April 9, 2020

SUBJECT: Approval of Disaster Household Distribution in Response to the National Emergency Declaration Due to COVID-19

TO: Jesus Mendoza
Regional Administrator
Western Regional Office

This memorandum is in response to the South Puget Intertribal Planning Agency’s (SPIPA) request to use U.S. Department of Agriculture’s (USDA) Foods to operate disaster household distribution. This request is in response to food assistance needs resulting from the COVID-19 National Emergency declared by the President of the United States on March 13, 2020.

SPIPA, which administers the Food Distribution Program on Indian Reservations (FDPIR), requested that USDA approve the use of USDA Foods from FDPIR for disaster household distribution. The disaster household distribution food package will be provided to households in need of food assistance. SPIPA will utilize on-site pickup at its main food distribution facility and mobile distribution to provide the disaster household distribution food package.

Approval is granted for disaster household distribution beginning April 13, 2020 through May 12, 2020. This approval allows SPIPA to serve up to 350 individuals a disaster household distribution food package while continuing to support their existing FDPIR caseload. The following foods are approved for the disaster household distribution food package for a household of one-to-two members, which is an adjustment of the foods requested:

- 2 cans of vegetables
- 2 cans of fruit or 2 units of dried fruit
- 2 units of beans
- 1 bakery mix or flour
- 2 cans of meat
- 2 soups
- 1 juice
- 1 peanut butter
- 2 rice/cracker/pastas
- 1 cereal
- 2 milks

For larger households, SPIPA has approval to provide additional disaster household distribution food packages based on household size. For example, a household of four could receive two disaster household distribution food packages.
Terms of Approval:

The USDA Food and Nutrition Service (FNS) is approving SPIPA’s request under the following terms:

1. SPIPA must provide on a weekly basis beginning on April 13, 2020 an estimate of: 1) the amount of FDPIR inventory used for the disaster household distributions; and 2) the number of persons served under disaster household distribution.

2. Please conduct outreach and distribution efforts in a manner to ensure that households that are suffering significant economic losses or significant food access challenges due to COVID-19 are served first.

3. Approval for disaster household distribution is granted through May 12, 2020. Existing FDPIR inventories must be utilized to operate a disaster household distribution including orders placed and scheduled for delivery. Please keep in mind that replacement foods may not be available for delivery until July 2020 and beyond.

Authority

The approval of disaster household distribution of USDA Foods is in accordance with FNS regulations at 7 CFR 250.69. South Puget Intertribal Planning Agency must provide a summary report via the FNS-292A form within 45 days following termination of the disaster household distribution. The information reported on the FNS-292A is the location of distribution sites, the number of persons served, and the type and quantity of USDA Foods distributed.
