programs and other cost objectives, such that each program bears a portion of the indirect costs commensurate with the benefit received from that cost.

Building operations and maintenance means services of this type not provided by custodial/janitorial staff, particularly more skilled services (such as heating/ventilation/air conditioning maintenance or repair).

Business Manager is the official who is responsible for your school district’s procedures regarding indirect costs for school foodservice and other programs. In some school districts the Business Manager is the Chief Financial Officer (CFO).

Custodial and janitorial means routine cleaning, storage, setting up/rearranging furniture, and other work performed by staff or contractors whose primary work is routine cleaning, storage, and setting up/rearranging furniture.

Data processing operations and programming includes all support for mainframe, server, and client computers, and for communications networks (voice and data).

Direct cost base is the total cost of foodservice in SY2014-2015, less any amounts excluded when calculating indirect costs (e.g., capital outlays).

Equipment and vehicle operations and maintenance includes management of motor pools, routine maintenance and repair of vehicles, and routine maintenance and report of equipment.

Expendable equipment means equipment purchases treated as an annual operating expense; not a capital expense, under Federal and State rules.

Final rate is an indirect cost rate based on the actual allowable costs of a specified period. A final, audited rate is not subject to adjustment.

Full indirect cost of a grant or program is the amount of indirect cost determined by applying the appropriate method for determining the grant or program’s share of the school district’s indirect costs. For an school district that uses indirect cost rates, the full indirect cost is equal to applicable indirect cost rate times the base of direct costs for the grant or program.

General administration and policy includes the Superintendent and other administration not listed elsewhere.

Indirect costs are costs incurred for the benefit of multiple programs, functions, or other cost objectives and therefore cannot be identified readily and specifically with a particular program or other cost objective. They typically support administrative overhead functions such as fringe benefits, accounting, payroll, purchasing, facilities management, utilities, etc. (from Indirect Costs: Guidance for State Agencies & School Food Authorities)
Indirect cost allocation plans define how indirect costs will be allocated and the method or methods to be used to allocate indirect costs.

Indirect cost rate is calculated as:
Indirect Cost Rate = Total Indirect Costs ÷ Total Direct Costs

Note: Certain costs may be excluded from indirect or direct costs according to applicable Federal and State rules for computing and claiming indirect costs.

Indirect cost rate agreement between the SEA and the school district is the documented and approved indirect cost rate plan and includes the current and approved indirect cost rate (or other allocation method) and the corresponding direct cost base.

Medical/health services and supplies refers to school-based health services such as a school nurse, traditional first aid, administration of medications, screening services (vision, hearing, counseling, mental health services, etc.).

Not Final Rate is an indirect cost rate that is subject to adjustment or revision. An example of a not final rate is a provisional rate. A provisional rate is a temporary indirect cost rate applicable to a specified period which is used for funding, interim reimbursement, and reporting indirect costs on Federal awards pending the establishment of a “final” rate for that period.

Programs are activities or services, such as instruction and school foodservice that have identifiable direct costs. These direct costs may be charged to grants or other special-purpose accounts, or to the school district’s general fund.

Providing and maintaining uniforms includes obtaining, distributing, and cleaning uniforms for school district personnel.

Purchasing and contracting includes solicitation and review of bids for purchases and contracts, preparation and negotiation of purchasing agreements and contracts, processing purchase requests and purchase orders, and managing contracts (other than processing of contractor invoices).

Recovery of indirect costs means that funds are transferred, from the school foodservice account and other programs and grants, to the school district general fund, in payment of indirect costs.

Refuse disposal, pest control, other sanitation refers to when these services are not performed as part of “custodial and janitorial” or “building operation and maintenance” services.

Restricted indirect rates (restricted rates) are used for grants, such as Title I, with a requirement that Federal funds supplement, not supplant non-Federal funds.

School board includes salaries or other compensation to board members, and support staff assigned to school board.

Security includes tasks to ensure the safety of students, school district personnel, and school district property.

Storage and transportation of goods refers to when these services are not performed as part of “custodial and janitorial” or “building operation and maintenance” services.

Unrestricted indirect rates (unrestricted rates) may be used when a requirement that Federal funds supplement, not supplant non-Federal funds, does not apply.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 195 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
School Foodservice Expense Statement

At this time I want to review your SFA’s statement of foodservice expenses.

1. I would like to get your SFA’s expense statement for the current fiscal year to date. If you do not have an available expense statement for the current fiscal year, we can review last year’s expense statement. We want to work from the version of your expense statement that has the most detail for this period. We are most interested in the breakdown of expenses among the following major categories:

   A. Labor (including salaries and wages, and the employer’s share of payroll taxes and employee benefits)
   B. Other direct operating costs (including supplies, utilities, rent, and contracted services)
   C. Equipment purchases and depreciation costs
   D. Indirect or overhead costs
   E. Food (including purchased food and value of USDA donated foods), processing fees for USDA foods

2. INTERVIEWER: QUICKLY REVIEW THE AVAILABLE STATEMENT TO DETERMINE IF THE ABOVE CATEGORIES ARE IDENTIFIED. IF NOT, ASK IF THERE IS A MORE COMPLETE AND DETAILED STATEMENT.

3. CHECK ONE BELOW:

   - 2014-2015 Fiscal Year to date expense statement provided
   - Previous Fiscal Year expense statement provided

4. Please confirm what period the most recent expense statement covers.

   Period covered by statement: ___/_____/_____ to ____/_____/_____

5. INTERVIEWER: GIVE THE RESPONDENT HANDOUT 1: MAJOR EXPENSE CATEGORIES. WALK THROUGH THE EXPENSE STATEMENT LINE-BY-LINE WITH THE RESPONDENT. MARK UP EACH LINE OF THE EXPENSE STATEMENT, IN PENCIL, WITH THE MAJOR CATEGORY (A-E ABOVE) THE EXPENSE Falls UNDER.
I have some questions to understand how the expenses are reported. I'll start with Labor and then ask about non-labor expenses.

GIVE THE RESPONDENT HANDOUT 2: EXPENSE ITEMS, AND INVITE THEM TO FOLLOW ALONG WITH YOU

<table>
<thead>
<tr>
<th>MAJOR CATEGORY</th>
<th>Sub Category</th>
<th>Item</th>
<th>A. Is [ITEM] listed on the expense statement as its own separate line item?</th>
<th>B. Is some or all of [ITEM] included in another line item on the expense statement?</th>
<th>C. (IF YES TO B) Which line item contains this cost?</th>
<th>D. (IF NO TO A AND B) Why is this item not included as an expense?</th>
</tr>

QUESTIONS FOR MAJOR CATEGORY E: FOOD

E1. Is the expense for purchased food reported on a cash basis; that is, does it represent only the amount paid for food during the reporting period?

YES (CONTINUE TO E1a.) ................................................................. 1
NO (GO TO E1b.) ................................................................. 2

E1a. Is the change in the value of the food inventory over the year reported on this expense statement or on a separate document?

YES, ON THE STATEMENT ➔ Where? _________________________ 1
YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT)....... 2
NO, IT IS NOT REPORTED .......................................................... 3

➔ GO TO E2.

E1b. So was the expense for food reported on an accrual basis, that is, representing the value of the food used during the period regardless of when it was purchased?

YES (CONTINUE TO E2.) ................................................................. 1
NO ➔ How is purchased food reported? ______________________ 2

E2. Were there any unreported costs for purchased food?

YES ➔ What was the amount of these costs? $___________ ....... 1
NO (CONTINUE TO E3.) ................................................................. 2

E3. Does this SFA receive USDA foods (also known as donated commodities)?

YES (CONTINUE TO E4) ................................................................. 1
NO (GO TO NEXT SECTION: FRINGE RATE BENEFIT CHART)....... 2

E4. Does the expense for purchased food include the value of USDA foods received by the SFA?

YES (GO TO E5.) ................................................................. 1
NO (CONTINUE TO E4a.) ................................................................. 2

E4a. Is the value of USDA foods received by the SFA reported on the expense statement or on a separate document?

YES, ON THE STATEMENT ➔ Where? _________________________ 1
YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT)....... 2
NO, IT IS NOT REPORTED (GO TO E5.) ................................................................. 3
E5. Does the expense for purchased food include storage, transportation, or processing of USDA foods (also known as donated commodities) received by the SFA?

YES (GO TO E6.) .............................................................................................................1
NO (CONTINUE TO E5a.) .................................................................................................2

E5a. Are the expenses for storage, transportation, and processing of USDA foods reported on the expense statement or on a separate document?

YES, ON THE STATEMENT ➔ Where? _____________________________________________1
YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT).................. 2
NO, IT IS NOT REPORTED (GO TO E6.).................................................................3

E6. Is the expense for USDA foods reported on a cash basis; that is, does it represent the value of USDA foods received during the period?

YES (CONTINUE TO E6a.) ............................................................................................1
NO (GO TO E6b.) .......................................................................................................2

E6a. Is the change in USDA foods inventory reported on the expense statement or on a separate document?

YES, ON THE STATEMENT ➔ Where? _____________________________________________1
(GO TO NEXT SECTION: FRINGE RATE BENEFIT CHART)

YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT)..................2
(GO TO NEXT SECTION: FRINGE RATE BENEFIT CHART)

NO, IT IS NOT REPORTED (CONTINUE TO E6b.)....................................................3

E6b. So was the expense for USDA foods reported on an accrual basis (that is, representing the value of the food used during the period regardless of when it was purchased)?

YES (CONTINUE TO NEXT SECTION: FRINGE RATE BENEFIT CHART) ...1
NO ➔ How are USDA foods reported? ____________________________________________2
The fringe benefit rate is the amount your district paid in employee benefits and employer paid taxes as a percentage of payroll. Benefits and taxes include: the employer’s share of payroll taxes such as FICA and unemployment taxes; the employer paid portion of health, dental, vision, life and other insurance; and employer contributions to retirement/pensions. For foodservice staff, the fringe rate should include both the share of benefits that is charged to the SFA (School Foodservice Authority) account and any benefits that are paid by the district with other funds (for example, if a portion of retirement funds is paid by the district).

For example: If the district pays $1 million in payroll and $300,000 in benefits and taxes, the fringe rate is 30%.

What is the fringe benefit rate for [employees in the Foodservice Department / School Personnel / District-level Personnel]? Is that the rate for all employees, all regular employees, employees who receive partial benefits, or employees who receive no benefits?

We are interested in an average fringe rate, either the rate used for budgeting or calculated from last year. You may report a single rate for all employees, or give a more specific rate based on type of employee (i.e. full benefits, partial benefits, and no benefits).

COMPLETE FRINGE BENEFIT RATE CHART BELOW. IF THE RATE IS THE SAME FOR ALL DEPARTMENTS FOR A ROW, WRITE IN THE SAME RATE IN ALL COLUMNS. IF ONLY THE RATE FOR ALL EMPLOYEES IS AVAILABLE, FILL IN THE “All employees” ROW AND CHECK “DK” IN THE OTHER ROWS.

**END OF EXPENSE STATEMENT SCRIPT.**

This concludes our preliminary review of your SFA’s expenses. When the final foodservice expense statement for the 2014-2015 school year is available, we will review that statement with you by telephone and ask some follow-up questions.
Next, I am going to ask you about off-budget staff time and salaries.

**Preliminary Foodservice Expense Statement**

**Definitions of Expense Categories**

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. <strong>LABOR:</strong> Personnel costs, including salaries and wages, and fringe benefits and payroll taxes.</td>
<td></td>
</tr>
<tr>
<td>➢ <strong>Salaries and Wages:</strong> Includes salaries and wages paid to regular and temporary or contract employees. Does not include fees paid to independent consultants.</td>
<td></td>
</tr>
<tr>
<td>➢ <strong>Fringe benefits and payroll taxes:</strong> Includes the school foodservice share of the cost of health insurance, life insurance, pension or other retirement benefits, tuition assistance, dental insurance, meal allowances, or other non-cash employee benefits. Also includes the school foodservice share of payroll taxes or similar mandatory charges for Social Security, Medicare, Unemployment Compensation, and Workers’ Compensation insurance.</td>
<td></td>
</tr>
<tr>
<td>B. <strong>OTHER DIRECT OPERATING COSTS:</strong> Direct expenses for foodservice of an operational (recurring) nature, other than labor and food. Does not include capital outlays, depreciation, or indirect costs.</td>
<td></td>
</tr>
<tr>
<td>➢ <strong>Supplies and expendable equipment:</strong> This category includes all types of supplies (other than food) used for all aspects of foodservice operations. Expendable equipment includes any type of equipment purchase that may be treated as an expense according to USDA and other applicable rules. Usually this is equipment with a cost below a specified dollar amount (such as $500).</td>
<td></td>
</tr>
<tr>
<td>➢ <strong>Utilities:</strong> This category includes electricity, heating and cooking fuels, water, and sewer services.</td>
<td></td>
</tr>
<tr>
<td>➢ <strong>Rent:</strong></td>
<td></td>
</tr>
<tr>
<td>7. <strong>Equipment/vehicle rental:</strong> This category includes expenses for rent of any type of school foodservice equipment or vehicles.</td>
<td></td>
</tr>
<tr>
<td>8. <strong>Storage space rental:</strong> This category includes expenses for rent of facilities for storing food and foodservice supplies.</td>
<td></td>
</tr>
<tr>
<td>9. <strong>Other space rental:</strong> This category includes expenses for rent of facilities for food preparation, serving, or foodservice administration.</td>
<td></td>
</tr>
<tr>
<td>➢ <strong>Contracted services/interagency payments:</strong> This category includes all expenses for contracted or purchased services from private organizations or individuals, and payments to other agencies for specific services charged on a direct cost basis.</td>
<td></td>
</tr>
<tr>
<td>10. <strong>Professional services:</strong> includes services provided by professionals, such as dietary/management consulting, training of staff, legal services, audits, etc.</td>
<td></td>
</tr>
<tr>
<td>11. <strong>Foodservice management company fees:</strong> includes all payments to foodservice management companies other than reimbursement of expenses for labor and food. Examples include management or consulting fees, and cost of funds or profit. NOTE: (1) The purchase of complete meals prepared under contract to the SFA (“pre-plated meals”) or per-meal charges for meals prepared on-site should also be reported here; (2) If a foodservice management company bills a single amount to the SFA for all of its services, that amount should be reported here.</td>
<td></td>
</tr>
<tr>
<td>12. <strong>Repairs and maintenance of equipment:</strong> includes repair, maintenance, and associated charges (e.g., parts) for foodservice equipment used in kitchens, cafeterias, storage facilities, and administrative offices.</td>
<td></td>
</tr>
<tr>
<td>13. <strong>Storage:</strong> fees for storage on a contract basis and associated charges (such as loading/unloading of shipments)</td>
<td></td>
</tr>
<tr>
<td>14. <strong>Transportation:</strong> charges for transportation of food, foodservice supplies, etc. on a contract basis.</td>
<td></td>
</tr>
</tbody>
</table>
15. **Insurance and bond premiums**: includes payments for insurance of property and supplies, and liability insurance or bond. Does not include payments for insurance benefits to workers or workers’ compensation insurance.

16. **Other services**: includes services not listed elsewhere, such as data processing, payroll processing, linen or laundry services, extermination, health inspections, etc.

- **Miscellaneous direct operating costs**:

17. **Communications**: includes telephone, fax, postage, courier services, and other communications costs.

18. **Travel / miscellaneous**: This category includes all other costs directly identified as foodservice expenses. Examples of costs in this category are: mileage and other travel reimbursements, association memberships, and subscriptions.

C. **EQUIPMENT PURCHASES AND DEPRECIATION COSTS**: Includes equipment purchase and equipment depreciation.

- **Equipment purchase**: includes expenses for new or replacement equipment items considered capital equipment according to USDA and other applicable rules, based on their useful life and cost. Includes equipment for kitchens, cafeterias, storage facilities, transportation, and administration.

- **Equipment depreciation**: an annual charge equal to the purchase cost of capital equipment divided by the useful life of the equipment. Usually reported only under accrual accounting.

D. **INDIRECT COSTS**: costs shared among several SFA programs or functions, such as administrative support, occupancy, general-purpose supplies, and communications. Usually the indirect cost for foodservice, if reported, is computed by applying a percentage rate to specified types of direct costs, which may exclude food. The indirect cost should be the amount actually charged to the school foodservice account.

E. **FOOD**: Includes purchased food, donated commodities (a.k.a. USDA food), and charges for the transportation, storage, and processing of donated commodities.

- **Purchased food**: This is the value of purchased food used by the SFA, including purchased foods that have been made with donated USDA commodities as ingredients.

- **Value of USDA foods received**: This is the total USDA-assigned value of USDA donated commodities used by the SFA.

- **Storage and shipping fees**: This category includes charges from the State for the transportation, storage, and processing of USDA donated commodities.

- **Processing costs**: This category includes other charges (such as from contractors to the SFA) for the transportation, storage, and processing of USDA donated commodities.

- **Inventory used/loss**: The value of inventory of purchased food and donated commodities used or lost during the year, in addition to purchases or receipts.
Handout 1: Major Expense Categories

As we walk through the Expense Statement line-by-line, please indicate which of the following major categories each expense falls under:

A. **Labor**
   Include salaries and wages, and the employer’s share of payroll taxes and employee benefits.

B. **Other direct operating costs**
   Include supplies, utilities, rent and contracted services.

C. **Equipment purchases and depreciation costs**

D. **Indirect or overhead costs**

E. **Food**
   Include purchased food and the value of USDA donated foods.
   Include processing fees for USDA foods.
Handout 2: Expense Items

A. LABOR

Salaries and wages:
1. Regular foodservice employees
2. Other regular district employees
3. Temporary employees

Fringe benefits and payroll taxes:
4. Social security taxes
5. Unemployment compensation
6. Worker’s compensation
7. Health insurance
8. Pension contributions
9. Other benefits (life insurance, disability insurance, etc.)

B. OTHER DIRECT OPERATING COSTS

Supplies and expendable equipment:
1. Food production supplies and expendable equipment
2. Transportation supplies (gas, grease, oil, tires, etc.)
3. Office supplies and expendable equipment
4. Other supplies and expendable equipment

Utilities:
5. Energy
6. Other utilities (water, sewer)

Rent:
7. Equipment/vehicle rental
8. Storage space rental
9. Other space rental

Contracted services/interagency payments:
10. Professional services
11. Foodservice management company fees, etc.
12. Repairs and maintenance of equipment
13. Storage
14. Transportation
15. Insurance and bond premiums
16. Other services

Miscellaneous direct operating costs:
17. Communications
18. Travel/miscellaneous
C. EQUIPMENT PURCHASES AND DEPRECIATION COSTS

   Equipment purchase:
   1. Kitchen equipment
   2. Motor vehicles
   3. Other equipment

   Equipment depreciation:
   4. Cafeteria/kitchen
   5. Other

D. INDIRECT COSTS

   1. Indirect cost for SY2014-2015
   2. Indirect cost for prior year(s)
Handout 3: Kitchen Types

**Independent Kitchen**: A school based kitchen that produces and serves food for that school only.

**Base Kitchen**: A school based kitchen that produces and serves food for that school, as well as produces food to be shipped off-site to another school. Sometimes called a Production Kitchen.

**Central Kitchen**: A kitchen where food is prepared to be sent off-site only, and does not serve food on-site.

**Satellite Kitchen**: A school based kitchen that receives all or some food from a kitchen located off-site, such as a base or central kitchen (see definitions above).

Name: ______________________   Title: ______________________________
Phone: ______________________    email: ____________________________

Name: ______________________   Title: ______________________________
Phone: ______________________    email: ____________________________

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 195 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
OFF-BUDGET STAFF INTERVIEW

THIS GUIDE SHOULD BE COMPLETED WITH THE BUSINESS MANAGER AND THE SFA DIRECTOR, PREFERABLY TOGETHER.

FIRST WRITE IN “IC” FOR FUNCTIONS COVERED BY INDIRECT COST RATE FROM THE SFA INDIRECT COST QUESTIONNAIRE (QUESTION 5 ON PAGE 7) OR THE SEA INDIRECT COST SURVEY (FOUND IN THE RIB) TO THE SCHOOL DISTRICT AND NON-SCHOOL DISTRICT COLUMNS ON THE SUPPORT FUNCTION COST GRID ON PAGE 5.

In this part of the interview, we will talk about the costs of functions that support food service operations. I may ask you to estimate the costs of support tasks that are not included on the foodservice financial statement. The purpose of this grid is to identify the support function costs that are not charged as direct costs and not included in the school district’s indirect cost rate. We will refer to these as “off-budget costs.”

Support Function Cost Grid Instructions

USE COLUMN A TO IDENTIFY WHICH ORGANIZATION IS RESPONSIBLE FOR EACH FUNCTION. THERE CAN BE MULTIPLE ORGANIZATIONS RESPONSIBLE PER ROW. USE COLUMN B TO INDICATE HOW EACH COST IS HANDLED:

- **DC**: DIRECT CHARGE TO SFA ACCOUNT
- **IC**: INCLUDED IN SCHOOL DISTRICT’S INDIRECT COST RATE [OR OTHER INDIRECT COST ALLOCATION PLAN] WHETHER CHARGED TO FOODSERVICE OR NOT
- **OB**: OFF-BUDGET COSTS

First, we need to identify the support functions performed by the foodservice department, other school district departments, and other non-school district organizations such as the town, city or county government. For each function, please tell me the organization or organizations responsible for providing that function, and whether costs are treated as direct costs, indirect costs, or handled some other way. If the foodservice department does not utilize a particular support function, let me know. I will take into account what you have already told me about indirect costs charged to the foodservice account.

GIVE THE RESPONDENT THE HANDOUT “Definitions for Support Function Cost Grid”
SCRIPT FOR SUPPORT FUNCTION COST GRID (WORK ACROSS THE ROWS)

To begin, which organization is responsible for [TASK] in support of food service - the food service department, the school district, non-school district or a combination of organizations? (IF NEEDED: The organization that is responsible is based on who manages the staff that perform the task. DEFER TO THE RESPONDENT)

IF THE TASK IS NOT APPLICABLE, CHECK “N/A” COLUMN, AND MOVE TO NEXT ROW. OTHERWISE, CHECK ‘COLUMN A. RESPONSIBLE?’ FOR EACH ORGANIZATION RESPONSIBLE FOR THE TASK.

IF MORE THAN ONE ORGANIZATION IS RESPONSIBLE, DETAIL HOW TASK IS SPLIT IN THE LAST COLUMN.

FOR EACH ORGANIZATION IDENTIFIED AS RESPONSIBLE, ASK ONE OF THE FOLLOWING SETS OF QUESTIONS:

<table>
<thead>
<tr>
<th>IF YOU PREFILLED “HOW HANDLED?” WITH IC, ASK:</th>
<th>IF “HOW HANDLED?” IS BLANK, ASK:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. According to my information, the [ORGANIZATION’s] costs associated with [TASK] are part of the school district’s indirect cost rate. Is that correct?</td>
<td>1. Are the [ORGANIZATION’s] costs associated with [TASK] charged directly to foodservice?</td>
</tr>
<tr>
<td>IF NO (NOT INCLUDED IN INDIRECT COST RATE), CROSS OUT “IC” WITH A SLASH AND ASK 2. OTHERWISE LEAVE AS “IC” AND PROCEED ACROSS THE ROW TO NEXT RESPONSIBLE ORGANIZATION.</td>
<td>IF YES, CODE AS “DC” AND PROCEED TO NEXT RESPONSIBLE ORGANIZATION. IF NO, ASK:</td>
</tr>
<tr>
<td>2. Are the [ORGANIZATION’s] costs associated with [TASK] charged directly to foodservice?</td>
<td>2. Are the [ORGANIZATION’s] costs associated with [TASK] part of the school district’s indirect cost rate?</td>
</tr>
<tr>
<td>IF YES, CODE AS “DC” AND PROCEED ACROSS THE ROW TO THE NEXT RESPONSIBLE ORGANIZATION. IF NO, ASK:</td>
<td>IF YES, CODE AS “IC” AND PROCEED TO NEXT RESPONSIBLE ORGANIZATION. IF NO, ASK:</td>
</tr>
<tr>
<td>3. Then the [ORGANIZATION’s] costs associated with [TASK] are not charged to foodservice and not part of the district’s indirect costs. Is that correct?</td>
<td>3. Then the [ORGANIZATION’s] costs associated with [TASK] are not charged to foodservice and not part of the district’s indirect costs. Is that correct?</td>
</tr>
<tr>
<td>IF YES CODE AS “OB”</td>
<td>IF YES CODE AS “OB”</td>
</tr>
</tbody>
</table>

REPEAT FOR ALL REMAINING TASKS (a - m).

NOTE: “HOW HANDLED?” CAN CONTAIN A COMBINATION OF IC/DC/OB ALTHOUGH THIS WILL BE INFREQUENT. ONLY RECORD MULTIPLE CODES FOR “HOW HANDLED?” IF OFFERED BY THE RESPONDENT
Support Function Cost Grid

Column B codes:  DC = direct SFA charge; IC = included in indirect cost rate/other cost allocation plan; OB = off-budget costs

Off-Budget District Staff Introduction

Now I would like to get information on the jobs and costs of the school district staff and employees of other agencies who provide the support functions we have just discussed. I want to list staff whose costs we have identified as “off-budget” (THESE ARE THE COSTS OF FUNCTIONS CODED AS “OB” IN THE SUPPORT FUNCTION COST GRID. IF CODED AS BOTH “OB” AND “IC” IN A SINGLE CELL, OR “OB” AND “DC” IN A SINGLE CELL, THEN YOU DO NOT NEED TO COMPLETE THE ROSTER FOR THESE STAFF). These are the staff costs that are neither charged directly to the foodservice account nor included in the indirect costs identified by the school district. These could be school district staff or other government agency staff. We will not discuss any costs incurred at the school level by non-foodservice school staff (these will be picked up by interviews with the principals of the sampled schools). Staff costs that are included in the district’s indirect costs will not be treated as “off-budget” or unreported, even if indirect costs are not charged to, or recovered from, the school foodservice account.

R1. Are there any district or school foodservice staff who help prepare or serve meals but their time is not charged to the foodservice account? RECORD THESE STAFF ON THE ROSTER

R2. Are there any foodservice staff whose time is not fully charged to the foodservice account? This may include Food Service Directors or other foodservice staff based in schools who spend some of their time on central administrative tasks in support of foodservice, which are not paid for by foodservice. RECORD THESE STAFF ON THE ROSTER.

R3. Now starting with the staff who perform [FIRST FUNCTION WITH OFF-BUDGET COSTS], please give me a list of their job titles or positions.

RECORD THESE STAFF ON THE ROSTER. REPEAT FOR EACH FUNCTION WITH UNREPORTED COSTS. THESE ARE THE FUNCTIONS CODED AS “OB” IN THE SUPPORT FUNCTION COST GRID. IF CODED AS “OB” AND “IC” IN A SINGLE CELL, OR “OB” AND “DC” IN A SINGLE CELL, THEN YOU DO NOT NEED TO COMPLETE THE ROSTER FOR THESE STAFF. DO NOT REPEAT A JOB TITLE/POSITION IF THE PERSON DOES MORE THAN ONE FUNCTION.

WHEN COMPLETE, ASK THE QUESTION BELOW TO CONFIRM:

R4. Have we listed all the staff who help with food service and represent “off-budget” or unreported costs?

ADD STAFF AS NEEDED, THEN PROCEED TO INSTRUCTIONS ON NEXT PAGE.
**Instructions:** LIST (1) THE JOB TITLES OR POSITIONS OF ALL CENTRAL STAFF WHO ARE INVOLVED WITH ACTIVITIES LISTED AS “OB” ON THE SUPPORT FUNCTION COST GRID.

For each position listed under column 1, please tell me (2) the appropriate unit; in column (3) the number of staff members in that position; (4) the average salary/wage of that position and the basis paid; (5) the total paid hours per week; and (6) total paid weeks per year. Indicate the total leave time hours per year including paid sick, vacation, and holiday time (7). If there is variation in salary among staff in the same category, please indicate the average (midpoint) salary for this position.

Use staff initials in column 1 if listing several people with the same title separately. If more than 4 people with the same title, paid hours/week, paid weeks/year, and total leave hours per year, list the title, calculate the average salary, and leave the initials blank.

To help you estimate the time spent by [TYPE OF STAFF] on food service support, I will ask you some questions about their activities. I’ll need to do this for each type of support activity involving [TYPE OF STAFF].

What is the first type of support activity involving [TYPE OF STAFF]? What function is this for? *(RECORD FUNCTION FROM FOOD SERVICE FUNCTION LIST AT TOP OF PROCESS GRID AS INDICATED).* First tell me what tasks are involved in this activity. *(LIST TASKS IN COLUMN A. REFER TO BULLETS ON FUNCTION LIST FOR PROMPTS.)*

*(COMPLETE COLUMNS B-D FOR EACH STEP)* Who does this step (that is, what type of employee)? If this is a step that is done many times, tell me how long it takes to do the step once and then how often it’s done. If it is a one-time or infrequent step, you can just tell me the time spent per year by this type of employee on the step. *(REPEAT FOR EACH STEP UNTIL THE PROCESS GRID IS COMPLETE.)*

*(COMPLETE ROW OF THE PROCESS GRID FOR EACH SUPPORT ACTIVITY INVOLVING THIS TYPE OF STAFF. START A NEW GRID IF STAFF TYPE DOES MORE THAN ONE FUNCTION. WHEN ROWS ARE COMPLETE FOR THIS TYPE OF STAFF, ASK:)* Are there any other food service support functions or activities for this type of staff that we have missed? Are there any that we counted more than once?

*(REPEAT FOR EACH TYPE OF STAFF ON OFF-BUDGET STAFF ROSTER FOR WHOM A PROCESS GRID IS NEEDED.)*

That is the end Off-Budget District Staff Interview. We may contact you later if we have follow-up questions.

Those are all of my questions for you today. Thank you for taking the time to complete these interviews with me. Your participation is vital to the success of the School Nutrition and Meal Cost Study.

_Prepared by Mathematica Policy Research and Abt Associates_
Definitions for Support Function Cost Grid

**Programs** are activities or services, such as instruction and food service, that have identifiable direct costs. These direct costs may be charged to grants or other special-purpose accounts, or to the school district’s general fund.

**Indirect costs** are overhead-type costs that benefit the organization as a whole, such as the costs of human resources, accounting, payroll, and facilities maintenance units. *(See instructions in SFA Indirect Cost Questionnaire for the following.)* For the purposes of this study, the indirect costs for your school district are those that are included in the [indirect cost rate/other cost allocation plan].

The support functions are defined as follows:

**“Accounting, budget, finance, and payroll”** includes tasks to process payments to and from the school district, maintain financial records, manage cash, and produce financial reports.

**“Data processing operations and programming”** includes all support for mainframe, server, and client computers, and for communications networks (voice and data).

**“Administration of personnel, benefits, and human resources”** includes recruiting, hiring, enrollment/disenrollment in benefit plans, and other human resource (HR) administration functions. This does not include the costs of non-HR personnel or the cost of employee benefits (health/dental insurance, pension/retirement, tuition assistance etc.).

**“Purchasing and contracting”** includes solicitation and review of bids for purchases and contracts, preparation and negotiation of purchasing agreements and contracts, processing purchase requests and purchase orders, and managing contracts (other than processing of contractor invoices).

**“General administration and policy”** includes the Superintendent, School Board, support staff assigned to the school board, and other administration not listed elsewhere.

**“Custodial and janitorial”** means routine cleaning, storage, setting up/rearranging furniture, and other work performed by staff or contractors whose primary work is routine cleaning, storage, and setting up/rearranging furniture.

**“Building operations and maintenance”** means services of this type not provided by custodial/janitorial staff, particularly more skilled services (such as heating/ventilation/air conditioning maintenance or repair).

**“Equipment and vehicle operations and maintenance”** includes management of motor pools, routine maintenance and repair of vehicles, and routine maintenance and report of equipment.

**“Refuse disposal, pest control, other sanitation”** refers to when these services are not performed as part of “custodial and janitorial” or “building operation and maintenance” services.

**“Security”** includes tasks to ensure the safety of students, district personnel, and district property.

**“Storage and transportation of goods”** refers to when these services are not performed as part of “custodial and janitorial” or “building operation and maintenance” services.

**“Providing and maintaining uniforms”** includes obtaining, distributing, and cleaning uniforms for district personnel.

**“Medical/health services and supplies”** refers to school-based health services such as a school nurse, traditional first aid, administration of medications, screening services (vision, hearing), counseling, mental health services, etc.
### Handout 4: Food Service Function List for Off-Budget Staff Allocation Grid

**Column**

**9. Breakfast Production**
- 9a. Making ready, preparing and serving food.
- 9b. Collecting money, meal tickets, or other payments at breakfast.
- 9c. Cleaning up after breakfast (kitchen and serving area).
- 9d. Any other work that involves direct production for breakfast.
- 9e. Supervising students during meals

**10. Lunch Production**
- 10a. Making ready, preparing and serving food.
- 10b. Collecting money, meal tickets, or other payments at lunch.
- 10c. Cleaning up after lunch (kitchen and serving area).
- 10d. Any other work that involves direct production for lunch.
- 10e. Supervising students during meals

**11. Breakfast and Lunch Production**
- 11a. Making ready, preparing and serving food for both breakfast and lunch.
- 11b. Collecting money, meal tickets, or other payments for both breakfast and lunch (if done at the same time).
- 11c. Cleaning up after breakfast and lunch (if done at the same time).
- 11d. Any other work that involves direct production for both breakfast and lunch.

**12. Fresh fruit and vegetable program (FFVP)/After-school Snack Production**
- 12a. Making ready, preparing and serving foods for snacks.
- 12b. Collecting money, meal tickets, or other payments for snacks.
- 12c. Cleaning up after snacks (kitchen and serving area).

**13. Other Meal Production**
- 13a. Making ready, preparing and serving or shipping catered meals (for special dinners at school, Meals on Wheels, senior citizen centers, Head Start or other child care programs, etc.).
- 13b. Any other work that involves direct production for meals other than breakfast, lunch, and FFVP/after-school snacks.

**14. Nutrition education and promotion (includes messages about healthy eating and participating in school meals)**
- 14a. Placing displays, banners, or other visual messages in school facilities
- 14b. Demonstrations or events to promote healthy eating
- 14c. Distributing materials to students or parents (newsletters, recipes, etc.)
- 14d. Training for school personnel for nutrition education/promotion
- 14e. Meetings of teams or advisory groups to plan and assess nutrition education/promotion activities (at school or elsewhere)
- 14f. Planting, maintaining, and harvesting school gardens
- 14g. Involving students in planning the menu, naming menu items, or taste-testing new items
14h. Nutrition education/promotion activities included in classroom curricula
14i. Developing and monitoring school wellness policies
14j. Other activities related to Team Nutrition, Healthier US School Challenge, or other Federal/State nutrition education/promotion programs

15. **Foodservice Administration**
   15a. Accounting, budget, finance, and payroll
   15b. Data processing operations and programming
   15c. Administration of personnel, benefits, and human resources
   15d. Purchasing and contracting
   15e. General administration and policy
   15f. Food service management and administration:
       15f.1 Menu planning and nutritional analysis.
       15f.2 Maintaining student payment accounts for meals.
       15f.3 Preparing and distributing applications for free/ reduced-price meals.*
       15f.4 Obtaining and processing data for direct certification.
       15f.5 Processing applications for free/reduced-price meals.*
       15f.6 Selecting verification sample from applications for free/reduced-price meals.*
       15f.7 Conducting verification of applications for free/reduced-price meals.*
       15f.8 Updating student certification status and records.
       15f.9 Counting and claiming reimbursable meals

16. **Other Non-Production Activities**
   16a. Custodial, janitorial, building operations, and maintenance of facilities i.e., cleaning and maintenance of buildings and other fixed assets used in food service (kitchens, warehouse space, and administrative space).
   16b. Food service equipment maintenance.
   16c. Maintenance and operation of vehicles and other equipment used in storage and transportation.
   16d. Refuse disposal, pest control, security, and other services related to buildings and other fixed assets used in food service.
   16e. Storage and transportation of goods:
       16f.1 Preparing and loading deliveries of food and supplies from a central storage point to production sites.
       16f.2 Transporting food and supplies to production sites.
       16f.3 Transporting prepared food from production kitchens to satellite kitchens.
   16d. Providing and maintaining uniforms
   16e. Medical/health services and supplies

---
* Only include applications for Free/Reduced Price Meals. CEP and Provision 2/3 districts and schools should not include alternate forms, which may resemble applications but are not used for Free/Reduced Price Meal or Provision 2/3 eligibility.
INTRODUCTION

Thank you for participating in the School Nutrition and Meal Cost Study. The purpose of this interview is to obtain information about the time and costs spent by staff of this school in support of the school meals programs. Should you have any questions about this study, please call 855-####-#### at Abt Associates, Inc.

About the Study. The School Nutrition and Meal Cost Study (SNMCS) will continue the long-standing commitment of the US Department of Agriculture’s (USDA’s) Food and Nutrition Service (FNS) to periodic assessment of the school meal programs. This current assessment coincides with a period of considerable change for the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). In recent years, schools participating in these programs implemented sweeping regulatory changes designed to increase children's access to healthy foods at school and to promote adoption of healthy eating and physical activity habits. While FNS has conducted multiple studies of school nutrition and meal costs to date, SNMCS is the first such study after these major changes were implemented and the first to explore both nutrition and cost on a large national scale. This study will provide critical information of interest to USDA, the States, School Food Authorities (SFAs), and other program stakeholders that is not currently available.
The USDA Food and Nutrition Service (FNS), has contracted with Mathematica Policy Research and its research partners Abt Associates, Agralytica, and Relyon Media to conduct the SNMCS for SY 2014-2015. Participation in the study by selected states, districts, and schools is required under Section 305 of the Healthy, Hunger-Free Kids Act of 2010 (HHFKA).

SNMCS will collect a broad range of data from nationally representative samples of public SFAs, schools, and students and their parents during SY 2014-2015. These data will provide Federal, State, and local policymakers with needed information about how federally sponsored school meal programs are operating after implementation of the new meal pattern and nutrient requirements and other changes in regulations. Comparisons of results from SNMCS with previous School Nutrition and Dietary Assessment (SNDA) and School Lunch and Breakfast Cost (SLBC) studies will provide information to assess the effects of the new nutrition standards on food service operations, the nutrient content of school meals offered and as served, meal costs and revenues, and student participation and dietary intake.

Protecting Privacy. All information gathered from school districts, schools, and households is for research purposes only and will be kept private to the full extent allowed by law. Responses will be grouped with those of other study participants, and no individual schools, districts, or students will be identified. We will inform parents of the study and our privacy practices. Any selected parent or student can choose not to participate in the study. We are not conducting audits or monitoring visits. Participation in the study will not affect meal reimbursements to participating districts and schools or school meal program benefits to participating households.
1. Please refer to the list of Food Service Activities That May Involve Non-Food Service Staff. This list identifies food service-related activities that may be done entirely or in part by school staff who are not food service staff. Please tell me which of these activities involve you or other staff of this school, excluding employees of the food service department. *(If necessary, say:) We’ll go into the details of what you do later. For now, just tell me whether the school performs any activities that fall under the main categories on the list. *(Check one response for each activity.)*

2. Are there other food service activities that I have not listed in which you or your staff are involved? If so, please describe these activities.

a.  _______________________________________________________

b.  _______________________________________________________

c.  _______________________________________________________

d.  _______________________________________________________
**Note to interviewers:** The purpose of this interview is to find out what kinds of employees are involved and how much time they spend on each activity and task using the Staffing and Time Grids. Once the Staffing and Time Grids are completed, you will write all the titles/positions you have captured on this form in column (1) of the School Administrative Staff Roster. This roster will then be given to the SFA Director or the Business Manager to complete with salary and hours worked information.

**To respondents:** You have just identified activities for the school meals programs that non-food service staff in your school perform. I want to find out how much time the staff in your school spends each year for each of these activities. The reference period is the program year July 2014 – June 2015, so you will need to base your responses on your experience from July 2014 through the present, and your best estimate for the period from now through June 2015.

3. Before we turn to the Grids, please tell me how many weeks your school will be in session during the year? Please exclude breaks of a week or longer.
   
   ________ weeks    or    ________ days

4. How many hours per school day does a typical salaried administrative staff person in your school work?
   
   ________ hours/day

For each general activity that you have identified, I will ask you questions about specific tasks that are related. Here is a handout with the questions that I will ask you for each task. *(Read through the Principal Cost Interview Guide Handout)*. Do you have any questions before we start?
Instructions script for school principal

Now, let’s start with (read first circled activity in Question 1 and go to the handout for this activity). The first task for this activity is (read task 1 description on handout for this activity.) Does any school staff member do this task? Do not include school foodservice staff. (If yes, write task number and name in column a. Complete columns b-d for each task that staff perform.)

Complete the Staffing and Time Grid for each activity identified in Question 1. If the respondent does not know what types of employees do a task, or how many of a type, or how much time it takes to do a task – write “DK” in all relevant columns.

For each task you list in column a, ask Questions B-D to obtain time estimates. Start with asking for an estimate of hours per week. If the respondent is unable to provide an estimate in terms of hours per week, then try to get an estimate for some other time period like day, month, or year. When the respondent can only provide time estimates for a set of combined tasks, write the task numbers that are being combined in column a, and then fill out the appropriate time estimate in columns c and d.

(After completing all tasks for each activity:) Have I left out a task for this activity? (If yes) Please tell me what it is, and what type of staff does it. (write task description in column a, assign Activity letter, and complete columns b-d, using the questions in the column headings.)

(When all Staffing and Time Grids are complete, ask:) Are there any other activities related to the school meals programs that you do that we have missed? Are there any that we counted more than once? (Follow script to identify missing tasks after the Staffing and Time Grids. Then complete Staff Roster Checklist.)
School Nutrition and Meal Cost Study
Principal Cost Interview Guide Handout

1. Does any employee of this school (other than food service workers) perform this task?

2. What types of employees do this task (i.e., title, position, etc.)?

3. How many employees of this type do this task?

4. How many hours per week does each person of this type spend on this task? For how many weeks per year?
   - If more than one type of employee does this task, please tell me how many hours per week each person of the type(s) spends on this task. So the total time will be the time per person multiplied by the number of employees of this type.
   - It is best if you can provide the estimate of hours per week, and number of weeks per year. Usually the number of weeks is the length of the school year, unless the task happens outside of the school year.

If not per week, is this time per day, per month, or per year? For how many days or months?
   - Here are some other ways to estimate the time:
     - If a task is done each day during the school year, take the time per day and multiply by the average number of days per week to get an estimate of the number of hours per week the type of person spends on the task.
     - If a task is done on a monthly basis, please tell me the hours per month and the number of months per year.
     - If the task is done once per year or infrequently, you can tell me the number of hours each employee of this type spends per year.
     - If the task is performed for different amounts of time at various points during the year, tell me how many hours each person spends on the task separately for each time period.
       - Example: An employee spends 30 hours per week processing school meals applications in the month before the start of school and 5 hours per month for the 9 months of the school year. Tell me the time for the first month and then the time for the other 8 months.

   - Provide the time period that goes with the number of hours spent on the task.

What we need to know is how much time each type of employee spends on each activity including all of the tasks that they do. It’s OK to combine tasks when providing time estimates if that’s easier.
Food Service Function List for School Staff

Food Service Activities That May Involve Non-Food Service Staff

**Activity A:** Distributing and processing applications for free or reduced price meals
- A1. Distributing applications (i.e. printing, mailing, handing out at meetings)
- A2. Communications about applications for free/reduced price meals (newsletters, public service announcements, web site postings, speaking to parent groups or community organizations, contacting individual parents etc.)
- A3. Maintaining and providing support for online applications
- A4. Collecting and checking applications, resolving problems, and adding school information
- A5. Approving/rejecting applications and notifying parents
- A6. Compiling lists of eligible students
- A7. Updating lists to include transfers and other changes

**Activity B:** Direct certification and other certification from lists
- B1. Direct certification of students for free meals using program data (SNAP/Food Stamps, TANF/welfare, Medicaid, or other)
  - B1.a. Processing batches of students
  - B1.b. Lookups for individual students
- B2. Other certification of students for free meals from lists (foster children, homeless, migrants, Head Start, etc.)
  - B2.a. Certification from Homeless List
  - B2.b. Certification from Head Start List
  - B2.c. Certification from foster care list
  - B2.d. Certification from other lists (runaways, migrants)
- B3. Reporting on direct certification, calculating the identified student percentage (ISP) for school

**Activity C:** Verifying income of free/reduced price students
- C1. Selecting applications for verification
- C2. Sending out requests for proof of eligibility, answering questions
- C3. Verifying applications using SNAP/Food Stamp, TANF/welfare, or Medicaid information (direct verification)
- C4. Reviewing information provided by parents, verifying eligibility, and following up on missing information
- C5. Notifying parents of changes in eligibility
- C6. Reporting on verification

**Activity D:** Cleaning food service areas and other custodial services
- D1. Clean-up in kitchen area (dishes, trays, garbage, etc.)
- D2. Maintenance and repairs of facilities and equipment
Food Service Activities That May Involve Non-Food Service Staff (continued)

Activity E: Management of cafeteria personnel
   E1. Hiring new staff
   E2. Performance reviews or evaluations
   E3. Resolving personnel problems

Activity F: Supervising students during meals
   F1. Supervising students during breakfast
   F2. Supervising students during lunch
   F3. Supervising students during after-school snacks

Activity G: Menu planning and other policy decisions
   G1. Menu planning (routine, special occasions)
   G2. Setting meal schedules
   G3. Other policy decisions regarding school foodservice (for example, availability of a la carte items)

Activity H: Ordering, storing and transporting food (Includes only food purchased with foodservice funds)
   H1. Receiving deliveries of food and/or supplies, other “heavy lifting”
   H2. Picking up food and/or supplies at storage sites
   H3. Stocking vending machines or school store with food

Activity I: Collecting meal payments
   I1. Collecting money at meals
   I2. Collecting money owed for meals
   I3. Collecting money from cafeterias
   I4. Receiving money for student meal payment accounts or selling meal tickets
   I5. Depositing money for meals or meal tickets
   I6. Selling meal tickets
   I7. Issuing meal payment cards or ID/PIN numbers (other than regular student ID/PIN)
   I8. Maintaining student meal payment accounts
   I9. Reconciling deposits to bank statements

Activity J: Counting and claiming reimbursable meals
   J1. Compiling meal counts for breakfast
   J2. Compiling meal counts for lunch
   J3. Compiling meal counts for after-school snacks
   J4. Reporting on meal counts
   J5. Submitting meal claims to State
Food Service Activities That May Involve Non-Food Service Staff (continued)

**Activity K**: Nutrition education and promotion (includes messages about healthy eating and participating in school meals)

K1. Placing displays, banners, or other visual messages in school facilities  
K2. Demonstrations or events to promote healthy eating  
K3. Distributing materials to students or parents (newsletters, recipes, etc.)  
K4. Training for school personnel for nutrition education/promotion  
K5. Meetings of teams or advisory groups to plan and assess nutrition education/promotion activities (at school or elsewhere)  
K6. Planting, maintaining, and harvesting school gardens  
K7. Involving students in planning the menu, naming menu items, or taste-testing new items  
K8. Nutrition education/promotion activities included in classroom curricula  
K9. Other activities related to Team Nutrition, Healthier US School Challenge, or other Federal/State nutrition education/promotion programs  
K10. Local Wellness Policy development and monitoring

Script to identify missing tasks

(Look at Question 2 responses first and follow “Instructions to interviewer” below, for each task listed. Then ask if there are any additional tasks using the prompt below.)

Are there other tasks related to the school meals programs that I have not listed in which you or your staff are involved?

(IF YES, ask) What tasks have we left out?
(IF NO, proceed to Staff Roster Checklist)

Instructions to interviewer: Write the identified missing tasks and the letter for the appropriate Activity for the task (A-K) in the next blank space in the Staffing and Time Grid. Make sure that the task has not already been previously listed. Then, fill in the applicable staff type, number of staff, time per period, and periods per year.
Note to interviewers: When you have completed the Staffing and Time Grid, you will need to copy all the title/positions listed in this interview onto the School Administrative Staff Roster. Be sure to copy each title/position once, and list it with the exact text and phrasing you used in this interview. In the end, we need to link the hours listed above to the salary for that position.

STAFF ROSTER CHECKLIST

Verify the following information for each roster. Check OK or Follow Up in the Column on the left.

☐ There is an entry on the roster for each type of employee on mentioned in the Staffing and Time Grid. If needed, add any staff types not already listed on Roster.

☐ Every type of employee referenced on the salary roster is included on at least one staffing grid.

The School Administrative Staff Roster should now be given to either the SFA Director, or Business Manager to complete with salary and hours worked information.

INTRODUCTION

Thank you for participating in the School Nutrition and Meal Cost Study. Please review and complete this package in preparation for our site visit to collect data about school meal program costs. Should you have any questions about this study, please call (855) ###-#### at Abt Associates Inc.

About the Study. The School Nutrition and Meal Cost Study (SNMCS) will continue the long-standing commitment of the US Department of Agriculture’s (USDA’s) Food and Nutrition Service (FNS) to periodic assessment of the school meal programs. This current assessment coincides with a period of considerable change for the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). In recent years, schools participating in these programs implemented sweeping regulatory changes designed to increase children’s access to healthy foods at school and to promote adoption of healthy eating and physical activity habits. While FNS has conducted multiple studies of school nutrition and meal costs to date, SNMCS is the first such study after these major changes were implemented and the first to explore both nutrition and cost on a large national scale. This study will provide critical information of interest to USDA, the States, School Food Authorities (SFAs), and other program stakeholders that is not currently available.
The USDA Food and Nutrition Service (FNS), has contracted with Mathematica Policy Research and its research partners Abt Associates, Agralytica, and Relyon Media to conduct the SNMCS for SY 2014-2015. Participation in the study by selected states, districts, and schools is required under Section 305 of the Healthy, Hunger-Free Kids Act of 2010 (HHFKA).

SNMCS will collect a broad range of data from nationally representative samples of public SFAs, schools, and students and their parents during SY 2014-2015. These data will provide Federal, State, and local policymakers with needed information about how federally sponsored school meal programs are operating after implementation of the new meal pattern and nutrient requirements and other changes in regulations. Comparisons of results from SNMCS with previous School Nutrition and Dietary Assessment (SNDA) and School Lunch and Breakfast Cost (SLBC) studies will provide information to assess the effects of the new nutrition standards on foodservice operations, the nutrient content of school meals offered and as served, meal costs and revenues, and student participation and dietary intake.

**Protecting Privacy.** All information gathered from school districts, schools, and households is for research purposes only and will be kept private to the full extent allowed by law. Responses will be grouped with those of other study participants, and no individual schools, districts, or students will be identified. We will inform parents of the study and our privacy practices. Any selected parent or student can choose not to participate in the study. We are not conducting audits or monitoring visits. Participation in the study will not affect meal reimbursements to participating districts and schools or school meal program benefits to participating households.
Instructions to Interviewers for Completing the School Nutrition Manager Cost Interview

Review introduction with School Nutrition Manager before proceeding with interview.

Step 1: Complete The Kitchen Staff Time Allocation Grid.

Introduction:

I want to find out how much time the people who work in this kitchen spend on preparing meals and other foodservice activities. We will do this by completing a “time ladder” that represents the staff’s daily schedules. It may help if you have access to the schedules or time cards for the staff.

General instructions: The allocation grid represents a schedule of all foodservice staff in the school, i.e. an arrangement of staff across tasks over time for one day. You will collect this information for the prior week (five working days). This is the reference week. If Monday was a holiday then use the schedule for the most recent Monday that was a working day (similarly for any other weekday that was a holiday). Thus, you will complete Kitchen Staff Time Allocation Grids for five days for each school visited. Begin by completing one form for the first day of the reference week. This will be the reference day for completing the grids for the other four days.

Step by step instructions for completing the grid:

1. **Header.** Record the contact information. Circle the day of the reference week.

   When did the first staff member arrive on [reference day], and when did the last staff member leave? (Record opening and closing times.)

2. **Schedule 1.** (Record School Nutrition Manager’s title in first column of grid.) Let’s start with your work schedule on [reference day].

   a) When did you start work? At this time, which of the activities listed on the handout did you start working on?

      Show the FSM the Definitions of Activities for Kitchen Staff Time Allocation Grids and record the activity code in the cell for the start work time.

   b) When did you finish this activity?

      Draw a vertical arrow through the cells (going down the column) to indicate the duration of time spent on that activity.

   c) Which of the activities did you do next, and when did you finish this?

      Enter the code for this activity in the cell for the activity start time and draw a vertical arrow down to the time this activity ended.

   d) Continue with this process until the School Nutrition Manager’s whole day is mapped out. Leave the Total for the Day rows blank.
3. **Schedules 2-5.** Next, ask the School Nutrition Manager about the other kitchen staff –

   a) Are there any kitchen staff that have an identical schedule on this day? In other words, are there kitchen staff who worked on the same activities for the same time periods?

   If yes, then record each unique title in a separate column, complete the schedule for the first title, and write the code SAP = Same as Previous for the other titles that share the same schedule for that day.

   b) On [reference day] were there any other kitchen staff or groups of staff with the same title that shared a schedule of activities different from the schedule we just created?

   If yes, follow the same procedure of recording unique titles in each column, completing the shared schedule for the first title and then enter the code SAP = Same as Previous for the other titles that share that schedule for the day.

4. Repeat the process until all of the kitchen staff are accounted for on the reference day. If there are more than five distinct staff schedules or staff categories present for the reference day, start another page and mark “Page 2” in the upper right corner. Note that there may be individual staff that do not share a work schedule with any other staff. In such cases each person has a separate column with “1” entered for Number of People. Use additional pages if needed. Note that if a worker did more than one activity during a time interval of 30 minutes or more, determine the approximate amount of time spent on the two tasks during the time. If an activity took less than 8 minutes of the time interval, disregard it.

5. **Other Days of the Week.** Was the schedule for all personnel for the day after the [reference day] the same?

   If so, circle the day at the top. If not, start a new form for that day. Repeat the process until you have accounted for all days of the Target Week.

**Review**

- If there seems to be activity that is inappropriate for a Title/Position, verify that you have recorded the time under the correct activity and note this on the grid.
- Make certain that you have accounted for all of the time for each Title/Position from the start of the day until they leave. There should be no gaps in the time ladder. Ask for an explanation for any gap and correct the grid if needed.
Step 2: Fill out the Cafeteria/Kitchen Staff Roster.
Complete the Cafeteria/Kitchen Staff Roster columns (1), (2) and (7) with the School Nutrition Manager after the Time Allocation Grid is complete.

1. Copy the Title/Position and Number of People from the first column of the Time Allocation Grid to the first row of the Cafeteria/Kitchen Staff Roster. **NOTE:** the Title/Position, Number of People and order must match exactly between the Time Allocation Grid and the Roster - as these two need to be linked in analysis.

2. Ask the School Nutrition Manager:

   **What percent of this person’s time is spent on foodservice activities?** (if needed) please include all types of meals and non-production tasks related to foodservice operations. Record this percent in the last column of the roster, column (7) Foodservice Percent.

Repeat this process creating a new row on the Roster for each Title/Position column in the Time Allocation Grid.

**Review**
- Make certain that the total number of staff on the grids is equal to the total number of staff on the Cafeteria/Kitchen Staff Roster.
- Give the Cafeteria/Kitchen Staff Roster to the SFA Director or the Business Manager to complete.

Definitions of Activities for Kitchen Staff Time Allocation Grids

1. **Breakfast Production**
   - Producing foods for breakfast
   - Cleaning up production area after breakfast

2. **Breakfast Serving**
   - Serving breakfast
   - Collecting money, meal tickets, or other payments for breakfast
   - Cleaning up serving area and cafeteria during/after breakfast

3. **Lunch Production**
   - Producing foods for lunch
   - Cleaning up production area after lunch

4. **Lunch Serving**
   - Serving lunch
   - Collecting money, meal tickets, or other payments
   - Cleaning up after serving area and cafeteria during/after lunch

5. **Breakfast and Lunch Production**
   - Producing foods for both breakfast and lunch (such as baking foods offered at break and lunch)
   - Cleaning up production area after both breakfast and lunch

6. **Breakfast and Lunch Serving**
   - Serving foods offered for both breakfast and lunch at the same time
   - Collecting money, meal tickets, or payments for both breakfast and lunch
   - Cleaning serving area or cafeteria after both breakfast and lunch

7. **Snack Production**
   - Producing foods for FFVP or after-school snacks
   - Collecting money, meal tickets, or other payments for snacks
   - Cleaning production area after snacks

8. **Snack Serving**
   - Serving FFVP or after-school snacks
   - Cleaning up serving area and cafeteria after snacks

9. **Other Meal Production**
   - Producing meals other than breakfast, lunch, or FFVP/after-school snacks (such as special events, catered meals produced for other facilities, or other meals not counted as reimbursable meals by this SFA)
   - Includes cleaning up production area after preparing these meals

10. **Other Meal Serving**
    - Serving meals other than breakfast, lunch, or FFVP/after-school snacks (such as special events, catered meals produced for other facilities, or other meals not counted as reimbursable meals by this SFA)
    - Includes cleaning up serving area and cafeteria after these meals
11. **Nutrition education and promotion**
   - Activities to promote healthy eating and participation in school meals
   - Includes related communications, events, planning, and training
   - Also includes development and monitoring of school wellness policies

12. **Foodservice Administration**
   - Preparing, distributing and processing applications
   - Conducting income verification
   - Updating student status and records
   - Ordering and purchasing food and supplies
   - Planning, budgeting and management for foodservice program
   - Menu planning and nutritional analysis
   - Record keeping, accounting and data processing for foodservice program.

13. **Other Non-Production Activities**
    - Cleaning, maintenance, and security of foodservice space and equipment
    - Receiving, storing and/or transporting food and supplies
    - Maintenance of vehicles and other equipment used in storage and transportation.

*Prepared by Mathematica Policy Research and Abt Associates*
School Nutrition and Meal Cost Study

Follow-Up SFA Director and Business Manager Cost Interview

Includes the following instruments:

Foodservice Expense Statement Follow-Up
Foodservice Revenue Statement
Foodservice Indirect Cost Questionnaire Follow-Up

Sponsored by:
U.S. Department of Agriculture
Food and Nutrition Service
About the Study. The School Nutrition and Meal Cost Study (SNMCS) will continue the long-standing commitment of the US Department of Agriculture’s (USDA’s) Food and Nutrition Service (FNS) to periodic assessment of the school meal programs. This current assessment coincides with a period of considerable change for the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). In recent years, schools participating in these programs implemented sweeping regulatory changes designed to increase children’s access to healthy foods at school and to promote adoption of healthy eating and physical activity habits. While FNS has conducted multiple studies of school nutrition and meal costs to date, SNMCS is the first such study after these major changes were implemented and the first to explore both nutrition and cost on a large national scale. This study will provide critical information of interest to USDA, the States, School Food Authorities (SFAs), and other program stakeholders that is not currently available.

SNMCS will collect a broad range of data from nationally representative samples of public SFAs, schools, and students and their parents during SY 2014-2015. These data will provide Federal, State, and local policymakers with needed information about how federally sponsored school meal programs are operating after implementation of the new meal pattern and nutrient requirements and other changes in regulations. Comparisons of results from SNMCS with previous School Nutrition and Dietary Assessment (SNDA) and School Lunch and Breakfast Cost (SLBC) studies will provide information to assess the effects of the new nutrition standards on foodservice operations, the nutrient content of school meals offered and as served, meal costs and revenues, and student participation and dietary intake.

Protecting Privacy. All information gathered from school districts, schools, and households is for research purposes only and will be kept private to the full extent allowed by law. Responses will be grouped with those of other study participants, and no individual schools, districts, or students will be identified. We are not conducting audits or monitoring visits. Participation in the study will not affect meal reimbursements to participating districts and schools or school meal program benefits to participating households.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 195 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
School Foodservice Expense Statement

1. CHECK ONE BASED ON INFORMATION PROVIDED IN ADVANCE AND PRE-RECORD TOTALS FOR EXPENSE CATEGORIES A-E ON THE FOODSERVICE EXPENSE STATEMENT WORKSHEET:

☐ 2014-2015 FISCAL YEAR EXPENSE REPORT TO STATE CHILD NUTRITION AGENCY PROVIDED

☐ 2014-2015 FISCAL YEAR EXPENSE STATEMENT FOR SCHOOL FOODSERVICE ACCOUNT FROM DISTRICT FINANCIAL STATEMENTS PROVIDED

At this time I want to review your SFA’s statement of foodservice expenses for the 2014-2015 Fiscal Year.

2. Please confirm what period the final expense statement covers.

PERIOD COVERED BY STATEMENT: _____/_____/____ to _____/_____/____

INTERVIEWER: REVIEW HIGHLIGHTED PHASE II EXPENSE STATEMENT AND FOLLOW-UP QUESTIONNAIRE, AS WELL AS THE LIST OF QUESTIONS FROM THE ABT ABSTRACTOR. ASK RESPONDENT FOR CLARIFICATION OR FINAL AMOUNTS ONLY FOR QUESTIONS FLAGGED BY ABSTRACTOR.
I have some questions to understand how the expenses are reported. I’ll start with Labor and then ask about non-labor expenses.

QUESTIONS FOR MAJOR CATEGORY E: FOOD

E1. What is the total cost for purchased food for FY 2014-2015?

$__________________________

E2. Was the expense for purchased food reported on a cash basis or an accrual basis?

Cash (CONTINUE TO E2a.) ............................................................... 1
Accrual (GO TO E3.) ................................................................. 2
Other How is purchased food reported? __________________________ 3

E2a. Is the change in the value of the purchased food inventory over the year reported on this expense statement or on a separate document?

YES, ON THE STATEMENT (CONTINUE TO E2a.1) ..................... 1
YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT and CONTINUE TO E2a.1) ......................................................... 2
NO, IT IS NOT REPORTED (GO TO E3) ........................................ 3

E2a.1 What is the change in value of the purchased food inventory received over the 2014-2015 fiscal year?

Starting Inventory Value $_________ and Ending Inventory Value $ ________

OR

Change in Value $__________________________

⇒ GO TO E3.

E3. Were there any unreported costs for purchased food?

YES (CONTINUE TO E3a) ............................................................... 1
NO (GO TO E4.) ......................................................................... 2

E3a. What is the estimated value of unreported costs for purchased food for FY 2014-2015?

$__________________________

E4. Does this SFA receive USDA foods (also known as donated commodities)?

YES (CONTINUE TO E5) ............................................................... 1
NO (GO TO NEXT SECTION: FRINGE RATE BENEFIT CHART) .......... 2
E5. Does the expense for purchased food include the value of USDA foods received by the SFA?

YES (GO TO E6.) .......................................................... 1
NO (CONTINUE TO E5a.) ................................................... 2

E5a. Is the value of USDA foods received by the SFA reported on the expense statement or on a separate document?

YES, ON THE STATEMENT (CONTINUE TO E5a.1) ....................... 1
YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT and 
CONTINUE TO E5a.1) .............................................................. 2
NO, IT IS NOT REPORTED (GO TO E6.) .................................... 3

E5a.1 What is the total value of USDA foods (cost of USDA foods) received by the SFA?

$___________________________

E6. Does the expense for purchased food include storage, transportation, or processing of USDA foods (also known as donated commodities) received by the SFA?

YES (GO TO E7.) .................................................................. 1
NO (CONTINUE TO E6a.) ..................................................... 2

E6a. Are the expenses for storage, transportation, and processing of USDA foods reported on the expense statement or on a separate document?

YES, ON THE STATEMENT (CONTINUE TO E6a.1) ....................... 1
YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT AND 
CONTINUE TO E6a.1) .............................................................. 2
NO, IT IS NOT REPORTED (GO TO E7.) .................................... 3

E6a.1 What are the expenses for storage, transportation, or processing of USDA foods?
[BEFORE RECORDING TOTAL, MAKE SURE YOU ARE NOT DOUBLE COUNTING AMOUNT IN B13 AND B14]

$________________________

E7. Is the expense for USDA foods reported on a cash basis; that is, does it represent the value of USDA foods received during the period, or is the expense for USDA foods reported on an accrual basis (that is, representing the value of the food used during the period regardless of when it was purchased)?

CASH (CONTINUE TO E7a.) ..................................................... 1
ACCRUAL (CONTINUE TO NEXT SECTION: FRINGE RATE BENEFIT CHART) 2
OTHER How are USDA foods reported? ____________________________ ....... 3
E7a. Is the change in USDA foods inventory reported on the expense statement or on a separate document?

YES, ON THE STATEMENT (CONTINUE TO E7a.1) ................................... 1
YES, ON A SEPARATE DOCUMENT (COLLECT DOCUMENT and CONTINUE TO E7a.1) ....................................................................... 2
NO, IT IS NOT REPORTED (GO TO NEXT SECTION: FRINGE RATE BENEFIT CHART) ................................................................. 3

E7a.1 What is the change in value of the USDA food inventory received over the 2014-2015 fiscal year?

Starting Inventory Value $__________ and Ending Inventory Value $ ___________

OR

Change in Value $ _____________________
Fringe Benefit Rate Chart In the previous interview, you provided information on your SFA’s fringe benefit rates for FY 2014-2015. I would now like to confirm or update the information you gave us about your fringe benefit rates.

If necessary: The fringe benefit rate is the amount your district paid in employee benefits and employer paid taxes as a percentage of payroll. Benefits and taxes include: the employer’s share of payroll taxes such as FICA and unemployment taxes; the employer paid portion of health, dental, vision, life and other insurance; and employer contributions to retirement/pensions. For foodservice staff, the fringe rate should include both the share of benefits that is charged to the SFA (School Foodservice Authority) account and any benefits that are paid by the district with other funds (for example, if a portion of retirement funds is paid by the district).

For example: If the district pays $1 million in payroll and $300,000 in benefits and taxes, the fringe rate is 30%.

We are interested in an average fringe rate, either the rate used for budgeting or calculated from the last year. You may report a single rate for all employees, or give more specific rate based on type of employee (i.e. full benefits, partial benefits, and no benefits).

Last year, you told us the fringe benefit rate for FY 2014-15 for [TYPE OF EMPLOYEE] in the [DEPARTMENT] was [PERCENT]. Is this correct? IF NO: What is the correct rate?

REPEAT FOR EACH COMBINATION OF EMPLOYEE TYPE (All, Regular, Partial Benefits, No Benefits) AND DEPARTMENT (Foodservice, School Personnel, and District-level Personnel). ENTER CORRECTED RATE OR CHECK “NO CHANGE” TO INDICATE ORIGINAL RATE IS CORRECT. IF THE RATE IS THE SAME FOR ALL DEPARTMENTS FOR A ROW, WRITE IN THE SAME RATE IN ALL COLUMNS. IF ONLY THE RATE FOR ALL EMPLOYEES IS AVAILABLE, FILL IN THE “All employees” ROW AND CHECK “DK” IN THE OTHER ROWS.

Handout 1: Definitions of Expense Categories

A. LABOR: Personnel costs, including salaries and wages, and fringe benefits and payroll taxes.
   - **Salaries and Wages**: Includes salaries and wages paid to regular and temporary or contract employees. Does not include fees paid to independent consultants.
   - **Fringe benefits and payroll taxes**: Includes the school foodservice share of the cost of health insurance, life insurance, pension or other retirement benefits, tuition assistance, dental insurance, meal allowances, or other non-cash employee benefits. Also includes the school foodservice share of payroll taxes or similar mandatory charges for Social Security, Medicare, Unemployment Compensation, and Workers’ Compensation insurance.

B. OTHER DIRECT OPERATING COSTS: Direct expenses for foodservice of an operational (recurring) nature, other than labor and food. Does not include capital outlays, depreciation, or indirect costs.
   - **Supplies and expendable equipment**: This category includes all types of supplies (other than food) used for all aspects of foodservice operations. Expendable equipment includes any type of equipment purchase that may be treated as an expense according to USDA and other applicable rules. Usually this is equipment with a cost below a specified dollar amount (such as $500).
   - **Utilities**: This category includes electricity, heating and cooking fuels, water, and sewer services.
   - **Rent**:
     7. **Equipment/vehicle rental**: This category includes expenses for rent of any type of school foodservice equipment or vehicles.
     8. **Storage space rental**: This category includes expenses for rent of facilities for storing food and foodservice supplies.
     9. **Other space rental**: This category includes expenses for rent of facilities for food preparation, serving, or foodservice administration.
   - **Contracted services/interagency payments**: This category includes all expenses for contracted or purchased services from private organizations or individuals, and payments to other agencies for specific services charged on a direct cost basis.
     10. **Professional services**: includes services provided by professionals, such as dietary/management consulting, training of staff, legal services, audits, etc.
     11. **Foodservice management company fees**: includes all payments to foodservice management companies other than reimbursement of expenses for labor and food. Examples include management or consulting fees, and cost of funds or profit. NOTE: (1) The purchase of complete meals prepared under contract to the SFA (“pre-plated meals”) or per-meal charges for meals prepared on-site should also be reported here; (2) If a foodservice management company bills a single amount to the SFA for all of its services, that amount should be reported here.
     12. **Repairs and maintenance of equipment**: includes repair, maintenance, and associated charges (e.g., parts) for foodservice equipment used in kitchens, cafeterias, storage facilities, and administrative offices.
     13. **Storage**: fees for storage on a contract basis and associated charges (such as loading/unloading of shipments)
     14. **Transportation**: charges for transportation of food, foodservice supplies, etc. on a contract basis.
     15. **Insurance and bond premiums**: includes payments for insurance of property and supplies, and liability insurance or bond. Does not include payments for insurance benefits to workers or workers’ compensation insurance.
     16. **Other services**: includes services not listed elsewhere, such as data processing, payroll processing, linen or laundry services, extermination, health inspections, etc.
   - **Miscellaneous direct operating costs**:
     17. **Communications**: includes telephone, fax, postage, courier services, and other communications costs.
     18. **Travel / miscellaneous**: This category includes all other costs directly identified as foodservice expenses. Examples of costs in this category are: mileage and other travel reimbursements, association memberships, and subscriptions.
C. EQUIPMENT PURCHASES AND DEPRECIATION COSTS: Includes equipment purchase and equipment depreciation.

- **Equipment purchase**: includes expenses for new or replacement equipment items considered capital equipment according to USDA and other applicable rules, based on their useful life and cost. Includes equipment for kitchens, cafeterias, storage facilities, transportation, and administration.

- **Equipment depreciation**: an annual charge equal to the purchase cost of capital equipment divided by the useful life of the equipment. Usually reported only under accrual accounting.

D. INDIRECT COSTS: costs shared among several SFA programs or functions, such as administrative support, occupancy, general-purpose supplies, and communications. Usually the indirect cost for foodservice, if reported, is computed by applying a percentage rate to specified types of direct costs, which may exclude food. The indirect cost should be the amount actually charged to the school foodservice account.

E. FOOD: Includes purchased food, donated commodities (a.k.a. USDA food), and charges for the transportation, storage, and processing of donated commodities.

- **Purchased food**: This is the value of purchased food used by the SFA, including purchased foods that have been made with donated USDA commodities as ingredients.

- **Value of USDA foods received**: This is the total USDA-assigned value of USDA donated commodities used by the SFA.

- **Storage and shipping fees**: This category includes charges from the State for the transportation, storage, and processing of USDA donated commodities.

- **Processing costs**: This category includes other charges (such as from contractors to the SFA) for the transportation, storage, and processing of USDA donated commodities.

- **Inventory used/loss**: The value of inventory of purchased food and donated commodities used or lost during the year, in addition to purchases or receipts.
Handout 2: Expense Items

A. LABOR

   Salaries and wages:
   1. Regular foodservice employees
   2. Other regular district employees
   3. Temporary employees

   Fringe benefits and payroll taxes:
   4. Social security taxes
   5. Unemployment compensation
   6. Worker’s compensation
   7. Health insurance
   8. Pension contributions
   9. Other benefits (life insurance, disability insurance, etc.)

B. OTHER DIRECT OPERATING COSTS

   Supplies and expendable equipment:
   1. Food production supplies and expendable equipment
   2. Transportation supplies (gas, grease, oil, tires, etc.)
   3. Office supplies and expendable equipment
   4. Other supplies and expendable equipment

   Utilities:
   5. Energy
   6. Other utilities (water, sewer)

   Rent:
   7. Equipment/vehicle rental
   8. Storage space rental
   9. Other space rental

   Contracted services/interagency payments:
   10. Professional services
   11. Foodservice management company fees, etc.
   12. Repairs and maintenance of equipment
   13. Storage
   14. Transportation
   15. Insurance and bond premiums
   16. Other services

   Miscellaneous direct operating costs:
   17. Communications
   18. Travel/miscellaneous
C. EQUIPMENT PURCHASES AND DEPRECIATION COSTS

*Equipment purchase:*
1. Kitchen equipment
2. Motor vehicles
3. Other equipment

*Equipment depreciation:*
4. Cafeteria/kitchen
5. Other

D. INDIRECT COSTS
1. Indirect cost for SY2014-2015
2. Indirect cost for prior year(s)

SCHOOL FOODSERVICE REVENUE STATEMENT

INTRODUCTION
In this part of the interview, we will discuss your SFA’s revenue statement for Fiscal Year 2014-2015, as part of the collection of data about school meal program costs.

The purpose of this interview is to walk through these documents and enter your SFA’s revenues correctly into our “School Foodservice Revenue Statement” form.

COMPLETING THE GRID

Let’s start with revenue from [MAIN CATEGORY].

The first/next category is [SUB CATEGORY]. Do you have any revenues in this category?

**IF YES:** What was the total revenue for this category in Fiscal Year 2014-2015?
RECORD DOLLAR AMOUNT IN GRID.

Where is that item listed on the statement?
ON STATEMENT, NOTATE CATEGORY NUMBER NEXT TO LINE ITEM(S).

**IF NO:** CHECK “Not Applicable” IN GRID.

**IF REPORTED IN ANOTHER CATEGORY:** In what other category(ies) is this revenue type included?
IN GRID, NOTATE CATEGORY NUMBER(S) IN WHICH THE REVENUE TYPE IS INCLUDED.

**IF THE REVENUE EXISTS BUT THE AMOUNT IS NOT AVAILABLE:** IN “Notes” COLUMN, WRITE “Present but not available”.

**IF THE RESPONDENT IS UNABLE TO GIVE THE FULL BREAKDOWN OF EACH REVENUE TYPE IN A CATEGORY, BUT THE TOTAL FOR THE CATEGORY IS AVAILABLE:** RECORD TOTAL ON CATEGORY TOTAL LINE (I.E. TOTAL STUDENT PAYMENTS) OTHERWISE, THERE IS NO NEED TO COLLECT TOTALS.

PROCEED TO NEXT CATEGORY. REPEAT QUESTIONS ABOVE.

</tbody>
</table>

*Credits* include rebates or other payments received from processors for USDA foods used to produce processed foods. Do not include discounts on processed foods made with USDA foods if the price paid is net of the discount for the value of USDA foods.

**USDA bonus foods** are considered those over and above entitlement foods. They are offered periodically, but only as they become available through agricultural surpluses. They are then offered to States on a fair-share basis, and do not count against a State's regular entitlement dollars.

***The grand total revenue for USDA foods includes value of USDA foods received, credit for USDA foods included on processed foods, and cash in lieu of USDA foods.
R3. Is your school district, or are any schools in your district, engaged in a “pouring rights” contract (that is, a long-term contract with a beverage company that establishes the company as the exclusive vendor for certain types of beverages in the district or in the school)? Count contracts for beverages sold in the cafeteria and other venues controlled by school foodservice (vending machines, snack bars, etc.).

IF YES: Is that district-wide, or only in some schools?

31. Other cash revenue (not specified elsewhere)
32. TOTAL OTHER CASH REVENUE
33. TOTAL CASH REVENUE (Total of lines 17, 21, 25, and 32)

G. USDA Foods and Other Donated Commodities

34. USDA entitlement foods received and credits*
35. USDA bonus foods**
36. Other donated commodities
37. TOTAL USDA FOODS AND OTHER DONATED COMMODITIES
38. GRAND TOTAL REVENUE (Total of Cash (line 33) and line 37)***

Notes

*Credits include rebates or other payments received from processors for USDA foods used to produce processed foods. Do not include discounts on processed foods made with USDA foods if the price paid is net of the discount for the value of USDA foods.

**USDA bonus foods are considered those over and above entitlement foods. They are offered periodically, but only as they become available through agricultural surpluses. They are then offered to States on a fair-share basis, and do not count against a State’s regular entitlement dollars.

***The grand total revenue for USDA foods includes value of USDA foods received, credit for USDA foods included on processed foods, and cash in lieu of USDA foods.

INDIRECT COST INTERVIEW SCREENER

1. INDIRECT COST QUESTIONNAIRE IN ONSITE BOOKLET #2 COMPLETED BEYOND PART 1 – SCREENER?
   □ YES ➤ CONTINUE TO QUESTION 1A
   □ NO ➤ GO TO END OF QUESTIONNAIRE

1a. INDIRECT COST QUESTIONNAIRE IN ONSITE BOOKLET #2 INDICATES THAT SFA HAS NO INDIRECT COST RATE OR INDIRECT COST ALLOCATION PLAN FOR FY 2014-2015.
   □ YES ➤ GO TO END OF QUESTIONNAIRE
   □ NO ➤ COMPLETE THIS INDIRECT COST QUESTIONNAIRE
PART 1 – CALCULATION OF INDIRECT COSTS FOR SCHOOL FOODSERVICE

The purpose of this questionnaire is to gather information from Business Managers or Chief Financial Officers of public school districts about how indirect costs are applied in the financial reporting for school foodservice. In this questionnaire, you will be asked to provide information on whether and how your school district charged and recovered its indirect costs for School Year 2014-2015 from the school foodservice account.

My first questions ask about the calculation of the indirect cost of school foodservice according to the method (if any) that your school district used to allocate indirect costs for School Year (SY) 2014-2015.

2a. A school district may calculate indirect costs even if it does not plan to charge or recover them.

For the 2014-15 school year, would you say the school district…

READ ALL. CHECK ONE.

☐ Has calculated foodservice indirect costs? [GO TO 3a.]
☐ Has not yet calculated foodservice indirect costs but plans to? [GO TO 3a.]
☐ Will not calculate foodservice indirect costs? [GO TO 2b.]
☐ or, has not decided yet? [GO TO PART 3, WHICH STARTS WITH 4a.]
☐ DON'T KNOW [GO TO 3a.]

2b. Please tell me if any of the following is a reason why your school district will not calculate indirect costs for the school foodservice account for school year 2014-2015. READ ALL. CHECK ALL THAT APPLY.

☐ School district has no method to calculate indirect costs for school foodservice?
☐ School district does not charge indirect costs to any grant or program?
☐ School district never charges the school foodservice account for indirect costs?
☐ School district did not know it was possible to charge indirect costs to the school foodservice account?
☐ The school foodservice account has insufficient funds?
☐ School district chose to bear the costs?
☐ School district uses a foodservice management company (FSMC) and the contract does not provide for recovery of indirect costs?
☐ School district was directed by the State or another agency not to calculate indirect costs for school foodservice? (PROVIDE NAME OF AGENCY)

☐ DON'T KNOW
☐ Any other reasons? (DESCRIBE)

GO TO END OF QUESTIONNAIRE.
3a. Did or will your school district exclude any direct costs from the foodservice direct cost base when it calculates indirect costs for school foodservice for school year 2014-2015?

Examples of costs that might be excluded from the direct cost base are costs that are unallowable under Federal rules and any costs that you are instructed by your State to exclude when computing foodservice indirect costs - such as capital expenditures.

☐ YES  ☐ NO [GO TO 3c.]  ☐ THIS AMOUNT HAD NOT YET BEEN DETERMINED [GO TO 3c.]  ☐ DON’T KNOW

3b. What is the total direct cost base that you used or plan to use for calculating the school foodservice indirect costs for school year 2014-2015?

$_{_________________________}$

☐ THIS AMOUNT HAS NOT YET BEEN DETERMINED  ☐ DON’T KNOW

3c. I would like to confirm the indirect cost rate(s) you provided during our visit to your SFA last spring. Please tell me if there have been any updates to the following indirect cost rate(s) your school district used (or plans to use) to calculate the school year 2014-2015 indirect costs for foodservice.

You told us the _____ rate was X% (OR not used). Is that rate the rate you used or plan to use to calculate indirect costs for Fiscal Year 2014-2015?

<table>

☐ THIS RATE HAS NOT YET BEEN DETERMINED  ☐ DON’T KNOW
PART 2 – INDIRECT COSTS CHARGED TO SCHOOL FOODSERVICE

The next set of questions ask about indirect costs charged to the school foodservice account for school year 2014-2015. Indirect costs are charged when they are recorded as an expense on the financial statement for the school foodservice account. The indirect costs charged may be different from the amount of indirect costs calculated, or from the amount recovered by the school district.

3c1. Were or will indirect costs be charged to the school foodservice account for school year 2014-2015?

[IF NEEDED: The indirect costs charged may be different from the amount of indirect costs calculated by applying the indirect cost rate to the direct cost base, or from the amount recovered by the school district.]

☐ YES
☐ NO [GO TO 3g.]
☐ HAVEN’T DECIDED YET [GO TO END OF QUESTIONNAIRE]
☐ DON’T KNOW [GO TO END OF QUESTIONNAIRE.]

3d. What amount of indirect costs was or will be charged to the school foodservice account for school year 2014-2015?

[IF NEEDED: This is the amount of indirect costs shown on the expense statement for the school foodservice account.]

$___________

☐ THIS AMOUNT HAS NOT YET BEEN DETERMINED
☐ DON’T KNOW

3e. Do the indirect costs that were or will be charged to the school foodservice account for school year 2014-2015 include indirect costs for one or more previous years?

☐ YES
☐ NO [GO TO PART 3, WHICH STARTS WITH QUESTION 4a.]
☐ DON’T KNOW [GO TO PART 3, WHICH STARTS WITH QUESTION 4a.]
☐ SCHOOL DISTRICT HAS NOT YET DECIDED [GO TO PART 3, WHICH STARTS WITH QUESTION 4a.]

3f. What amount of indirect costs for one or more previous years was or will be charged to the school foodservice account for school year 2014-2015?

$___________

☐ THIS AMOUNT HAS NOT YET BEEN DETERMINED
☐ DON’T KNOW

[GO TO 4a]
3g. Please tell me if any of the following is a reason why your school district will not charge indirect costs to the school foodservice account for school year 2014-2015. READ ALL. CHECK ALL THAT APPLY.

☐ School district has no method to calculate indirect costs for school foodservice?
☐ School district does not charge indirect costs to any grant or program?
☐ School district never charges the school foodservice account for indirect costs?
☐ School district did not know it was possible to charge indirect costs to the school foodservice account?
☐ The school foodservice account has insufficient funds?
☐ School district chose to bear the costs?
☐ School district uses a foodservice management company (FSMC) and the contract does not provide for recovery of indirect costs?
☐ School district was directed by the State or another agency not to calculate indirect costs for school foodservice? (PROVIDE NAME OF AGENCY)
☐ Any other reasons? (DESCRIBE.)______________________________
☐ DON’T KNOW

GO TO END OF QUESTIONNAIRE.

PART 3 –RECOVERY OF INDIRECT COST FOR SCHOOL FOODSERVICE

Finally, we are interested in the recovery of the indirect cost of school foodservice according to the method (if any) that your school district used to calculate indirect costs for school year 2014-2015. Indirect costs are recovered when funds are transferred from the school foodservice account to the school district’s general fund to cover the indirect costs incurred by the school district in support of school foodservice.

4a. For School year 2014-2015 would you say your school district…. READ ALL. CHECK ONE.

☐ Has recovered indirect costs for school foodservice?
☐ Plans to recover indirect costs for school foodservice?
☐ Will not recover indirect costs for school foodservice? [GO TO 4d.]
☐ or, has not yet decided? [GO TO END OF QUESTIONNAIRE.]
☐ DON’T KNOW [GO TO END OF QUESTIONNAIRE.]

4b. Is the amount of indirect costs that your school district has recovered or plans to recover more than, equal to, or less than the amount of indirect costs charged to the school foodservice account for school year 2014-2015? CHECK ONE.

[IF NECESSARY: REFER TO THE AMOUNT CHARGED REPORTED IN 3d]

☐ AMOUNT RECOVERED IS MORE THAN AMOUNT CHARGED [GO TO 4d.]
☐ AMOUNT RECOVERED EQUALS AMOUNT CHARGED [GO TO END OF QUESTIONNAIRE.]
☐ AMOUNT RECOVERED IS LESS THAN AMOUNT CHARGED [GO TO 4c]
☐ SCHOOL DISTRICT HAS NOT YET DECIDED [GO TO END OF QUESTIONNAIRE.]
☐ DON’T KNOW [GO TO END OF QUESTIONNAIRE.]
4c. Please tell me if any of the following is a reason why your school district did not, or will not, recover any or all of the indirect costs charged to the school foodservice account for school year 2014-2015?

READ ALL. CHECK ALL THAT APPLY.

☐ School district does not recover indirect costs from any grant or program?
☐ School district never recovers indirect costs from the school foodservice account?
☐ School district did not know it was possible to recover indirect costs from school foodservice?
☐ The school foodservice account has insufficient funds?
☐ School district chose to bear the costs?
☐ School district uses a foodservice management company (FSMC) and the contract does not provide for recovery of indirect costs?
☐ School district was directed by the State or another agency to recover less than the calculated indirect cost? (PROVIDE NAME OF AGENCY.)

☐ DON’T KNOW
☐ Any other reasons? (DESCRIBE.)

[GO TO 4e]

4d. Why is the amount of indirect cost recovered from the school foodservice account greater than the amount charged? Is it because it.... READ ALL. SELECT ALL THAT APPLY.

☐ Includes indirect cost charged but not recovered in a previous year?
☐ Includes interest on amount charged?
☐ DON’T KNOW
☐ or, some other reason? (DESCRIBE.)

[GO TO 4e]

4e. What amount of indirect costs was or will be recovered from the school foodservice account for school year 2014-2015?

[IF NEEDED: This is the amount of funds transferred from the school foodservice account to the school district’s general fund to cover the indirect costs incurred by the school district in support of school foodservice.]

$______________

END OF QUESTIONNAIRE.

Thank you for completing this questionnaire. We may contact you if we have follow-up questions. If you have any questions about the School Nutrition and Meal Cost Study, please contact us at 866-890-6950 (toll-free) or SNMCS@SRBI.com.

Prepared by Mathematica Policy Research and Abt Associates
Handout 3: Indirect Cost Definitions

The Indirect Cost Questionnaire is divided into three sections: Calculating indirect costs; Charging indirect costs; and Recovery of indirect costs. Definitions of these three terms are listed below.

**Calculating indirect costs** for school foodservice means that the school district applies its indirect cost rate or other method to determine the indirect cost that is attributable to school foodservice for a specified period such as the fiscal year. Indirect costs must be calculated before they can be charged and recovered.

**Charging indirect costs** for school foodservice means that indirect cost is recorded as an expense on the financial statement for the school foodservice account. Indirect costs may be charged but not recovered if the school district decides not to transfer funds equal to the costs charged from the school foodservice account to the general fund.

**Recovery of indirect costs** means that funds are transferred, from the school foodservice account and other programs and grants, to the school district general fund, in payment of indirect costs.

**Additional definitions used in this questionnaire**

**Direct cost base** is the total cost of foodservice in SY2014-2015, less any amounts excluded when calculating indirect costs (e.g., capital outlays).

**Indirect cost rate** is calculated as:
Indirect Cost Rate = Total Indirect Costs ÷ Total Direct Costs

*Note: Certain costs may be excluded from indirect or direct costs according to applicable Federal and State rules for computing and claiming indirect costs.*

**Restricted indirect rates** (restricted rates) are used for grants, such as Title I, with a requirement that Federal funds supplement, not supplant non-Federal funds.

**Unrestricted indirect rates** (unrestricted rates) may be used when a requirement that Federal funds supplement, not supplant non-Federal funds, does not apply.

---

14. **Did you eat the regular school lunch [today/yesterday]?** By regular school lunch, I mean a complete meal—such as salad, soup, a sandwich, or a hot meal—not just milk, snacks, cookies, or ice cream, and not a lunch you brought from home.

   ¿Comiste el almuerzo escolar normal (hoy/ayer)? Por almuerzo escolar normal quiero decir una comida completa – tal como ensalada, sopa, un sandwich, o una comida caliente – no solamente leche, meriendas, o helados, y no un almuerzo que trajiste de casa.

   **YES** ............................................................................................................................................................. 1

51. During the past 7 days, on how many days were you physically active for a total of at least 60 minutes per day? Add up all the time you spent in any kind of physical activity that increased your heart rate and made you breathe hard some of the time. Examples of these activities are competitive sports, running, biking, brisk walking, swimming laps, dancing or pushing a lawn mower.

Durante los últimos 7 días, ¿cuántos días estuviste físicamente activo(a) por un total de por lo menos 60 minutos por día? Suma todo el tiempo que pasaste en cualquier tipo de actividad física que aumentó tu ritmo cardíaco y te hizo respirar fuerte por parte del tiempo. Ejemplos de estas actividades son deportes competitivos, correr, andar en bicicleta, caminar rápidamente, nadar, bailar o empujar una cortadora de césped.

SECTION D. HEIGHT & WEIGHT MEASUREMENTS

ALL

59. Thank you for all of your responses. We are almost finished. Now, I am going to measure your height and your weight. We are going to go over to where we are doing the measurements. Let's walk there together now.

WEIGHT:

INTERVIEWER: ENTER WEIGHT MEASUREMENT TO THE NEAREST 0.2 POUNDS
INTERVIEWER: ASK STUDENTS TO REMOVE SHOES, HATS, AND EXTRA CLOTHES
INTERVIEWER: YOU SHOULD WRITE THE MEASUREMENTS ON HARD COPY FIRST AND TRANSFER THE RESULTS INTO CAPI. PLEASE MAKE SURE THE RESPONDENT IS WITH YOU WHILE YOU ARE ENTERING THE NUMBERS INTO CAPI. IF THE PROGRAM DOES NOT ALLOW YOU TO PROCEED THEN YOU WILL NEED TO RETAKE THE MEASUREMENT.

FIRST MEASUREMENT |     |     |     |
DID NOT COMPLETE MEASUREMENT ............................................................. 0 GO TO 60
REFUSED ............................................................................................................. r GO TO 60

SOFT CHECK: IF LT 30 OR GT 200; Please confirm that the value entered matches the hard copy.

This page left blank for double-sided copying.
According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 25 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.

De acuerdo al Acta de Reducción de Papeleo de 1995, ninguna persona es requerida a responder a una colección de información al menos que muestre un número de control válido de OMB. El número válido de control OMB para esta colección de información es 0584-0596. El tiempo requerido para completar esta colección de información es estimado en un promedio de 25 minutos por respuesta, incluyendo el tiempo para revisar las instrucciones, buscar fuentes de datos existentes, recopilar los datos necesarios, y completar y revisar la colección de información.

[[Hello = 2 OR WhatAbout = 1 OR AmpPhone = 1 OR CallTTY = 1]]

Hello, my name is ____________, I am calling regarding the School Nutrition and Meal Cost Study, or SNMCS, that is sponsored by the US Department of Agriculture, Food and Nutrition Service.
Hola, mi nombre es______________. Estoy llamando acerca del Estudio de Nutrición y Costo de Comidas Escolares, o SNMCS por sus siglas en inglés, que está patrocinado por el Departamento de Agricultura, Servicio de Alimento y Nutrición de los Estados Unidos.

[ALL]
I’m part of the study team that [interviewed your child at school about the school meal programs/that will be interviewing your child about the school meal programs]. I’m calling now to see if we can do the parent interview. As you may recall from the letter and consent form sent home earlier, this study is being conducted by the U.S. Department of Agriculture to better understand how children and parents feel about the meals provided by schools, why they choose to participate or not participate in school meals, and how these decisions are related to children’s overall diets. The interview will take about 20 minutes, and your cooperation is completely voluntary. All answers you give me will be kept private and no individual results will be presented. As a thank you for your time, we will be sending you $15.

Soy parte del equipo del estudio que [entrevistó a su hijo(a) en la escuela acerca de los programas de comidas escolares /que entrevistará a su hijo(a) acerca de los programas de comidas escolares]. Estoy llamando ahora para ver si podemos realizar la entrevista de padres. Como tal vez recuerda de la carta y el formulario de consentimiento enviados a casa antes, el Departamento de Agricultura de los Estados Unidos está llevando a cabo este estudio para entender mejor cómo se sienten los niños y padres acerca de las comidas que las escuelas proporcionan, por qué eligen participar o no en las comidas escolares, y cómo estas decisiones se relacionan con la alimentación de niños en general. La entrevista llevará unos 20 minutos, y su cooperación es completamente voluntaria. Todas las respuestas que me provea se mantendrán privadas y no se presentará ningún resultado individual. Para agradecerle por su tiempo, le enviaremos $15.

For these statements, please tell me whether the statement was often true, sometimes true, or never true for [you/your household] in the last 12 months, that is, since last [FILL NAME OF CURRENT MONTH].

The first statement is, [I/we] worried whether [my/our] food would run out before [I/we] got money to buy more. Was that often true, sometimes true, or never true for [you/your household] in the last 12 months?

Ahora le voy a leer varias afirmaciones que la gente ha hecho acerca de su situación en relación a la comida. Para estas afirmaciones, por favor digame si la afirmación fue frecuentemente cierta, a veces cierta, o nunca cierta para (usted/su casa) en los últimos 12 meses, o sea desde [FILL NAME OF CURRENT MONTH] del año pasado.

La primera afirmación es: (Yo/Nosotros) estaba/estábamos preocupado(a)/os que (mi/nuestra) comida se iba a acabar antes de tener dinero para poder comprar más. ¿Fue eso frecuentemente cierto, a veces cierto o nunca cierto para (usted/su casa) en los últimos 12 meses?

*Over the course of the day, the two Field Interviewers (FIs) should aim to tag a total of: 25 breakfast trays and 40 lunch trays

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
FOOD LIST FORM
List all foods that will be offered in reimbursable meals prior to meal service, following instructions on page 9 of this booklet.

ONSITE PLATE WASTE PROTOCOL FOR FIELD INTERVIEWERS

Materials Needed
The day of the school visit, FIs need to bring:
1) School foodservice information:
   • Notes from telephone calls with school nutrition managers
   • Printed menu for target week
2) Data collection materials:
   • Plate waste observation booklets
     (Bring one for breakfast and two for lunch, for each FI. If there are two FIs, bring 6 booklets.)
   • Pens (ballpoint)
3) Plate waste measurement tools
   • Measuring cups for solid foods
   • Liquid measuring cups (two cup measure)
   • Portioned bean bags
   • Large bowl for pouring out liquids
   • Plastic bags, to ask students to deposit plate waste, if there are no cafeteria trays or plates
   • Plastic gloves (several pairs) and materials to tie up hair for foodservice setting
   • Brightly colored tags (pre-numbered for tagging trays) and extra tags
     (Note that there should be a different color tag for each FI.)
   • Pre-made signs), markers for drawing arrows that direct students to the location for depositing tagged trays, and masking tape for signs
   • Payment for purchasing reference portions of reimbursable menu items
     (According to payment method specified during reminder call)
Upon Arrival at the School
You will need adequate space and a large table, a rolling cart, or a bakery rack with sheet pans, where students can leave their trays. You will also need a trash container nearby to dispose of the waste, as well as a sink or bowl for liquids, after the observation is complete.

- Sign in at the main office—introduce yourselves and ask for directions to the cafeteria.
- Remind staff to make an announcement about the observation over the PA system.
- Introduce yourselves to the school nutrition manager and other kitchen staff and explain what you will be doing during the day. Make sure that you clarify that you are observing what students eat, not the staff’s performance.

Ask about waste disposal procedures and discuss how the plate waste observations can be set up to minimize disruption to these procedures. Ideally, the observation area should not be set up too close to the disposal area as it will cause congestion and confusion among students without tagged trays. However, the location should be close enough for you to snag any tagged students who are headed for the disposal area. Speak with janitorial staff as well, if appropriate.

- Determine the best locations to position yourself to tag trays, and for students to bring tagged trays. You may need to ask kitchen staff for a cart, table, or rack where students can return trays. Put up signs for students indicating where to return tagged trays as needed.
- If possible, ask teachers and cafeteria monitors working during meals to help to make sure tagged trays get returned to the designated location.

Obtain a printed menu (if it was not available in advance), confirm with kitchen staff what foods are offered as part of a reimbursable meal (you will do this prior to each meal served), and ask for additional foods being served, or substitute foods. If available, review the list of reimbursable foods posted on the service line. Both the menu and posted reimbursable foods list should be used for listing foods.

Plate Waste Observation Booklet
You will use the Plate Waste Observation Booklet to record both foods taken and foods left over. The cover of the booklet provides space for listing details about the observation meal periods. The inside cover is the Food List Form, which allows space for listing and describing all reimbursable foods offered during the meal period. The Plate Waste Observation Forms are half size pages, printed only on the flip side of each half-page. Each form allows space for recording foods taken and left over for two sampled students. When you flip over each Plate Waste Observation Form, it will be aligned with the Food List Form on the front inside cover, allowing the observer to easily refer to and quantify the food items taken and left over by each student.

Completing the Cover Form
The cover page of the Plate Waste Observation Booklet is used to fill in information about the meal periods included in each booklet. Meal periods and grade ranges will be discussed during the pre-visit call, and should be confirmed with the SNM upon arrival at the school.
Listing Foods

The Food List Form on the front inside cover should be used to record all USDA-reimbursable menu items offered during the meal period, prior to foodservice. This list remains visible while you are record observations of students. All FIs participating in plate waste observations should participate in compiling the food list, and agree upon what constitutes a “full” serving for each food item. List all foods offered in reimbursable meals on the Food List Form (inside cover of the Plate Waste Observation Booklet) prior to meal service as follows:

- Using the printed menu, reimbursable foods list, information from staff, and observations, list all foods available as part of a reimbursable meal on separate lines on the Food List Form. **Do not list á la carte foods or items offered just to teachers or adults.** Ask the SNM or server what the serving size is for each item if not obvious and record in the Portion Size column.
- Include enough information in the food description so that you can uniquely identify all menu items and later accurately link each item to the corresponding food on the EMS.
- It is generally useful to group foods that are served together, or in the same area of the cafeteria. For example, if a grilled cheese sandwich is paired with tomato soup, it will be helpful to write these one after the other on the Food List.
- Do not separate foods into separate components unless they can be offered to students that way. For instance, if a tuna salad sandwich on a whole wheat wrap is offered as an item, record “tuna salad on whole wheat wrap” (not “tuna salad” and “whole wheat wrap”).
- If there are a limited number of foods offered and space allows, skip a line between items, as it makes the observations easier to record.
- **If a self-serve bar is available, list it as single item** (e.g., salad bar, taco bar). If two sizes of containers are available (most likely for a salad bar), they should be listed on two lines of the Food List Form and indicate small or large, as appropriate.
- If different portion sizes of an item are available, list these on separate lines, indicating respective portion sizes.
- List all types of milk offered on a separate line for the meal (as long as they are included as part of a reimbursable meal.) Likewise, separately list all varieties of foods that may be nutritionally different, such as different types of breakfast cereal.
- You generally do not need to distinguish between different flavors of the same food (if not a different type or fat content), such as strawberry or cherry Jell-O. However, you should distinguish between the same foods that are flavored and unflavored, such as plain (unflavored) and blueberry yogurt, since these will have a different nutrient content.
- Include enough information in the food description so that you can uniquely identify all menu items and later accurately link each item to the corresponding food on the EMS.
- Do not include condiments or toppings on the Food List Form, unless they are a creditable part of the meal (such as salsa or cheese). Other condiments such as ketchup or mustard do not need to be recorded as they cannot be consistently observed as taken at the point of observation (at the POS station) in all schools.
USDA School Nutrition and Meal Cost Study

- If there are more foods than can be listed in one booklet, start a second booklet and clearly mark the “continuation” booklet on the cover page (for example, book 2 of 2).

- If different foods are served in different lines, consider assigning one FI to each line for both listing foods and tagging trays. If there is a salad line and a sandwich line, for instance, assign one FI to each to eliminate the need to juggle two observation booklets during the observations.

- If feasible, purchase a single serving of each reimbursable food offered as a reference portion. Because of space considerations and availability of foods, it may not be practical (or necessary) to have a reference portion for all foods. It is most important to purchase a reference portion for foods that do not have a “standard” size such as commercially pre-portioned foods or foods that are easily distinguishable as having a uniform size (e.g., hamburger, hot dog, chicken nuggets). For foods that are served by a foodservice worker that are non-standard in size, it is important to get a reference portion if you can. Some examples of these foods are spaghetti with meat sauce, macaroni and cheese, cooked vegetables, beans, rice, and French fries. Additionally, estimate the size of a whole piece of fruit (small, medium, large), and indicate the portion served (1/2 medium apple; 1 whole small banana).

- Regardless of whether you can purchase reference portions of all or only some foods, FIs should preview all foods on the serving line prior to the start of the meal service and agree upon what constitutes a “full” serving for each food item, and to be sure you can identify the foods easily prior to service—for example, distinguishing between a cheeseburger and a hamburger (some schools pre-wrap items like this but use a different color wrapping for each).

- For self-serve foods, a portion size is not possible but the assumption is that a full serving is equivalent to a full serving container. If a container is available, ask if you can have one to display with other reference portions.

- Ask the SNM if there are any other foods that may be served if the foods on the menu run out, and add these foods to the Food List Form. At the end of the meal observation period, cross off any foods from the list that were planned to be served, but were not served.

Sampling Students
As students go through the line, FIs need to station themselves at or near cashiers to sample students, ask if they may tag their trays, observe what is on their plates/trays, and ask for their cooperation in bringing their plate waste to the designated location. In most schools, students will be provided with trays, but in some schools, trays may not be provided to students. If no trays are used, you should ask the students to leave leftover foods on their plates, give students a plastic bag, tag it, and ask them to put all waste in the bag, including milk carton or other beverage container, so you will be able to tell which waste goes with which observation when they place their waste in the designated location. The goal is to tag 25 breakfast trays and 40 lunch trays for observation.

Before sampling, be sure to speak to the cashier and explain what will be occurring. As with other staff, make clear that you are observing the students, not the staff’s performance. If cafeteria monitors are present, ask if they can help to make sure tagged trays are returned to the designated area.
The goal is to tag 25 breakfast trays and 40 lunch trays. You will determine a sampling interval based on estimated number of meals served and the target number to observe. For example, if the school serves 400 reimbursable lunches, the interval should be 1 in every 10 students to tag 40 trays.

Guidelines for distributing observations across multiple periods and serving lines are provided below:

- Observations should be divided evenly among all meal periods or seatings. At breakfast, all students are likely to eat at about the same time, so you will complete 25 observations during that period. For lunch, however, there may be as many as six different lunch periods. If there are six lunch periods, 6 to 7 observations should be completed during each period, adding up to a total of 40.

- Once you know how many observations to complete in a given period, you can develop a plan for how to distribute your observations throughout the period by determining how many students are expected. If, for example, 100 students are expected to come through the cafeteria during a period when you need to complete 20 observations, you should observe every fifth tray (100 / 20 = 5).

- Many schools have multiple serving lines. When multiple serving lines are available, schools may have line-specific cashiers or have one or more cashiers that can check students out regardless of which line they use. If a student can go to any cashier, regardless of serving line used, all observations can be conducted at any of the available cashier areas. If, however, there are line-specific cashiers, observations will need to be spread evenly across the available serving lines, with one FI at each line. The general rule of thumb is to spend the same amount of time observing each line during each lunch period.

As students are going through the line, you should mentally count to determine which student is next for sampling, assessing to his or her best ability whether the meal is likely to be reimbursable (based on the reimbursable items listed on the Food List Form). If the line includes both reimbursable meal items and non-reimbursable meal items, count only the reimbursable meals to the extent feasible. If possible, start to note the foods on the tray. If it turns out that the assessment of which meals were reimbursable is not completely accurate once the student reaches the cash register, sample the next student in line with a reimbursable meal, and just keep counting as best you can.

It is easy to lose count while you are tagging a tray, so while you are doing the tagging assume that 5 trays have gone through the line. For example, if your interval of observation is 6, once you get back to the line, you let one tray go by before taking the next tray.

Also, do not concern yourself if you miss a few students going through the line while speaking to a sampled student, just resume counting after that student is observed.

When a student to be sampled reaches the cashier, you should confirm the meal is reimbursable by inspecting the tray, briefly explain the study and ask the student’s permission to tag the tray, being as friendly and brief as possible. Tag each sampled tray using the pre-numbered tags, sequentially. It is important to be as unobtrusive as possible in the process. Some students may be concerned that their trays are being inspected. Similarly, if the student refuses, sample the next student in line with a reimbursable meal.

Tagging Trays and Observing What Is Served

To observe tagged trays and observe student food selections you will refer to their Food List Form that includes reimbursable menu items and, on the Plate Waste Observation Form, indicate the foods the student has included on his/her tray. Note that the booklet is designed so that the Food List Form on the
inside cover lines up with the Plate Waste Observation Form which is a half-page. There is room on the form for two tray observations per page.

Record the tag number in the “#” field at the top of the Plate Waste Observation Form. Circle the gender of the student (M or F). Record the number of portions on the tray in the “# Units Served” field as quickly as possible. For each food the student has, note if there is 1 serving, 2 servings, 1.5 servings and so forth, by comparing the serving visually to the reference portions previously observed. It is not needed for this estimate to be too precise—half-serving intervals are fine. In general, you will record 1 for any item selected (to indicate that one serving of a food was taken). If a single serving consists of multiple pieces, (e.g., 5 chicken nuggets), enter “1” in the # of Units Served column. If a student takes multiple servings of an item, record the number of servings. It may be necessary to ask the student to pause briefly while the servings are entered—ideally, do this in a space beyond the cashier’s station, so as not to hold up the line. It is not necessary to distinguish the separate ingredients.

If an unexpected item appears on the line during the course of student observations, add it to your list and include it in your tally of foods selected. After the meal, you will need to check with the SNM to be sure that the food was a reimbursable item, and get a description, and portion size of the item.

If you start recording information for a particular student and then make a mistake, or can't complete the observation, draw an "X" over the observation (tray tag) number printed at the top of the column. This will tell our data entry staff to ignore this column. Do not try to make corrections during the observation period. This will only slow you down and may lead to more errors. There are more than enough forms in the observation books, so a few “lost” columns are not a problem, but you should try to make up for the lost observation during the meal same or the next meal period.

If non-reimbursable foods are included on the student’s tray, do not include them on the Plate Waste Observation Form.

**Collecting Trays and Recording Plate Waste**

Prior to the meal service you will have indicated with signs and arrows the area where students are to bring their trays when they finish eating. You should point this area out to students when they are sampled (this is part of the script). In this area, you will have already set up the purchased reference portions and the available sizes of salad bar and other food bar containers if food bars are part of the reimbursable choices. These items should be in close proximity to the area where students are dropping off their trays. It works well to put reference portions on a bakery rack with sheet pans, to conserve space, and so that students in the cafeteria do not take or tamper with them while observations are still going on.

Typically there is time during meal periods after all students are served while students are eating and before the next meal period starts. This is when you should move to the designated area for tagged trays and record the amounts wasted on the trays that have been left there. If students begin lining up for the next meal period before you finish measuring the wasted portions, you can finish measuring between the next meal period or after all meal periods. It is more important to complete the amount taken (# of units served), as the amount wasted can be captured later.

As students bring their trays to the designated area, at least one FI should be stationed at this area to thank students as they bring their trays. You should also keep an eye out for students with tagged trays
who start to bring their trays to the usual disposal site. However, some students will discard their food without bringing it to be observed, will lose their tags, or will “mess up” their trays in such a way that the food left cannot be assessed. When this happens, check the box “Tray not returned” on the Plate Waste Observation Form for that tray number.

**Assessment of Amount Wasted**

Once each tray is returned, you should assess the amount remaining for each food served on the tray as follows and record these values in the “Amount Wasted” field next to each food item:

For liquids such as milk, juices or other beverages, measure the amount left in fluid ounces by pouring any remaining liquid into the measuring cup. Record the nearest fluid ounce (you can use either of the abbreviations FOZ or fl.oz) measure in the Amount Wasted column on the Plate Waste Observation Form. If the amount is exactly halfway between FOZ marks, round up for even numbers (e.g., 2.5 = 3) and down for odd numbers (e.g., 3.5 = 3). It will be useful to have a sink nearby or a bowl to pour out the liquid after measuring (and ideally, to rinse the measuring cup).

For foods other than liquids, assess the amount LEFT relative to the servings observed earlier and record the proportion of food left using the following values:

- 0—none remains
- ¼ of the food item left
- ½ of the food item left
- ¾ of the food item left
- 1 – for full reference portion left (nothing eaten)

It is important that the amount wasted reflects the relative portion of the total number of reference portions served on a student’s tray. Keep in mind the reference portion and the number of servings noted originally on the form, so that the proportion left is relative to the amount served. For example, suppose a serving was 1 slice of bread, but the student had 2 slices on her plate when the tray was tagged. After the meal, 1 full slice remains. The appropriate code for the bread would be “1/2.”

If the amount left is between two potential estimates, choose the estimate that is closest. For example, if the amount wasted is closer to a full serving than to ¾ of a serving, record “1” in the Amount Wasted column. Likewise, if the amount left is less than half the size of the “¼” serving estimate, the amount wasted is closer to zero than to ¼, so you would record “0.”

Note any problems in recording plate waste on the Notes page.

**Reviewing Data Forms**

After all student observations have been completed, review the list of reimbursable foods on the Food List and flag the following situations: If an item that you listed was not actually served, draw a line through the menu item on the Food List. On the Notes page, indicate the items that have been crossed off. If no one takes an item that was actually offered, keep the item in the Food List.

**Linking Foods to the Menu Survey**

During each day of the target week, the SNM will be entering information about all reimbursable foods served into the EMS Reimbursable Foods Form (RFF). The purpose of the following procedure is to
correctly link the SNM’s EMS record to the foods you record in the Plate Waste Observation Booklet, in order to obtain detailed information about each item from the EMS.

**NOTE:** If the SNM is completing the menu survey on paper, instead of in the EMS, follow the “Paper Menu Survey” instructions at the end of this section.

1) When you speak with the SNM upon arrival at the school, remind him/her about the importance of promptly completing the EMS Reimbursable Foods Forms for that day, for both lunch and breakfast.

2) At the end of the day, log into the EMS via the viewing-only FI login.

3) On the **School Selection screen**, select from the drop-down lists that you are working on the Plate Waste Observation, the state where your school is located, and the school name.

4) On the **Meal Selection screen**, select the appropriate day and meal period of the target week, for the plate waste observation data that you have recorded.

**NOTE:** If the SNM has not yet completed the EMS RFF for that meal period, the meal period button will not be clickable. Remind the SNM to complete the EMS RFF and follow up.

5) On the **Confirmation screen** ensure that the state, school name, date, day of the week, and meal period all correspond to the meal period when you collected the plate waste data.

6) The information entered by the SNM for this food bar will appear on the **RFF screen**. You can return to this screen as many times as you need to. Carefully review each food item entered by the SNM to match it to the corresponding item on your form. Copy the “Line #” next to the food item in the EMS to the “Line #” column on your form, next to the corresponding food item.

7) If desired, print the EMS screen for your reference.

**Paper Menu Survey:** If the SNM is completing the Paper Menu Survey, request to see the SNM’s RFF after he or she has completed it. Carefully review each food item entered by the SNM to match it to the foods that you recorded on your form. Copy the “Line #” next to the food item in the EMS to the “Line #” column on your form, next to the corresponding food item. If the SNM has not completed the RFF by the end of the day, the entry of line numbers will be conducted by coders when the Paper Menu Survey is received.

**NOTE:** For both the EMS and Paper Menu Survey methods, make sure that all information on the two forms matches, including the food description and portion size. If it is only a partial match, or if you do not see all the food items you entered in the SNM’s records, work with the SNM to discuss and resolve the discrepancy.
Request for Data on Reimbursable Meal Sales

School Name: ________________________________

School Mathematica ID # | ___|___|___|___|___|___|___|___|

Interviewer Mathematica ID # | ___|___|___|___|___|___|___|

1. WRITE THE SCHOOL NAME AND MATHEMATICA ID ON PAGE 2 OF THIS FORM.

2. GIVE THE SCHOOL NUTRITION MANAGER OR CASHIER PAGE 2. THEN REVIEW THE INSTRUCTIONS FOR PROVIDING THE REQUESTED INFORMATION.

3. INDICATE THE STATUS OF THE REQUEST BELOW.

☐ Complete records were provided by the school.

☐ Partial records were provided by the school. (Describe missing information, reason, and plans for follow up.)

☐ No records were provided by the school. (Describe reason and plans for follow up.)

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0596. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
### Request for Data on Reimbursable Meal Sales

Please indicate whether each student listed below received a reimbursable lunch and breakfast on the target date. Only provide Certification Status (column D) if it is blank. You can provide a report from your point-of-sale system with this information, or fill in the blank columns.
